Shaping the future ,1972 Shaping the Future John D. Roslansky,1972 **Shaping the Future** John D. Roslansky,1972 *Shaping the Future* ,1972 SHAPING THE FUTURE: A DISCUSSION AT THE NOBEL CONFERENCE ORGANIZED BY GUSTAVUS ADOLPHUS COLLEGE, ST. PETER, MINN., 1971 ,1972 *Shaping the Future* John Dale Roslansky,1972 Shaping the future ,1972 *Shaping the future* , Evocations of Grace Joseph Sittler,2000 Foreword by Martin E Marty As early as 1954 well before such popular books as Rachel Carson s Silent Spring the influential Lutheran theologian Joseph Sittler wrote on the need to think about a theology for earth Perhaps most famous for his eloquent and provocative address Called to Unity given at the 1961 World Council of Churches in New Delhi Sittler prophetically and insistently gave voice to what he called ecological commitment as theological responsibility Evocations of Grace introduces a new generation of readers to the thought of Jospeh Sittler Gathering ten of Sittler s seminal works works foundational to the field yet unavailable until now the volume conveys Sittler s powerfully argument for the vital connection between Christian theology ethics and the natural world In an area where so much writing tends to be drearily repetitious Sittler even forty years later remains a fresh voice His proposal for a cosmic christology and his clarion call for the care of the earth continue to shape current eco theological reflection The book also includes a comprehensive Sittler bibliography and original essays by editors Steven Bouma Prediger and Peter Bakken that assess Sittler s pioneering contribution to environmental ethics Intended for anyone interested in the relationship between Christian faith and the environment Evocations of Grace provides the necessary perspective for thinking seriously about the earth and our responsibility to it *Limiting Outer Space* Alexander C.T. Geppert,2018-04-18 *Limiting Outer Space* propels the historicization of outer space by focusing on the Post Apollo period After the moon landings disillusionment set in Outer space no longer considered the inevitable destination of human expansion lost much of its popular appeal cultural significance and political urgency With the rapid waning of the worldwide Apollo frenzy the optimism of the Space Age gave way to an era of space fatigue and planetized limits Bringing together the history of European astroculture and American Soviet spaceflight with scholarship on the 1970s this cutting edge volume examines the reconfiguration of space imaginaries from a multiplicity of disciplinary perspectives Rather than invoking oft repeated narratives of Cold War rivalry and an escalating Space Race *Limiting Outer Space* breaks new ground by exploring a hitherto underrated and understudied decade the Post Apollo period **Choice** ,1972 AAAS Science Books ,1973 Norman E. Borlaug Norman Ernest Borlaug,International Maize and Wheat Improvement Center,1988 **The Study of the Future** ,1977 Science Books ,1973 *Societal Directions and Alternatives* Michael Marien,1976 *The Publishers Weekly* ,1972 *Library of Congress Catalog* Library of Congress,1972 Beginning with 1953 entries for Motion pictures and filmstrips Music and phonorecords form separate parts of the Library of Congress catalogue Entries for Maps and atlases were issued separately 1953 1955 **The Environment Index** ,1972 *Choice* Julia Johnson,1976
