Hymns and Hymnody: Historical and Theological Introductions, Volume 3 Mark A. Lamport,Benjamin Forrest,Vernon M. Whaley,2020-01-01 Hymns and the music the church sings in worship are tangible means of expressing worship And while worship is one of if not the central functions of the church along with mission service education justice and compassion and occupies a prime focus of our churches a renewed sense of awareness to our theological presuppositions and cultural cues

must be maintained to ensure a proper focus in worship Hymns and Hymnody Historical and Theological Introductions is a sixty chapter three volume introductory textbook describing the most influential hymnists liturgists and musical movements of the church This academically grounded resource evaluates both the historical and theological perspectives of the major hymnists and composers who have impacted the church over the course of twenty centuries Volume 1 explores the early church and concludes with the Renaissance era hymnists Volume 2 begins with the Reformation and extends to the eighteenth century hymnists and liturgists Volume 3 engages nineteenth century hymnists to the contemporary movements of the twenty first century Each chapter contains these five elements historical background theological perspectives communicated in their hymns compositions contribution to liturgy and worship notable hymns and bibliography The mission of Hymns and Hymnody is 1 to provide biographical data on influential hymn writers for students and interested laypeople and 2 to provide a theological analysis of what these composers have communicated in the theology of their hymns We believe it is vital for those involved in leading the worship of the church to recognize that what they communicate is in fact theology This latter aspect we contend is missing yet important in accessible formats for the current literature The Ancient-Future Visionary Robert E. Webber,2025-01-28 Are we too comfortable with traditional forms of worship Are these forms truly historical or are they man made distortions of God s prescribed ecclesial order Do our accepted methods work against the functioning of the local church in its mission to evangelize and disciple rather than enhance it Join the late Dr Robert E Webber in this compilation of previously published articles and uncollected addresses as he discusses with characteristic humor and candor the diverse aspects of ancient and contemporary worship practices from the church in its infancy to the advent of the contemporary megachurch movement As in his many books including Worship is a Verb and Worship Old New Webber explores the attitudes and liturgies through which we approach a loving God Webber might infuriate or delight or both but he always stimulates **Congregational Music-Making and Community in a Mediated Age** Anna E. Nekola,Tom Wagner,2016-05-23 Congregational music can be an act of praise a vehicle for theology an action of embodied community as well as a means to a divine encounter This multidisciplinary anthology approaches congregational music as media in the widest sense as a multivalent communication action with technological commercial political ideological and theological implications where processes of mediated communication produce shared worlds and beliefs Bringing together a range of voices promoting dialogue across a range of disciplines each author approaches the topic of congregational music from his or her own perspective facilitating cross disciplinary connections while also showcasing a diversity of outlooks on the roles that music and media play in Christian experience The authors break important new ground in understanding the ways that music media and religious belief and praxis become lived theology in our media age revealing the rich and diverse ways that people are living experiencing and negotiating faith and community through music
