excess for the sake of entertainment it raises the question of intentionality what is behind the spectacular Is there always a manipulative purpose How far reaching are the political and ideological stakes The contributors to this volume investigate a broad spectrum of particular phenomena the spectacular sound effects and pyrotechnics displayed for the opening of the Globe theatre with Julius Caesar on performance George Gascoigne s lavish 1575 pageant commissioned by the Earl of Leicester for the queen at Kenilworth The Princely Pleasures the relationship between the spectacular and scientific discoveries as well as their dialectics of appropriation the impact of Mannerist art on The Winter s Tale Coriolanus resistance to ostentation and political shows the anti spectacular counter current running through Timon of Athens Julia Pascal s innovative 2007 stage production of The Merchant of Venice apocalyptic screen adaptations of turn of the century Jacobean tragedies and Richard III s potential to be graphically interpreted in 2008 as political satire and as a danse macabre

Narcissism and Suicide in Shakespeare and his Contemporaries Eric Langley, 2009-11-12 The subjects of this book are the subjects whose subjects are themselves Narcissus so himself himself forsook And died to kiss his shadow in the brook In accusing the introspective Adonis of narcissistic self absorption Shakespeare s Venus employs a geminative construction himself himself that provides a keynote for this study of Renaissance reflexive subjectivity Through close analysis of a number of Shakespearean texts including Venus and Adonis Romeo and Juliet Julius Caesar Hamlet and Othello his book illustrates how radical self reflection is expressed on the Renaissance page and stage and how representations of the two seemingly extreme figures of the narcissist and self slaughterer are indicative of early modern attitudes to introspection Encompassing a broad range of philosophical theological poetic and dramatic texts this study examines period descriptions of the early modern subject characterised by the rhetoric of reciprocation and reflection The narcissist and the self slaughterer provide models of dialogic but self destructive identity where private interiority is articulated in terms of self response but where this geminative isolation is understood as self defeating both selfish and suicidal The study includes work on Renaissance revisions of Ovid classical attitudes to suicide the rhetoric of friendship literature discussion of early modern optic theory and an extended discussion of narcissism in the epyllia tradition Sustained textual analysis offers new readings of major Shakespearean texts allowing familiar works of literature to be seen from the unusual and anti social perspectives of their narcissistic and suicidal protagonists

paperback with a new preface bringing the book up to date this is an invaluable reference tool *Shakespeare and the Geography of Difference* John Gillies,1994-05-12 In this engaging book John Gillies explores Shakespeare's geographic imagination and discovers an intimate relationship between Renaissance geography and theatre arising from their shared dependence on the opposing impulses of taboo laden closure and hubristic expansiveness Dr Gillies shows that Shakespeare's images of the exotic the barbarous outlandish or strange are grounded in concrete historical fact to be marginalised was not just a matter of social status but of belonging quite literally to the margins of contemporary maps Through an examination of the icons and emblems of contemporary cartography Dr Gillies challenges the map makers overt intentions and the attitudes and assumptions that remained below the level of consciousness His study of map and metaphor raises profound questions about the nature of a map and of the connections between the semiology of a map and that of the theatre

Duggan,2021-09-03 The Teaching Success Guide for the Advanced Placement Classroom series helps teachers motivate students above and beyond the norm by introducing investigative hands on activities including debates role plays experiments projects and more all based on Advanced Placement and college level standards for learning Julius Caesar allows teachers to take a fresh approach to one of Shakespeare's most famous plays by moving beyond basic history and memorization of quotes Students will engage in performance approaches to the text recreate the story's events in a news show format participate in collaborative literature workshop activities and debate whether Caesar could have prevented his assassination The author also provides easy to use discussions of Shakespeare's language and how Julius Caesar can be studied from different critical perspectives Grades 7-12 [Identity, Otherness and Empire in Shakespeare's Rome](#) Maria Del Sapio Garbero,2016-12-14 Contributors to this collection delve into the relationship between Rome and Shakespeare They view the presence of Rome in Shakespeare's plays not simply as an unquestioned model of imperial culture or a routine chapter in the history of literary influence but rather as the problematic

link with a distant and foreign ancestry which is both revered and ravaged in its translation into the terms of the Bard's own cultural moment. During a time when England was engaged in constructing a rhetoric of imperial nationhood, the contributors demonstrate that Englishmen used Roman history and the classical heritage to mediate a complex range of issues from notions of cultural identity and gender to the representation of systems of exchange with Otherness in the expanding ethnic space of the nation. This volume addresses matters of concern not only for Shakespeare scholars but also for students interested in issues connected with gender, postcolonialism and globalization. Drawing implicitly or explicitly on recent criticism, intertextual studies, postcolonial theory, Derrida's conceptualization of hospitality, gender studies, global studies, the essayists explore how the Roman Shakespeare of an emerging early modern empire asks questions of our present as well as of our past.

Coriolanus David George, 2022-02-10. First published in 2004, David George's majestic compendium of criticism relating to Shakespeare's *Coriolanus* was recognised as a major contribution to teaching and scholarship on the play. This new edition has been updated with a new supplementary introduction by the author tracing criticism on the play since that first publication, including materialist, psychoanalytic and feminist readings, as well as further readings of the play's politics. As with all titles in the series, this edition increases our knowledge of how Shakespeare's plays were received and understood by critics, editors and general readers. The volume offers, in separate sections, both critical opinions about the play across the centuries and an evaluation of their positions within and their impact on the reception of the play. The chronological arrangement of the text excerpts engages the readers in a direct and unbiased dialogue, whereas the substantial introduction offers a critical evaluation from a current stance, including modern theories and methods. Thus, the volume makes a major contribution to our understanding of the play and of the traditions of Shakespearean criticism surrounding it as they have developed from century to century.

Questioning Bodies in Shakespeare's Rome

Maria Del Sapio Garbero, 2010. Ancient Rome has always been considered a compendium of City and World. In the Renaissance, an era of epistemic fractures when the clash between the new science (Copernicus, Galileo, Vesalius, Bacon, etcetera) and the authority of ancient texts produced the very notion of modernity, the extended and expanding geography of ancient Rome becomes, for Shakespeare and the Elizabethans, a privileged arena in which to question the nature of bodies and the place they hold in a changing order of the universe. Drawing on the rich scenario provided by Shakespeare's *Rome* and adopting an interdisciplinary perspective, the authors of this volume address the way in which the different bodies of the earthly and heavenly spheres are re-mapped in Shakespeare's time and in early modern European culture. More precisely, they investigate the way bodies are fashioned to suit or deconstruct a culturally articulated system of analogies between earth and heaven, microcosm and macrocosm. As a whole, this collection brings to the fore a wide range of issues connected to the Renaissance re-mapping of the world and the human. It should interest not only Shakespeare scholars but all those working on the interaction between sciences and humanities.
