Cosmogogenesis](#), Helena Petrovna Blavatsky, 2015-02-11 This is the second section of the first volume of a theosophical work by Helena Petrovna Blavatsky Originally published in 1917 it contains chapters on Symbolism and Ideographs The Mundane Egg the Lotus as a Universal Symbol and much more taking the reader on a journey through the various overlapping aspects of science religion and philosophy To the republication of this work a specially commissioned new biography of the author has been added This is a fascinating work for anyone with an interest in the writings of this renowned author of philosophy and occultism *The Secret Doctrine* Helena Petrovna Blavatsky, 2015-01-27 The Secret Doctrine the Synthesis of Science Religion and Philosophy a book originally published as two volumes in 1888 is Helena P Blavatsky's magnum opus The first volume is named Cosmogogenesis the second Anthropogenesis It was an influential example of the revival of interest in esoteric and occult ideas in the modern age in particular because of its claim to reconcile ancient eastern wisdom with modern science Blavatsky claimed that its contents had been revealed to her by mahatmas who had retained knowledge of mankind's spiritual history knowledge that it was now possible in part to reveal The first part of the book explained the origins of the universe itself in terms derived from the Hindu concept of Yugas or long passages of time through which the world is supposed to have evolved Blavatsky attempted to demonstrate that the discoveries of materialist science had been anticipated in the writings of ancient sages and that materialism would soon be proven wrong Quote from wikipedia.org *The Secret Doctrine* H. P. Blavatsky, 2017-06-06 This is volume II of Helena Petrovna Blavatsky's The Secret Doctrine The Synthesis of Science Religion and Philosophy Helena Petrovna Blavatsky 12 August 1831 8 May 1891 was a Russian spirit medium occultist and author She co founded the Theosophical Society in 1875 and gained international popularity for being the leading theoretician of Theosophy This book will appeal to those with an

interest in the occult and the work of Helena Petrovna Blavatsky and it is not to be missed by collectors of vintage occult literature Contents include Esoteric Tenants Corroborated in Every Scripture Adam Adami The Holy of Holies Its Degradation On The Myth of the Fallen Angel in its Various Phases The Evil Spirit Who and What The Gods of Light proceed from Gods of Darkness The Many Meanings of the War in Heaven etc Many vintage books such as this are becoming increasingly scarce and expensive We are republishing this volume now in an affordable modern high quality edition complete with a specially commissioned new biography of the author [The Secret Doctrine: The Synthesis of Science, Religion, and Philosophy Volume I: Cosmogogenesis](#) Helena Petrovna Blavatsky,2018-02-24 The first book in the monumental work of Theosophic thought This book focuses on gaining occult power in the formation of the universe and the cosmos This group sought to learn the secrets of nature science and divinity in order to empower themselves to godhood and this book reveals their secrets as to how knowledge to do this can be attained It does not reveal what the ultimate saving knowledge is that can do this but it gives guidelines on how to start the journey for yourself *The Secret Doctrine* Helena Petrovna Blavatsky,1970 *The Secret Doctrine: The Synthesis of Science, Religion, and Philosophy (Complete)* Helena Petrovna Blavatsky,2020-09-28 Since the appearance of Theosophical literature in England it has become customary to call its teachings Esoteric Buddhism And having become a habit as an old proverb based on daily experience has it Error runs down an inclined plane while Truth has to laboriously climb its way up hill Old truisms are often the wisest The human mind can hardly remain entirely free from bias and decisive opinions are often formed before a thorough examination of a subject from all its aspects has been made This is said with reference to the prevailing double mistake a of limiting Theosophy to Buddhism and b of confounding the tenets of the religious philosophy preached by Gautama the Buddha with the doctrines broadly outlined in Esoteric Buddhism Any thing more erroneous than this could hardly be imagined It has enabled our enemies to find an effective weapon against Theosophy because as an eminent P li scholar very pointedly expressed it there was in the volume named neither Esotericism nor Buddhism The esoteric truths presented in Mr Sinnett s work ceased to be esoteric from the moment they were made public nor did the book contain the religion of Buddha but simply a few tenets from a hitherto hidden teaching which are now explained and supplemented by many more in the present volumes And even the latter though giving out many fundamental tenets from the Secret Doctrine of the East raise but a small corner of the dark veil For no one not even the greatest living Adept would be permitted to or could even if he would give out promiscuously to a mocking unbelieving world that which has been so effectually concealed from it for long ons and ages Esoteric Buddhism was an excellent work with a very unfortunate title though it meant no more than does the title of this work The Secret Doctrine It proved unfortunate because people are always in the habit of judging things by their appearance rather than by their meaning and because the error has now become so universal that even most of the Fellows of the Theosophical Society have fallen victims to the same misconception From the first however protests were raised by

Brahmans and others against the title and in justice to myself I must add that Esoteric Buddhism was presented to me as a completed volume and that I was entirely unaware of the manner in which the author intended to spell the word Budhism
