Shang Han Lun On Cold Damage Translation And Commentaries:

Shang Han Lun Zhang Ji, 2022-07-26 The Shang Han Lun has been a primary treatment theory and practice source for nearly two millennia. Its author Zhang Zhong Jing has been named the Chinese Hippocrates to highlight the depth and breadth of his contribution to traditional Chinese drug therapy. This edition features the Chinese text, Pinyin transliteration, and an English translation of the entire Song Dynasty text, the content and textual order most used in Asia. Just as in Chinese language editions, it is fully supplemented with notes and commentaries. The notes describe the clinical symptoms Zhang Zhong Jing associated with the Chinese terms. For example, modern interpretations of a moderate pulse often refer to the speed of its beats. The same term when used in the Shang Han Lun refers to a pulse that is loose, soft, and harmonious. Such notes provide practitioners with the clinical observations necessary to properly apply the information. The commentaries further enhance the text's clinical utility by explaining the theoretical and practical foundations behind the lines of text. Because entire bodies of theory and practice can be associated with the terms and expressions used in canonical works like the Shang Han Lun, commentaries have become a standard means of knowledge acquisition for Asian students. The commentaries in this edition serve exactly the same purpose, greatly enhancing its utility. The introductory matter explains the background of the text, the conceptual structure of its contents, and the problems of exegesis. The appendices are designed to assist those studying Chinese, and the glossary and the full Pinyin-English index make this an easily accessed reference.

Discussion of Cold Damage (Shang Han Lun) Guohui Liu, 2015-11-21 A major new translation of the Chinese classic Shang Han Lun by scholar and medical doctor Guohui Liu makes this foundational text fully accessible to English-speaking clinicians for the first time. Extensive study and research underpins the translation; the author's understanding of both classical and modern Chinese enables him to interpret fully the ancient work within the theory of Chinese medicine. An extensive commentary explains the translation, the difficulties with the text, how it has been subsequently translated, and expands on the theory laid out in the original text to reach an understanding that can be applied in the clinic for diagnosis and treatment. The value of this classic text lies primarily in its establishment of a basic framework for differentiation and treatment, but it also presents 112 formulas and 88 medicinal substances which are commonly applied in clinical work for various conditions. In this edition, the 112 formulas are fully explained in the context of the clinical experiences of well-known ancient and modern doctors, and they are also laid out in two appendices cross-referenced to the text.

Medical Practice in Twelfth-century China - A Translation of Xu Shuwei's Ninety Discussions [Cases] on Cold Damage Disorders

Asaf Goldschmidt, 2019-06-28 This book is an annotated translation of Xu Shuwei's 1080-1154 collection of 90 medical case records, *Ninety Discussions of Cold Damage Disorders* (Shanghan Jiushi lun), which was the first such collection in China. The translation reveals patterns of social as well as medical history. This book provides the readers with a distinctive first-hand perspective on twelfth-century medical practice, including medical aspects such as nosology, diagnosis, treatment, and

doctrinal reasoning supporting them It also presents the social aspect of medical practice detailing the various participants in the medical encounter their role the power relations within the encounter and the location where the encounter occurred Reading the translation of Xu s cases allows the readers high resolution snapshots of medicine and medical practice as reflected from the case records documented by this leading twelfth century physician The detailed introduction to the translation contextualizes Xu s life and medical practice in the broader changes of this transformative era

Antiquarianism, Language, and Medical Philology, 2015-01-27 Based on several research seminars the authors in this volume provide fresh perspectives of the intellectual and cultural history of East Asian medicine 1550 1800 They use new sources make new connections and re examine old assumptions thereby interrogating whether and why European medical modernity is an appropriate standard for delineating the modern fate of East Asia s medical classics The unique importance of early modern Europe in the history of modern medicine should not be used to gloss over the equally unique and thus different developments in East Asia Each paper offers an important contribution to understanding the dynamics of East Asian medicine namely the relationship between medical texts medical practice and practitioner identity Furthermore the essays in this volume are especially valuable for directing our attention to the movement of medical texts between different polities and cultures of early modern East Asia especially China and Japan Of particular interest are the interactions similarities and differences between medical thinkers across East Asia Contributors include Susan Burns Benjamin A Elman Asaf Goldschmidt Angela KC Leung Federico Marcon MAYANAGI Makoto Fabien Simonis Daniel Trambaiolo and Mathias Vigouroux **Understanding and Treating Hot Flashes in Menopause with Chinese Medicine** Brian
