## Sharing Geographic Information:

*Mapping the Determinants of Spatial Data Sharing* Uta Wehn de Montalvo, 2024-11-01 This title was first published in 2003 With the increasing use of GIS in industrialised and developing countries the availability of spatial data has become an issue that affects many public and private sector organisations They are faced with the high cost and substantial effort involved in the generation of spatial data and so the sharing of this data is increasingly being seen as a way of overcoming expense and easing availability and access But this can provide a way of using GIS effectively only if the key players involved in the use and supply of spatial data are willing to share This book employs a theory from social psychology as an organising framework to systematize the determinants of organisations spatial data sharing behaviour It develops a model which explains the likely willingness of key individuals within organisations to engage in spatial data exchanges across organisational boundaries and then tests this on a survey based in South Africa *Community Participation and Geographical Information Systems* William J. Craig, Trevor M. Harris, Daniel Weiner, 2002-04-04 Have you ever considered how much effect information technology has on society throughout the world Progress often places lower income and marginalized communities at a distinct disadvantage Community Participation and Geographic Information Systems however offers a detailed look at numerous incidences around the world where communities have ac Geographical Information '97 Stuart Hodgson, Massimo Rumor, Jan Jaap Harts, 1997 Geographical Information is essential for the layout planning and management of space and involves taxation cadastral data bases environmental policy water management maintenance and protection of pipeline systems terrain modelling and the making of maps The third European conference brought together some 300 speakers and authors from academia industry and government The resulting monumental work is representative for the state of the art of knowledge and information on Geographical Information Geographic Information Research Massimo Craglia, H. Couclelis, 2020-10-28 The contributors to this edited collection demonstrate that geographic information research is truly global in character cutting across a wide range of disciplines and addressing conceptual methodological technical ethical and political issues alike Of the six themes two are broadly concerned with data integration geographic data infrastructures GIS diffusion and implementation two are more technical and conceptual in nature generalisation concepts and paradigms and two reflect to a larger extent the application driven nature of GIS technology spatial analysis and multimedia Each section is introduced by chapters highlighting the key research issues Further chapters explore these issues in greater depth and benefit from the international collaboration Through the comparison of results included in this book the prospects for advancing the field and addressing the challenges of GIS research are greatly improved *Environmental Information Management And Analysis* W K Michener, J W Brunt, S G Stafford, 1994-08-08 Most environmental studies are based upon data collected at fine spatial scales plots sediments cores etc Furthermore temporal scales of these studies have been relatively short days weeks months and few studies have exceeded three years duration the typical funding cycle

Despite this history environmental scientists are now being called A Research Agenda for Geographic Information Science Robert B. McMaster, E. Lynn Usery, 2004-08-30 A close relationship exists between GIS and numerous applications including cartography photogrammetry geodesy surveying computer and information science and statistics among others Scientists coined the term geographic information science GIScience to describe the theory behind these fields A Research Agenda for Geographic Information *Innovations In GIS* Zarine Kemp, 2003-09-02 Derived from presentations made at the fourth annual UK National Conference on GIS Research this work consists of contributions by leading experts in geography mathematics computing science surveying archaeology planning and medicine Research and Theory in Advancing Spatial Data Infrastructure Concepts Harlan Joseph Onsrud, 2007 Spatial data infrastructures SDIs have come a long way in the last two decades **Sharing Ecosystem Services** Osamu Saito, 2019-08-09 Using the sharing paradigm as a guiding concept this book demonstrates that sharing has much greater potential to make rural society resilient sustainable and inclusive through enriching all four sharing dimensions informal mediated communal and commercial sharing The chapters are divided into two parts one that focuses on case studies of the sharing ecosystem services in Japan the other on case studies from around the world including in the regions of Africa Asia Pacific South America and Europe Reflecting the recent growing attention to sharing concept and its application to economic and urban context this publication explores opportunities and challenges to build more resilient and sustainable society in harmony with nature by critical examination of sharing practices in rural landscapes and seascapes around the world This book introduces not only traditional communal and non market sharing practices in different rural areas but also new forms of sharing through integration of traditional practices and modern science and technologies **Encyclopedia of Networked and Virtual Organizations** Putnik, Goran D., Cruz-Cunha, Maria Manuela, 2008-03-31 Administration r f rrence lectronique informatique *Farm data management, sharing and services for agriculture development* Food and Agriculture Organization of the United Nations , 2021-02-26 This book aims to strengthen the skills of professionals who use manage data for the benefit of farmers and farmers organizations by exposing them to the topics of importance of data in the agriculture value chain and how new and existing technologies products and services can leverage farm level and global data to improve yield reduce loss add value and increase profitability and resilience *2023 International Conference on Energy Engineering* Zhe Chen, Wenming Yang, Hao Chen, 2024-08-31 This book contains the selected proceedings of the 2023 International Conference on Energy Engineering held in Xi an China December 15 17 2023 The conference explores advances and practical applications in energy research and engineering and delves into innovative approaches in four specialized tracks New Transportation Energy Power and Energy Applied Thermal Energy and Oil and Natural Gas Engineering It explores strategies for accelerating the transition to renewable energy optimizing power systems harnessing thermal energy and advancing oil and gas engineering practices It benefits from a wealth of knowledge shared by academics and practitioners fostering cross disciplinary collaboration The

latest findings in electric vehicles smart grids thermal systems and reservoir engineering will be explored to find solutions that promote sustainability efficiency and environmental stewardship

**Geographical Information and Planning** John Stillwell, Stan Geertman, Stan Openshaw, 2013-03-09 The 1990s have seen some remarkable changes in geographical information GI provision and computer technology that have impacted on many of the activities that constitute planning in all its different forms However relatively few texts in the field of geographical information systems GIS and planning have been published since Henk Scholten and John Stillwell edited Geographical Information Systems for Urban and Regional Planning in 1990 This volume seeks to redress the balance by showing how GI of various types is being used in urban physical environmental socio economic and business planning contexts at local regional and national scales with the assistance of GIS and modelling methods and how the uses of GI and GI technologies have evolved over the last decade During this period a number of meetings took place in Europe in different locations organised initially by European Geographical Information Systems EGIS 1990 94 and more recently by the Joint European Conference and Exhibition JEC on Geographical Information 1995 97 These meetings brought together members of the GI community from across the world to discuss GI research and GIS applications One of the Special Interest Groups associated with the JEC gatherings was that on Geographical Information and Planning and several of the contributions in this book have their origins in papers presented to the group s meetings
