## **Sanctions In Haiti Human Rights And Democracy Under Assault:**

**Sanctions In Haiti** Elizabeth D. Gibbons,1999-01-30 An analysis of ruinous three year trade embargo imposed on Haiti in response to the September 1991 coup d etat to President Aristide s return to office in 1994 It dissects the impact of sanctions on Haiti society and examines the economic devastation and social dislocation they provoked **Human Rights in the Americas** James T. Lawrence,2004 The existence of human rights helps secure the peace deter aggression promote the rule of law combat crime and corruption and prevent humanitarian crises These human rights include freedom from torture freedom of expression press freedom women s rights children s rights and the protection of minorities This book surveys the countries of the Americas and is augmented by a current bibliography and useful indexes by subject title and author **Marines on the Beach** Christopher Paul,2008-09-30 Paul explores both how and why U S military intervention decisions are made Pursuit of that inquiry requires the identification of decision participants thorough examination of the decision making processes they employ and recognition of several factors that influence intervention decisions the national interest legitimacy and the legacies of previous policies This book provides chapter length treatment of each of these issues The research is based on detailed historical case studies for the four U S Marines on the beach military interventions in Latin America since World War II The Dominican Republic 1965 Grenada 1983 Panama 1989 and Haiti 1994 Additional cases notably Afghanistan and Iraq enter the discussion when considering findings with broader implications Of the existing theories of governance that compete to explain government policy making Paul finds that elite theory provides the best general model for intervention decision making but that the notions of both pluralist and class theorists contribute to a complete explanation and sometimes in an unexpected way Findings also indicate considerable contribution from and constraint by institutional sources However far from finding that institutional factors are wholly deterministic this research offers support for a choice within constraints model Conclusions suggest that top decision makers especially the president enjoy wide latitude in framing the national interest and in choosing where to and where not to intervene NGOs in China and Europe Yuwen Li,2016-05-06 This volume presents a comparison of the experiences of NGOs in China and Europe The chapters on China contain the most comprehensive and up to date analysis of various types of NGOs currently active in the country The contributions on foreign NGOs in China non governmental think tanks public interest legal organizations labour related NGOs and charity organizations are the first in English to discuss successful experiences as well as the difficulties they face in the post Mao era The European studies draw examples from countries where the experiences of NGOs are at various stages of development The section on NGOs in Central and Eastern Europe examines the rapid expansion of civil society and their pivotal role in promoting political change and building democracy in a transitional society as well as the challenges they confront in advancing a strong civil society Those chapters on NGOs experiences in Western European countries especially in the Netherlands and the UK provide insightful information and examination of the most contentious

issues concerning NGOs accountability governance and relationship with the government      **Sharing the Front Line and the Back Hills** Yael Danieli, 2018-10-26 *Sharing the Front Line and the Back Hills* points to a crisis facing international institutions and the media who seek to alleviate and report human suffering throughout the world The goals of the editor are to tell the story of thousands of individuals dedicated to helping others and to integrate issues of protection and care into all levels of planning implementing and evaluating international intervention and action The book identifies approaches that have proven useful and explores and suggests future directions      *Strengthening the Rule of Law through the UN Security Council* Jeremy Farrall, Hilary Charlesworth, 2016-04-14 The UN Security Council formally acknowledged an obligation to promote justice and the rule of law in 2003 This volume examines the extent to which the Council has honoured this commitment when exercising its powers under the UN Charter to maintain international peace and security It discusses both how the concept of the rule of law regulates or influences Security Council activity and how the Council has in turn shaped the notion of the rule of law It explores in particular how this relationship has affected the Security Council's three most prominent tools for the maintenance of international peace and security peacekeeping sanctions and force In doing so this volume identifies strategies for better promotion of the rule of law by the Security Council This book will be of interest to scholars and students of international law international relations international development and peacekeeping

*Postcolonial Disorders* Mary-Jo DelVecchio Good, Sandra Teresa Hyde, Sarah Pinto, Byron J. Good, 2008-02-04 The essays in this volume reflect on the nature of subjectivity in the diverse places where anthropologists work at the beginning of the twenty first century Contributors explore everyday modes of social and psychological experience the constitution of the subject and forms of subjection that shape the lives of Basque youth Indonesian artists members of nongovernmental HIV/AIDS programs in China and the Republic of Congo psychiatrists and the mentally ill in Morocco and Ireland and persons who have suffered trauma or been displaced by violence in the Middle East and in South and Southeast Asia Painting on book jacket by Entang Wiharso      **Smart Sanctions** David Cortright, George A. Lopez, 2002 *Smart Sanctions* explores the emerging concept of targeted sanctions and provides a comprehensive framework for new sanctions strategies for the 21st century It includes essays by experts and analysts from the United Nations community the European Union the United States Government and the academic community Visit our website for sample chapters      Mass Media and Foreign Policy Walter C. Soderlund, 2003-05-30 The terrorist attacks on the United States that occurred on September 11 marked the end of an historical era known as the post Cold War period During this time the U S government produced no clear media guidelines for dealing with world crises and media coverage increasingly came to be focused on domestic conflicts rather than international ones In the absence of a clearly defined threat no dominant media frame replaced the time worn Cold War in media reporting Mass media has been recognized as an important intermediary between the government and the population In this context this study examines network coverage of seven post Cold War crises ranging from Cuba to Mexico occurring

in the Caribbean Basin between 1990 and 1996 to evaluate the framing of these events by the various media covering them. In providing context for understanding these crises this examination reviews U S policy in each case and discovers a strong correlation between the level of U S involvement in the crisis and the amount of media attention generated. By appearing on the news or not the president along with key Cabinet members were able to define whether an event constituted a crisis for the United States. In instances where the media received little guidance from Washington officials on the implications for the United States the media did attempt to provide explanations of events however coverage tended to be minimal. Case studies include the recording and coding of language used as positive negative and neutral ambiguous. Renegade Regimes Miroslav Nincic, 2005-10-26. Rogue states pursue weapons of mass destruction support terrorism violate human rights engage in acts of territorial aggression and pose a threat to the international community. Recent debates and policy shifts regarding Iraq North Korea Syria Iran and Afghanistan reflect the uneven attempts to contend with regimes that pursue deviant behavior. In this timely new work Miroslav Nincic illuminates the complex issues and policy choices surrounding clashes between international society and states that challenge the majority's espoused interests and values. As conventional approaches to international relations lose their relevance in a changing world Nincic's work provides new and necessary frameworks and perspectives. Nincic explores recent events and develops theoretical models of contemporary asymmetrical power relations among states to offer a systematic account of the genesis trajectory and motivations of renegade regimes. He discusses how the pursuit of policies that defy international norms is often motivated by a regime's desire for greater domestic control. From this starting point Nincic considers states deviant behavior through two stages the first is the initial decision to defy key aspects of the international normative order and the second is the manner in which subsequent behavior is shaped by the international community's responses. In addressing attempts to control pariah states Nincic assesses the effectiveness of sanctions and military responses. He provocatively argues that comprehensive economic sanctions can lead to a restructuring of the renegade regime's ideology and economy that ultimately strengthens its grip on power. In his chapter on military intervention Nincic argues that force or the threat of force against a rogue state frequently triggers a protective reflex among its citizens inspiring them to rally around the government's goals and values. Military threats Nincic concludes produce several kinds of consequences and their impact needs to be better understood. Policy Passages Howard J. Wiarda, 2002-12-30. **The Chapter VII Powers of the United Nations Security Council** Erika de Wet, 2004 This study provides a comprehensive analysis of the questions pertaining to the powers of the Security Council under Chapter VII of the Charter of the United Nations In doing so it departs from the premise that an analysis of the limitations to the powers of the Security Council and an analysis of judicial review of such limitations by the ICJ respectively are inter dependent On the one hand judicial review would only become relevant if and to the extent that the powers granted to the Security Council under Chapter VII of the Charter are subject to justiciable limitations On the other hand the relevance of any limitation to the powers of the Security Council would remain limited if it could not be enforced by judicial review This inter dependence is reflected by the fact that Chapters 2 and 3 focus on judicial review in advisory and contentious proceedings respectively whereas Chapters 4 to 9 examine the limits to the powers of the Security Council The concluding chapter subsequently illuminates how the respective limits to the Security Council's enforcement powers could be enforced by judicial review It also explores an alternative mode of review of binding Security Council decisions that could complement judicial review by the ICJ notably the right of states to reject illegal Security Council decisions as a right of last resort The space and attention devoted to the limits to the Security Council's enforcement powers reflects the second aim of this study namely to provide new direction to this aspect of the debate on the Security Council's powers under Chapter VII of the Charter It does so by paying particular attention to the role of human rights norms in limiting the type of enforcement measures that the Security Council can resort to in order to maintain or restore international peace and security

*Targeted Sanctions* Thomas J. Biersteker, Sue E. Eckert, Marcos Tourinho, 2016-03-17 Systematically analyzes the impacts and the effectiveness of UN targeted sanctions over the past quarter century

*Frankétienne and Rewriting* Rachel Douglas, 2009-06-16 Rewriting in the context of critical work on Caribbean literature has tended to be used to discuss revisionism from a variety of postcolonial perspectives such as rewriting history or rewriting canonical texts By shifting the focus to how Caribbean writers return to their own works in order to rework them this book offers theoretical considerations to postcolonial studies on literariness in relation to the near obsessive degree of rewriting to which Caribbean writers have subjected their own literary texts Focusing specifically on FrankZtienne this book offers an overview of how the defining aesthetic and thematic components of FrankZtienne s major works have emerged over the course of his forty year writing career It reveals the marked development of key notions guiding his literary creation since the 1960s and demonstrates that rewriting illustrates the central aesthetic of the Spiral which has always shaped his Iuvre It is the book argues the constantly moving form of the Spiral which FrankZtienne explores through his constant reworking of his previously written texts FrankZtienne and Rewriting negotiates between the literary and material ends of the burgeoning field of postcolonial studies arguing that literary characteristics in FrankZtienne connect with changing political social economic and cultural circumstances in the Haiti he rewrites
