Australian Journal of Remedial Education, 1976 **The Meaning Makers** Gordon Wells, 2009-08-18

The Meaning Makers is about children's language and literacy development at home and at school. Based on the Bristol Study Language at Home and at School, which the author directed, it follows the development of a representative sample of children from their first words to the end of their primary schooling. It contains many examples of their experience of language in use, both spoken and written, recorded in naturally occurring settings in their homes and classrooms, and shows the active role that children play in their own development as they both make sense of the world around them and master the linguistic means for communicating about it. Additionally, this second edition also sets the findings of the original study in the context of recent research in the sociocultural tradition inspired by Vygotsky's work and includes examples of effective teaching drawn from the author's recent collaborative research with teachers. [Language Topics](#)

Ross Steele, Terry Threadgold, 1987-01-01

This volume in honour of Michael Halliday begins with a section on the background to the development of MAK's ideas. The second section groups papers on language development in early childhood, which has always been one of Halliday's main interests. The focus of the third section is on aspects of synchronic and diachronic change in language. Halliday has always emphasised the dynamic interaction between these two perspectives in relation to language use in social contexts. The final section caters to Halliday's interest in ethnographic, anthropological, and educational issues and explores language use in a diversity of world contexts. *Literacy in America* Barbara J. Guzzetti, 2002-12-02

The definitive encyclopedic resource on literacy: literacy instruction and literacy assessment in the United States. Once upon a time the three Rs sufficed. Not any more, not for students, not for Americans. Gone the way of the little red school house is simple reading and writing instruction. Surveying an increasingly complex discipline, *Literacy in America: An Encyclopedia* offers a comprehensive overview of all the latest trends in literacy education: conceptual understanding of texts, familiarity with electronic content, and the ability to create meaning from visual imagery and media messages. Educators and academicians call these skills multiple literacies, shorthand for the kind of literacy skills and abilities needed in an age of information overload, media hype, and Internet connectedness. With its 400 A-Z entries researched by experts and written in accessible prose, *Literacy in America* is the only reference tool students, teachers, and parents will need to understand what it means to be and become literate in 21st-century America. **The Reading Teacher**, 1980

[Bilingualism and Language Disability \(PLE: Psycholinguistics\)](#) Nick Miller, 2013-11-12

Society is becoming increasingly multi-lingual, and this presents monolingual professionals, particularly those in special education and speech pathology, with

severe problems Is the language delay in a child from a bilingual environment a result of this background or is there a specific speech problem Is a child s poor performance in school due to his problems of coping with two languages or does he need remedial teaching Originally published in 1984 this book is not concerned with second language learning but with speech and learning difficulties in bilingual children as they are presented to remedial teachers psychologists and speech therapists To this end the first group of specially written articles deals with the patterns of language usage in bilingual communities and the social and psychological factors which shape these patterns with processes in normal bilingual language acquisition and with the relationship between cognitive development and growing up with two languages Management issues and methods involved in helping children with language problems are also tackled they include taking case histories family liaison counselling bilingual programmes mother tongue teaching curriculum development and the training of personnel to work in the bilingual bicultural field This book provided a great deal of practical help in a field that was relatively new at the time of writing and helped to enlighten readers on the issues involved and assist in crystalising thought and directing future research

Overcoming Dyslexia Hilary Broomfield,Margaret Combley,2003-04-11 This second edition has benefited from the experience of teachers and pupils using the first edition in the classroom The authors have created links between multisensory learning and the National Literacy Strategy applying these to the National Literacy Framework and the Literacy Hour
