Orr,2006-11-27 A contemporary and practical guide to Mayan astrological techniques Discusses the logic and meaning of the 20 day signs of the Mayan calendar Explains the many cycles of Mayan astrology such as the 9 day cycle of the Night Lords and the 13 day trecena Contains extensive tables of Mayan astrological data allowing readers to cast their own Mayan horoscopes *How to Practice Mayan Astrology* presents a contemporary guide to one of the most sophisticated astrological systems ever developed Like other ancient peoples the Maya looked to the cycles of the planets as markers of time and designators of order The predictable cycles they observed became codified in the Mayan calendar and astrological system as a way of organizing the seeming chaos of human life Mayan astrology is based on 20 named days that are cycled 13 times to create a 260 day calendar the Tzolkin The authors explain the symbolism logic and meaning of the 20 day signs how these signs reflect 260 possible personality types and how they can be used for divination They also explain the important role of the Four Directions and the planet Venus in one s personality matrix and life issues Included are extensive easy to use tables of Mayan astrological data allowing readers to determine their day signs to see how these signs are also influenced by the cycle of the Night Lords and the 13 day trecena and to cast their own horoscopes

The Mayan Calendar and the Transformation of Consciousness Carl Johan Calleman,2004-03-25 Reveals the Mayan calendar to be a spiritual device that describes the evolution of human consciousness from ancient times into the future Shows the connection between

cosmic evolution and actual human history Provides a new science of time that explains why time not only seems to be speeding up in the modern world but is actually getting faster Explains how the end of the Mayan calendar is not the end of the world but a path toward enlightenment The prophetic Mayan calendar is not keyed to the movement of planetary bodies Instead it functions as a metaphysical map of the evolution of consciousness and records how spiritual time flows providing a new science of time The calendar is associated with nine creation cycles which represent nine levels of consciousness or Underworlds on the Mayan cosmic pyramid Through empirical research Calleman shows how this pyramidal structure of the development of consciousness can explain things as disparate as the common origin of world religions and the modern complaint that time seems to be moving faster Time in fact is speeding up as we transition from the materialist Planetary Underworld of time that governs us today to a new and higher frequency of consciousness the Galactic Underworld in preparation for the final Universal level of conscious enlightenment Calleman reveals how the Mayan calendar is a spiritual device that enables a greater understanding of the nature of conscious evolution throughout human history and the concrete steps we can take to align ourselves with this growth toward enlightenment

Mayan Calendar Prophecies: Predictions for 2012-2052 Gary C. Daniels, 2012-11-01 Take a look at the science behind the Mayan calendar prophecies and mythology The Maya believed multiple cycles governed civilization They created various calendars to track these cycles Their short count calendar tracked a 256 year cycle believed to control epidemics

famines warfare and more Scientists have found a 250 year solar cycle that also appears to affect epidemics famines warfare and more Their long count calendar tracked a 5000 year cycle related to natural disasters and cosmic catastrophes Scientists have also discovered that the Earth is subjected to periodic bombardment by comets and asteroids that plunges the world into long periods of darkness and cold Mayan mythology appears to record such events and in some instances even the exact dates on which these catastrophes occurred in the past By comparing these dates with ice core records sedimentary records and climate records this book reveals the truth about civilization s darkest days And what may lie ahead in the future The Aztec Book of Destiny Rick Holmer,2005-09 The Aztec Book of Destiny summarizes traditional Mesoamerican beliefs about the spiritual nature of time and its influence on one s personality and fate The ancient Aztec Toltec and Maya believed that the day of birth as defined in their sacred calendar affects destiny and this philosophy has guided their daily lives for more than 3000 years This book condenses the scattered and disparate literature about these beliefs into a fun and informative narrative but it goes far beyond what academics and popular authors have published to date The author presents a unique perspective shaped by the wisdom of a traditional calendar keeper he met in Mexico in 1973 The book s message is that the calendar is not simply an ancient and forgotten curiosity it is as relevant today as in ancient times The majority of the book projects the timeless Mesoamerican philosophy into contemporary Western society encouraging introspection and self awareness Pyramid of Fire: The Lost Aztec Codex John Major Jenkins,Martin Matz,2004-11-03 The first translation of a previously unknown Aztec codex and its initiatory teachings for 2012 Discloses the potential for great spiritual awakening offered at the end of the Aztec calendar cycle Presents the only existing English language transcription of the Aztec codex with line by line commentary Contains the epic poetry and metaphysical insights of Beat poet Marty Matz 1934 2001 In 1961 an unknown Aztec codex was revealed to Beat poet and explorer Marty Matz by a Mazatec shaman in the mountains of Oaxaca Mexico Originally intended for dramatic performance this codex presents a profound metaphysical teaching describing how the end of time will bring about a visionary ascent At the behest of his Mazatec teacher Matz transcribed this pictorial codex into a literary form that would preserve its initiatory teachings and reveal its secret meanings to a wider audience Pyramid of Fire is an epic poem that provides a vehicle to transport the initiate into the higher realms of consciousness It represents a barely surviving thread of teachings that have been passed down in secret since the time of the Spanish Conquest Revealed are the techniques by which man is transported to the stellar realm after death via the solar energy within what the ancients called the serpent of consciousness Line by line commentary by Matz and John Major Jenkins provides insights into the perennial philosophy contained in the codex and its relevance to our times **The Aztec Calendar Handbook** Randall C. Jiménez,Richard B. Graeber,2001 A manual for the Aztec calendar that explores the myths legends and history behind the ancient calendar and includes technical drawings a glossary timeline and an extensive bibliography **The Venus Calendar Observatory at Aztec New Mexico** Allan III.. Unlocking the Prehistory of America Frank Joseph,2013-12-15 This volume with more than twenty four noted contributors offers possible evidence of ancient immigrants lost technologies and places of power in ancient America long before the voyages of Christopher Columbus While digging out basements near Los Angeles homeowners unearth a 3 000 year old Phoenician altar A treasure hunter in Ohio finds more than he expected when his metal detector locates an eastern Mediterranean pendant from 1000 BCE Two caches of coins minted in Imperial Rome surface along the Ohio River These are just a few of the examples that illustrate theories that there were foreign influences shaping the prehistory of the Americas
