Preventive Diplomacy Stopping Wars Before They Start:

Preventive Diplomacy Kevin M. Cahill, 2000 The suppression of war has been the primary objective of the United Nations for almost fifty years and stopping a war before it starts is easier than ending a war already underway History however has shown that military interventions and economic sanctions often do more harm than good In *Preventive Diplomacy* Nobel prize winners top officials and revered thinkers tackle these issues and explore the process of conflict prevention from humanitarian economic and political perspectives This cross disciplinary reader on global politics demonstrates that when new insights and methodologies on public health are applied to the handling of international disasters the change in policy perspective is intriguing even hopeful

The Prevention and Intervention of Genocide Samuel Totten, 2017-09-08 Over the last twenty years the world has witnessed four major genocides There was the genocide in Iraq 1988 in Rwanda 1994 in Srebrenica 1995 and in Darfur 2003 and continuing Most observers agree there is an urgent need to assess the international community's efforts to prevent genocide and to intervene once a genocide is under way in an effective and timely manner This volume the latest in a widely respected series on the subject of genocide provides an overview of a host of issues germane to this task The book begins with a cogent discussion of the issues of prevention and intervention during the Cold War years The second chapter discusses the abject failures and moderate though in some cases highly controversial successes at prevention and intervention carried out in the 1990s and early 2000s Further chapters examine latest efforts to develop an effective genocide early warning system and examine the complexity of and barriers to prevention The pros and cons of sanctions and the problems of enforcement and evaluation their effectiveness are then discussed Conflicts between state sovereignty and the protection of threatened populations are examined both in historical context and by incorporating the latest thinking Later chapters treat the issue of intervention why and how it has met with only limited success Concentrating on Rwanda and Srebrenica chapter 8 discusses various peace operations that were abject failures and those that were moderately successful The concept of an anti genocide regime is examined in terms of progress in developing such a regime as well as what the international community must do in order to implement it Chapters discuss key issues related to post genocidal periods those that need to be addressed in order to establish stability in a wounded land and populace as well as to prevent future genocides The final chapter asks whether bringing perpetrators to justice has any impact in breaking impunity ensuring deterrence and bringing about reconciliation The contributors to the volume are all noted scholars some of whom specialize in the study of genocide and others who specialize in such areas as early warning peacekeeping and sanctions

History and Hope Kevin M. Cahill, 2013-09-01 *History and Hope* The International Humanitarian Reader provides a better understanding both within and outside academia of the multifaceted demands posed by humanitarian assistance programs The Reader is a compilation of the most important chapters in the twelve volume International Humanitarian Affairs book series published by Fordham University Press Each selected chapter has been edited and updated

In addition the series editor Kevin M Cahill M D has written among other chapters an introductory essay explaining the academic evolution of the discipline of humanitarian assistance It focuses on the Fordham Experience its Institute of International Humanitarian Affairs IIHA has developed practical programs for training fieldworkers especially those dealing with complex emergencies following conflicts and man made or natural disasters *Handbook of Development Policy Studies* Gedeon M. Mudacumura, M. Shamsul Haque, 2004-04-23 Considering the current challenges to human progress this reference book examines recent theories policies and sectoral priorities as well as various social economic and administrative factors that impact worldwide modernization and development The book emphasizes the fact that communities must evaluate continuously and adjust their program Handbook of Defence Politics Isaiah (Ike) Wilson III, James Forest, 2011-03-28 Issues of defence politics and policy have long been at the forefront of political agendas and defining of international affairs However the dramatic changes to the global system that have taken place since the end of the Cold War and particularly since the terror attacks on the USA on 11 September 2001 have amplified the world's attention toward political and policy issues of national regional and global security The focus of this volume is on examining the fundamental causes of and defence policy responses to this new post 9 11 security environment Edited by Isaiah Ike Wilson III and James J F Forest of the US Military Academy West Point USA this volume is international in scope with pieces written by experts in the field offering a collection of up to date and balanced insights on key contemporary issues of concern to defence policymakers The book will be an invaluable reference tool for academics and students researchers in international relations policymakers media professionals and government officials Building Sustainable Peace Tom Keating, W. Andy Knight, 2012-07-02 As the world turns its attention to the reconstruction of Afghanistan and Iraq following recent conflicts in these countries the issue of post conflict peacebuilding takes centre stage This collection presents a timely and original overview of the field of peace studies and offers fresh analytical tools which promote a critical reconceptualization of peace and conflict while also making specific reference to peacebuilding strategies employed in recent international conflicts Warning about War Christoph O. Meyer, Chiara De Franco, Florian Otto, 2020 Explains how and when public and non public warnings about future conflicts affect decision making in Western states and international organisations *Decolonization, Sovereignty, and Peacekeeping* Hanny Hilmy, 2020-09-29 This book analyses three major themes decolonization sovereignty and peacekeeping Their interaction during the national liberation struggle during the Cold War culminating in the 1956 Suez War addresses the principle of national sovereignty after World War II in the framework of the UN Charter The new peacekeeping operations were used in many conflicts during which the Charter's theory and application were tested The rise of the USA as the key Western power and Israel's special role in the Middle East have created a new confrontational dynamic for the entire region The interaction between the book's main themes in the field has led to the principles of peacekeeping in international and national conflicts being reviewed in light of the discredited Capstone Doctrine The author argues that state sovereignty is

sacrosanct but humanitarian interventions are equally imperative in his view Striking the right balance is crucial for managing conflicts The author offers a well informed historical account and an authoritative political analysis was exposed to UNEF deployments and termination and knows key peacekeeping actors draws on original documents memoirs and interviews includes unpublished photos and previously unavailable documentary material has experience in government and academia

Comparative Education, Terrorism and Human Security W. Nelles, 2003-12-18 Policy decisions in education have changed drastically as a result of the recent threats to our international and national security In this timely and compelling collection authors discuss the significance of policy decisions on education systems and argue that all forms of violence including terrorism are often reproduced through education Authors incorporate case studies from a broad spectrum of countries to make a case for peace building alternatives and non military security cooperation Comparative Education Terrorism and Human Security will highlight education systems around the globe that sustain violence will bring together human security and preventive diplomacy research to predict future trends will explore foreign policy implications that could lead to non violent interventions abroad and will provide teachers and policymakers with relevant reflections on reform This book arrives at a time when many of us are wondering what education systems can do to eliminate perpetuate violence and will be the only one of its kind to address these questions on a global scale

Managing Fragility and Promoting Resilience to Advance Peace, Security, and Sustainable Development James Michel, 2018-01-25 Fragility the combination of poor governance limited institutional capability low social cohesion and weak legitimacy leads to erosion of the social contract and diminished resilience with significant implications for peace security and sustainable development This study reviews how the international community has responded to this challenge and offers new ideas on how that response can be improved Based on that examination the author seeks to convey the importance of addressing this phenomenon as a high priority for the international community Chapters explore the nature of these obstacles to sustainable development peace and security how the international community has defined measured and responded to the phenomenon of fragility how the international response might be made more effective and implications for the United States

Local Peacebuilding and National Peace Christopher R. Mitchell, Landon E. Hancock, 2012-05-03 Local Peacebuilding and National Peace is a collection of essays that examines the effects of local peacebuilding efforts on national peace initiatives The book looks at violent and protracted struggles in which local people have sought to make their own peace with local combatants in a variety of ways and how such initiatives have affected and have been affected by national level strategies Chapters on theories of local and national peacemaking are combined with chapters on recent efforts to carry out such processes in war torn societies such as Africa Asia and South America with essays contributed by experts who were actually actively involved in the peacemaking process With its unique focus on the interaction of peacemaking at local and national levels the book will fill a gap in the literature It will be of interest to students and researchers in such fields as peace studies conflict resolution

international relations postwar recovery and development Preventing Deadly Conflict David A. Hamburg, 1998-06

ASEAN and the Institutionalization of East Asia Ralf Emmers, 2011-09-28 This book examines the evolving multilateral security arrangements in East Asia. It discusses the role of ASEAN highlighting its successes and its deficiencies including the fact that it is confined to Southeast Asia and has among its members none of the major East Asian powers nor any of the external powers such as the United States which have a strong interest in the region Wars and Peace D. Mayers, 1998-07-14 Wars and Peace is a history of the way that a range of Americans have tried to conceptualize peace during five national security crises: The Civil War, Spanish American War, World War I, World War II, Cold War. Award winning author David Mayers examines the intellectual foundations of U.S. foreign policy since 1861 and analyzes the way that Americans across the political spectrum have in times of conflict conceptualized the era that would follow hostilities. Mayers looks at this history in terms of a current problem: How should the United States fashion its policy in the post-Cold War world? What is striking about previous attempts to create postwar orders, Mayers reveals, is that they failed in the test to fulfill the hopes of their authors. Yet the cumulative impact of these ideas has been to shape collective imagination in America. Mayers argues that earnest attempts at innovation notwithstanding, U.S. purpose remains unchanged and like that of every nation to survive to prosper if possible. As applicable to this day and to this study as to his own, W.E.B. Du Bois published these lines in 1935: Nations reel and stagger on their way; they make hideous mistakes; they commit frightful wrongs; they do great and beautiful things. In this volume, Mayers gives voice to a range of people who have acted on the political scene: the powerful but also the marginalized, the vanquished, the dissenting, to show how Americans of all persuasions have flavoured the national discourse.

Peace Research Peter Wallensteen, 2013-03-01 Comprising essays by Peter Wallensteen, this book presents an overview of the thematic development of peace research, which has become one of the most dynamic and innovative areas of war and conflict studies. Peace research began in the 1950s when centres were formed in the USA and Europe and today there are research institutes and departments on every continent with teaching and research programs in most countries and peace researchers contribute to the development of international studies, development research and security analysis. Prof. Wallensteen has been a witness to much of this since forming the Department of Peace and Conflict Research at Uppsala University in the late 1960s and this book brings together thirteen of his articles with five new essays in one volume. The book presents articles on such key issues in peace research as the causes of war, conflict, data, conflict, diplomacy, non-violent sanctions and third party diplomacy. In this way it demonstrates how basic research can be conducted in fields often seen as unresearchable and too complicated to deal with. This volume shows that it is a matter of developing definitions, creating valid measures and finding ways of collecting information, recognising that innovations of this kind require supportive research environments. Furthermore, the results are not only useful for the growth of research activity itself but for finding ways of dealing with actual conflicts. Thus attention is also paid here to conflict prevention, peace

agreements sanctions and third party activity for preventing and ending armed conflict and building a lasting post war peace This book will be of great interest to all students of peace studies conflict resolution war and conflict studies development studies and IR security studies in general Democratizing Global Governance E. Aksu,J. Camilleri,2002-07-15 Is globalization beyond human control In this thought provoking text the myths and mantras of this apparently irresistible force are challenged and dissembled By examining a number of fundamental questions the contributors put forward a radical reform agenda for global governance Can the global multilateral system be democratic Are security and economic concerns separable Can the development of a global civil society contribute to effective global governance An important and wide ranging study this book will be essential reading for graduates and researchers in international relations *Media and Conflict in the Twenty-First Century* P. Seib,2005-06-03 This collection of essays explores current issues surrounding the media and conflict in the Twenty first Century Essays will look at the role of evolving media technologies the globalization of television and communications public diplomacy gender and war coverage terrorism and other issues Raising Global IQ Carl Hobert,2015-06-16 A groundbreaking roadmap for improving global literacy and conflict resolution skills in middle and high schools across the United States In Raising Global IQ Carl Hobert calls on K 12 teachers administrators parents and students alike to transform the educational system by giving students the tools they need to become responsible citizens in a shrinking increasingly interdependent world Drawing on his nearly thirty years teaching developing curricula and leading conflict resolution workshops here and around the world he offers creative well tested and understandable pedagogical ideas to help improve our children s GIQ Global Intelligence Quotient Cognizant of many U S schools limited budgets and time Hobert advocates teaching foreign languages early in life honing students conflict resolution skills providing creative service learning opportunities and offering cultural exchange possibilities in students own communities as well as nationally and abroad all before they graduate from high school **The First War on Terrorism** David C. Wills,2004-10-26 The events of September 11 2001 brought terrorism to the forefront but Al Qaeda is not the first group to try using political violence against the United States to make Washington change its policies In the 1980s terrorism was rampant from Latin America to Europe and the Middle East a host of groups demanded changes in American foreign policy and were willing to bomb assassinate kidnap and hijack to pressure the government to act The First War on Terrorism examines the response of the Reagan Administration to the political violence it confronted during the 1980s David Wills takes the reader inside the negotiations over how to respond to terrorist acts and shows how the Reagan Administration s decision making process was a crucial obstacle to formulating a consistent and effective terrorism policy Compelling and enlightening The First War on Terrorism serves as a powerful guide to what should be emulated and avoided from America s previous battles with shady foes **The Niger Delta Paradox** Wangbu, John K.,2018-11-05 Many people in the Niger Delta may not have heard of the term environmental injustice before but it is just a new word for an old problem Environmental justice is based on the

principle that all people have a right to be protected from environmental pollution and to live in and enjoy a clean and healthy environment In the Niger Delta environmental injustice is experienced mostly from the activities of the oil industries which have degraded the land contaminated the water and polluted the air without proper compensation Gas leakage is killing many people and continues to have a negative impact on the lives of the people living around the area The aim of this book is to raise awareness of the issues affecting the Niger Delta region and to encourage involvement in the cause
