**Resources in Education**, 2000 **Critical Issues in Foreign Language Instruction** Ellen S. Silber, 2013-09-13 First Published in 1991 This is Volume 22 of the Source Books on Education series Politically speaking the study of foreign languages and cultures helps maintain a strong competitive position in an increasingly global marketplace It was hard to imagine in 1957 that the launching of a Soviet rocket would push the United States into its greatest investment ever in foreign language education As American policy makers attempted to play catch up with our brothers and sisters behind the iron curtain this country infused federal dollars into extensive foreign language teacher training and the creation of new foreign language educational programs As suddenly as federal support was given however so was it taken away and its withdrawal was responsible for one

of the darkest periods in the history of foreign language education in America Drawing on the expertise of a number of the nation s most experienced and creative foreign language educators this volume edited by Ellen S Silber addresses some of the crucial problems we face in foreign language education today      **Lasting Change in Foreign Language Education** John L. Watzke,2003-03-30 Lasting Change in Foreign Language Education presents a historical account of foreign language in general education The author examines the struggle of this subject discipline to align with the changing mission of secondary education as it emerged as the predominant institution enrolling students in the study of second languages This 100 year history suggests trends persistent across major periods of reform to explain current problems in the expansion of learning opportunities in foreign language Included is a complete database of education statistics on foreign language education and national and state education law from 1899 to the present Analysis of this data is presented in multiple formats to describe the historical capacity of the education system to achieve reform A review of contemporary standards based education initiatives in states and school districts similarly serves to reflect how historical trends continue to restrict change Concise policy implications are suggested as a means to address historical precedence and the greater mission of general education in the development of education policy and its transformation into practice Policy development must include a greater understanding of the historical development of foreign language in general education This vital link has been lacking in the past century as foreign language has struggled to realign itself with the changing mission of general education For example there are distinct curricular differences between a general education for all students and one for leadership and higher education Only the latter makes room for solid foreign language education In addition the study of foreign language has remained primarily a beginning level endeavor for the majority of students over the past century This trend results in significant pressure on the beginning level curriculum particularly during periods of reform to provide multiple academic outcomes in education      **Shaping the Future** Helen S. Lepke,1989      **Reflecting on the Past to Shape the Future** Diane W. Birckbichler,2000      Trends and Developments for the Future of Language Education in Higher Education Xiang, Catherine Hua,2021-06-25 Language education tends to require more face to face interaction and longer hours of both teaching and learning The challenges of ensuring the future and development of the discipline especially after a time of crisis is equally unprecedented A comprehensive overview of the global picture of best practices as well as research in recent times are needed in the field of language education particularly in higher education settings The changing nature of language education in terms of its policy curriculum design methodology and innovation is an essential discussion to advance the field It is critical to explore how a more collaborative global and interdisciplinary mindset as well as technologically driven approaches have emerged through recent years and how it will continue to shape the future development in the field Trends and Developments for the Future of Language Education in Higher Education captures the current trends and ongoing development within language education through a global picture of the best practices as well as

the latest research on language education in higher education settings The chapters cover changes in policy curriculum design methodology and innovation in the modern language education landscape While focusing on the current situation of language education and the changes that it has been undergoing this book also provides information on future development and the overall outlook of language education This book is ideal for teachers instructional designers curricula developers inservice and preservice teachers administrators teacher educators practitioners researchers academicians and students looking for an overview of the current position of language education in higher education

**Foreign Language Education in America** Steven Berbeco, 2016-04-08 Foreign language teaching in America today falls into three distinct fields of influence and interest public and private schools college and other post secondary programs and courses for adult learners At a time when academics and instructors in each of these fields seek to answer similar questions too few published resources recognize and address the parallels among them In response Foreign Language Education in America is an edited book with contributions that represent the diversity in foreign language education today including perspectives from elementary middle schools high schools university level courses summer programs federal government and international learning This is a practical guide to the state of the field that fills a much needed gap for scholars researchers administrators and practitioners who are looking for a resource that describes effective practices across the field
