the Global Nuclear Order 1945 2018 also discusses what it means with respect to Brazil's future political goals **Opaque Nuclear Proliferation** Benjamin Frankel, 2019-07-02 This examination of nuclear arms control addresses the question of what kind of posture do second generation nuclear weapons states adopt in a world in which the presumption of non proliferation is accepted Reluctant Restraint Evan S. Medeiros, 2009 **Management of International Institutions and NGOs** Eduardo Missoni, Daniele Alesani, 2013-12-17 International Institutions IIs International NGOs INGOs and Transnational Hybrid Organizations THOs play a hugely important role in the modern world economy Despite having been studied by scholars from a range of disciplines these organizations have never before been approached from a management perspective This ambitious book analyzes the management challenges associated with international cooperation and sheds light on how these organizations have evolved as the political economic and business environments have changed around them Covering an admirably broad canvas the authors pursue two main objectives Firstly they explore the main management frameworks developed in the context of the corporate and national public non profit organizations and adapt them to the specificity of IIs and INGOs This leads to the identification of a tailored approach to IO management based on their institutional and operational settings stakeholder groups core business staff profile and financial arrangements Secondly they bring theory into practice by linking frameworks to several case studies and best practices of organizations currently experimenting with management systems and tools with case studies including the World Bank and the Gates Foundation This comprehensive textbook is a must own resource for students and academics involved with studying and working with international organizations
