

## Structure: Prose

- You should also consider/pay attention to the structure of prose passages. Better commentaries will bring this into the discussion. (How does the passage develop from beginning to end – how is it organized? What about paragraphs? Are there some very short or very long ones? Other interesting structural aspects you notice? For example, what is interesting about the fact that there are no quotation marks used for dialogue in this passage?)

Bremen, 1993 Brian Bremen's innovative re-examination of William Carlos Williams's life and work traces the development of Williams's poetics focusing in particular on his ongoing fascination with the effects of poetry and prose In an analysis informed by the insight of contemporary cultural critics Bremen traces Williams's thought from the confused romanticism of *Spring and All* to the methodological empiricism of *Paterson* examining in the process Williams's correspondence with life-long friend Kenneth Burke and their shared theoretical interests Through this fresh conceptual framework Bremen shows how Williams's role as poet becomes more congruous with his role as doctor In addition Bremen looks closely at Williams's economic and social theories in light of those of Ezra Pound and T S Eliot making a case for the consistency of Williams's thought on medicine, gender, economics, poetry and prose and history *William Carlos Williams and the Diagnostics of Culture* is essential reading for scholars not only of Williams but also of Modernism, twentieth-century literature and cultural criticism and history      **Geschichte Der Sprachwissenschaften** Sylvain Auroux, 2000      *Truth in Nonfiction* David Lazar, 2009-11-01 From Elie Wiesel to Benjamin Wilkomirski to David Sedaris the veracity of writers' claims has been suspect In this fascinating and timely collection of essays leading writers meditate on the subject of truth in literary nonfiction As David Lazar writes in his introduction How do we verify? **T. S. Eliot's Dialectical Imagination** Jewel Spears Brooker,2018-11-15 What principles

connect and what distinctions separate The Love Song of J Alfred Prufrock The Waste Land and Four Quartets The thought tormented characters in T S Eliot s early poetry are paralyzed by the gap between mind and body thought and action The need to address this impasse is part of what drew Eliot to philosophy and the failure of philosophy to appease his disquiet is the reason he gave for abandoning it In T S Eliot s Dialectical Imagination Jewel Spears Brooker argues that two of the principles that Eliot absorbed as a PhD student at Harvard and Oxford were to become permanent features of his mind grounding his lifelong quest for wholeness and underpinning most of his subsequent poetry The first principle is that contradictions are best understood dialectically by moving to perspectives that both include and transcend them The second is that all truths exist in relation to other truths Together or in tandem these two principles dialectic and relativism constitute the basis of a continual reshaping of Eliot s imagination The dialectic serves as a kinetic principle undergirding his impulse to move forward by looping back and the relativism supports his ingrained ambivalence Brooker considers Eliot s poetry in three blocks each represented by a signature masterpiece The Love Song of J Alfred Prufrock The Waste Land and Four Quartets She correlates these works with stages in the poet s intellectual and spiritual life disjunction ambivalence and transcendence Using a methodology that is both inductive moving from texts to theories and comparative juxtaposing the evolution of Eliot s mind as reflected in his philosophical prose and the evolution of style as seen in his poetry Brooker integrates cultural and biographical contexts The first book to read Eliot s poems alongside all of his prose and letters T S Eliot s Dialectical Imagination will revise received readings of his mind and art as well as of literary modernism
