Agich, 1993 The realities and misconceptions of long term care and the challenges it presents for the ethics of autonomy are analyzed in this perceptive work While defending the concept of autonomy the author argues that the standard view of autonomy as non interference and independence has only a limited applicability for long term care He explains that autonomy should be understood as a comprehensiveness that defines the overall course of a person s life rather than as a way of responding to an isolated situation Agich distinguishes actual and ideal autonomy and argues that actual autonomy is better revealed in the everyday experiences of long term care than in dramatic conflict ridden paradigm situations such as decisions to institutionalize to initiate aggressive treatments or to withhold or to withdraw life sustaining treatments Through a phenomenological analysis of long term care he develops an ethical framework for it by showing how autonomy is actually manifest in certain structural features of the social world of long term care Throughout this timely work the rich sociological and anthropological literature on aging and long term care is referenced and the practical ethical questions of promoting and enhancing the exercise of autonomy are addressed

Fact Book on Aging Elizabeth Vierck,1990 This book contains facts and statistics on every aspect of aging in America Elder Care in Crisis Emily K. Abel,2022-10-25 Explains why there is a crisis in caring for elderly people and how the COVID 19 pandemic exacerbated it Because government policies are based on an ethic of family responsibility repeated calls to support family members caring for the burgeoning elderly population have gone unanswered Without publicly funded long term care services many family caregivers cannot find relief from obligations that threaten to overwhelm them The crisis also stems from the plight of direct care workers nursing home assistants and home health aides most of whom are women from racially marginalized groups who receive little respect remuneration or job security Drawing on an online support group for people caring for spouses and partners with dementia Elder Care in Crisis examines the availability and quality of respite care which provides temporary relief from the burdens of care the long tortuous process through which family members decide whether to move spouses and partners to institutions and the likelihood that caregivers will engage in political action to demand greater public support When the pandemic began caregivers watched in horror as nursing homes turned into deathtraps and then locked their doors to visitors Terrified by the possibility of loved ones in nursing homes contracting the disease or suffering from loneliness some caregivers brought them home Others endured the pain of leaving relatives with severe cognitive impairments at the hospital door and the difficulties of sheltering in place with people with dementia who could not understand safety regulations or describe their symptoms Direct care workers were compelled to accept unsafe conditions or leave the labor force At the same time however the disaster provided an impetus for change and helped activists and scholars develop a vision of a future in which care is central to social life Elder Care in Crisis exposes the harrowing state of growing old in America offering concrete solutions and illustrating why they are necessary

Remainder of Their Days Carolyn J. Rosenthal, Jon Hendricks, 2021-04-14 First published in 1993 This present volume co edited by two sociologists Jon Hendricks of the United States and Carolyn Rosenthal of Canada focuses on a comparative cross national discussion of social policies of the United States and Canada especially those related to health care The uniqueness of this work lies in the fact that it views family experiences from both a Canadian and an American perspective In addition this book not only fills a gap in our knowledge of social policies but contributes to our understanding of how these policies shape and effect the lives of older families in both countries Life Insurers Fact Book, 2000 Current Catalog National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70 *Mental Health Consultation in Nursing Homes* Michael A. Cohler Committee on Human Development University of Chicago The real strength of this book lies in its initial conceptualization of the nursing home as a community with a community's complexity of forces working both for and counter to the best interests of its members contrasting the traditional view that the institution is the enemy of its residents M.
