Postmodernity in Latin America Santiago Colás, 1994-11-07 Postmodernity in Latin America contests the prevailing understanding of the relationship between postmodernity and Latin America by focusing on recent developments in Latin American and particularly Argentine political and literary culture While European and North American theorists of postmodernity generally view Latin American fiction without regard for its political and cultural context Latin Americanists often either uncritically apply the concept of postmodernity to Latin American literature and society or reject it in an equally uncritical fashion The result has been both a limited understanding of the literature and an impoverished notion of postmodernity Santiago Col s challenges both of these approaches and corrects their consequent distortions by locating Argentine postmodernity in the cultural dynamics of resistance as it operates within and against local expressions of late capitalism Focusing on literature Col s uses Julio Cort zar s Hopscotch to characterize modernity for Latin America as a whole Manuel Puig s Kiss of the Spider Woman to identify the transition to a more localized postmodernity and Ricardo Piglia s Artificial Respiration to exemplify the cultural coordinates of postmodernity in Argentina Informed by the cycle of political transformation beginning with the Cuban Revolution including its effects on Peronism to the period of dictatorship and finally to redemocratization Col s s examination of this literary progression leads to the reconstruction of three significant moments in the history of Argentina His analysis provokes both a revised understanding of that history and the recognition that multiple meanings of postmodernity must be understood in ways that incorporate the complexity of regional differences Offering a new voice in the debate over postmodernity one that challenges that debate s leading thinkers Postmodernity in Latin America will be of particular interest to students of Latin American literature and to scholars in all disciplines concerned with theories of the postmodern **Cuba in the American Imagination** Louis A. Pérez Jr., 2008-08-15 For more than two hundred years Americans have imagined and described Cuba and its relationship to the United States by conjuring up a variety of striking images Cuba as a woman a neighbor a ripe fruit a child learning to ride a bicycle Louis A Perez Jr offers a revealing history of these metaphorical and depictive motifs and discovers the powerful motives behind such characterizations of the island as they have persisted and changed since the early nineteenth century Drawing on texts and visual images produced by Americans ranging from government officials policy makers and journalists to travelers tourists poets and lyricists Perez argues that these charged and coded images of persuasion and mediation were in service to America s imperial impulses over Cuba **A New Struggle for Independence in Modern Latin America** Pablo A.

Baisotti,2021-09-30 This volume explores several notable themes related to foreign affairs in Latin America and the reconfiguration of the power of the different states in the region It offers insightful historical perspectives for understanding national regional and global issues from the beginning of the 20th century to the present day from analysis of the traditional hegemony of the United States over Latin America through its military and political influence due to the presence of the European Union Russia and China These views cannot be reduced to a simplistic vision of the dominant and subordinate rather they attempt to seek lines of continuity by highlighting traditional interpretations of new scenarios such as regional trading and security blocs The volume refuses to impose a traditional and uncritical linear historical narrative onto the reader but instead proposes an alternative interpretation of the past and its relation to the present Finally the growing importance of international mechanisms in enabling the success of certain Latin American regimes is also highlighted in particular the influence of regional diffusion through international organizations or other networks State Violence and
