Rape Victim Clinical And Community Interventions:

The Rape Victim Mary P. Koss, Mary R. Harvey, 1991-04 Rape is an all too familiar event in many women's lives. But what is being done to prevent its occurrence? How do victims deal with the trauma of rape? How are local agencies dealing with the increase of victims? How effective are available treatment programs? From the causes of rape to its lingering effects from disclosure to treatment, *The Rape Victim* offers the most complete examination to date on this most heinous crime. The authors address the trauma of rape prevention, rape as a community issue, rape crisis centers, rape clinical treatment of rape victims, and group treatment for survivors. Psychologists, mental health professionals, social workers, criminologists, nurses, and counselors will benefit from the wealth of information contained in this impressive volume. Particularly recommended as supplemental reading for college programs on women's and social issues. *The Midwest Book Review* Excellent on incidence of rape, why federal statistics are flawed, the impact of rape on the victim, how society responds, how rape crisis centers evolved, offers empowerment and the best model for change, and how to lessen the trauma of rape. Techniques for therapeutic treatment are discussed, including group treatment for survivors. *The Women's Advocate*

The Trauma of Sexual Assault Jenny Petrak, Barbara Hedge, 2003-07-07 The psycho-social needs of victims of rape and sexual assault are increasingly recognised, and there is a need for a critical synthesis of knowledge and practice to support the development of training and best practice in the mental health and sexual health professions. *The Trauma of Sexual Assault* provides an understanding of the theoretical underpinning of the wide range of clinical problems that can follow sexual assault. Focusing on adult victims of sexual assault, this book brings together research findings, theoretical perspectives, and implications for treatment, longer term management, and future policy. The first text to consider the psychological impact of sexual assault on women and men. Incorporates a comprehensive flow-through model of psychological and social management from the initial presentation of the assaulted person onwards. A much needed reference accessible to a wide range of professionals. Part of the Wiley Series in Clinical Psychology.

The Criminal Justice and Community Response to Rape Joel Epstein, Stacia Langenbahn, 1994 Describes recent reforms adopted in some jurisdictions such as protecting the anonymity of the victim, allowing complainants to report sexual assault even when the victim chooses not to press charges. Law enforcement officials, district attorneys have worked to support compensation for victims, also have created victim witness advocate positions to help victims navigate the criminal justice process, speed their recovery. Contains a glossary, resources, tables.

Rape Work Patricia Yancey Martin, 2013-01-11 Despite the proliferation of rape crisis centers and other improvements in the treatment of rape victims over the past 20 years, many victims still find themselves the victims of what has been called a second rape by doctors, lawyers, judges, police, and administrators that process them. This book takes a critical look at the organizations and officials that process rape victims to see how the structure of their respective

organizations often prevent them from providing responsive care *Attitudes Toward Rape* Colleen A. Ward,1995-06-22 This innovative book looks at popular perceptions of sexual violence and asks such key questions as How is rape defined Who is responsible for sexual assault How can rape be prevented The author critically examines feminist and psychological theory and research on attitudes towards rape Drawing on case studies survey research experiments fieldwork and action oriented research from Europe North America and Asia Ward combines qualitative and quantitative approaches to understanding sexual violence She highlights the negative consequences for rape victims of biased and prejudicial perceptions of sexual violence including those of legal medical and helping professionals and discusses the impact of these attitudes on victims self perceptions The book concludes by suggesting strategies for changing ideas about sexual assault including for example action oriented research which is designed to raise consciousness and improve services for victims **Just Sex?** Nicola Gavey,2013-10-14 Winner of the Association for Women In Psychology 2006 Distinguished Publication Award The past two decades have witnessed a significant shift in how rape is understood in Western societies This shift in perception has revealed the startling frequency of occurrences of date rape obscuring the divide between rape and what was once just sex Just Sex combines an overview of the existing literature with an analysis of recent research to examine the psychological and cultural implications of this new epidemic The result is the conclusion that feminist theory on sexual victimisation has gone both too far and not far enough The reader is presented with a challenging and original perspective on the issues of rape sex and the body incorporating subjects including rape as a social problem the social constructionism of sex subjectivity and the body heterosexuality under the microscope This book succeeds in making a valuable contribution to feminist and social constructionist work on rape that will be of interest to those studying psychology gender studies cultural studies and sociology Just Sex The Cultural Scaffolding of Rape was selected as a 2005 winner of AWP s Association for Women in Psychology distinguished publication award **Emergencies in Mental Health Practice** Phillip M. Kleespies,2000-01-27 Focusing on acute clinical situations in which there is an imminent risk of serious harm or death to self or others this practical resource helps clinicians evaluate and manage a wide range of mental health emergencies Authors examine how to distinguish crises that are emergencies from those that are not and provide basic instruction in crisis theory and emergency interviewing The volume then provides guidelines for intervening with suicidal patients potentially violent patients and vulnerable victims of violence as well as patients facing life and death medical decisions with careful attention to risk management and forensic issues Also addressed are emergency related conditions including self mutilation alcohol and drug related crises adverse reactions to psychotropic medication and psychological symptoms of medical conditions Finally chapters consider the effects of emergency intervention on clinicians and offer suggestions for managing stress Companion Reader on Violence Against Women Claire M. Renzetti,Jeffrey L. Edleson,Raquel Kennedy Bergen,2011-04-26 Designed to advance knowledge about violence against women and to serve as an inspiration to those studying or working in the field this companion reader s

20 original articles focus first on theoretical and methodological issues then on types of violence against women and finally on prevention and direct intervention Readers will find a wide range of articles that draw attention to the global dimensions of violence against women and the importance of taking into account political economic and cultural differences across diverse groups of people While the book's articles are designed as companion pieces to the chapters in the Second Edition of the Sourcebook this reader may also be used as a stand alone text by those researching specific topics such as diversity issues conducting trainings or teaching advanced courses such as international social work

Many Mirrors Nicole Landry Sault, 1994 We've needed a book like Many Mirrors for a long time In the veritable explosion of new scholarship on the human body this book stands out in its focus on empirical research Many Mirrors will move the Anthropology of the Body a giant step forward C H Browner University of California at Los Angeles In every society people define and change their physical appearance in response to their relationships to others we add clothes and masks remove them build up our muscles perforate our flesh cut parts away comb our hair and modify our diets In rural Jamaica fat women are considered desirable in American suburbia teenage girls are obsessed with thinness Bedouin women use tattoos to express their secret longings Asian American women undergo cosmetic surgery to conform to internalized western standards of beauty Even with mirrors to see ourselves we rely on the reactions of others to learn how we look and who we are Where contemporary Western culture sees the body as a concrete thing with an objective observable reality separate from the self many other societies regard the person as an integrated whole that includes the mind the body and the spirit Through the contributors' studies of individual cultures and through the editor's unifying body image system this volume gives us a new conceptual framework for understanding how women and men in any society perceive describe and alter their bodies
