Prose Poem In France Theory And Practice:

The Prose Poem in France Mary Ann Caws, Hermine B. Riffaterre, 1983 Although deconstruction has become a popular catchword as an intellectual movement it has never entirely caught on within the university For some in the academy deconstruction and Jacques Derrida in particular are responsible for the demise of accountability in the study of literature Countering these facile dismissals of Derrida and deconstruction Herman Rapaport explores the incoherence that has plagued critical theory since the 1960s and the resulting legitimacy crisis in the humanities Against the backdrop of a rich informed discussion of Derrida's writings and how they have been misconstrued by critics and admirers alike *The Theory Mess* investigates the vicissitudes of Anglo American criticism over the past thirty years and proposes some possibilities for reform

Metaliterary Layers in Finnish Literature Samuli Hägg,Erkki Sevänen,Risto Turunen,2009-01-09 In international research metafictionality and other metaliterary features have typically been regarded as phenomena related to postmodernist fiction in particular Metaliterary Layers in Finnish Literature however discusses the metalayers of Finnish literature from the early 20th century to the present By analyzing different genres of Finnish literature in varying historical contexts Metaliterary Layers in Finnish Literature provides an abundance of new information on Finnish literature and its metaliterary phenomena for everyone interested In the articles of this book the metalayers of literature are discussed in experimental prose and poetry as well as in popular fiction and children s literature **Baudelaire's Le Spleen de Paris** MariaC. Scott,2017-09-29 Maria Scott s study of the operation of irony in Baudelaire s Le Spleen de Paris contends that the principal target of the collection s spleen is its own readership Baudelaire as one of the most perceptive cultural commentators of the nineteenth century was naturally very keenly aware of the growing dominance of the bourgeoisie in France not least as a market for art and literature Despite being dependent on this market for his own writing the poet was highly critical of bourgeois values and attitudes Scott builds on existing criticism of the collection to argue that these are indirectly mocked in Le Spleen de Paris often in the person of the poet s supposed textual alter ego The contention is that the prose poems betray the trust of readers by way of an apparent transparency of meaning that functions to blind us to their embedded irony Though focused on Le Spleen de Paris Scott s study engages with the full range of Baudelaire s writings including his art and literary criticism Her book will be of interest not only to Baudelaire scholars but also to those engaged more generally with nineteenth century French culture Unacknowledged Legislators Roger Pearson,2016

Unacknowledged Legislators presents an original and detailed history of the theory and practice of French poetry from 1750 through to the end of the Romantic period Focusing on five major writers of the period it demonstrates how the figure of the poet as lawgiver was central to the theory and practice of poetry during this period **The Princeton Encyclopedia of Poetry and Poetics** Stephen Cushman,Clare Cavanagh,Jahan Ramazani,Paul Rouzer,2012-08-26 The most important poetry reference for more than four decades now fully updated for the twenty first century Through three editions over more than four decades The Princeton Encyclopedia of Poetry and Poetics has built an unrivaled reputation as the most comprehensive and authoritative reference for students scholars and poets on all aspects of its subject history movements genres prosody rhetorical devices critical terms and more Now this landmark work has been thoroughly revised and updated for the twenty

City Images Mary Ann Caws, 2013-11-26 First Published in 1991 Knowing any real city and still more so knowing what it is to know a city may be as much about passive as about active experience What we read in the field that field of the city in all its bizarre mixture of culture and nature is bound to determine to some non fictional extent what we know of it what we imagine it could be what we fear it may be or become These essays are meant to be albeit in their critical mode the recountings of knowing something through something else they are the projected imagination through reading of the reading by the self and or others a wide range of each of a city or cities as such of what city knowing or city thinking is The city as stage market and labyrinth variously trafficked and aestheticized dreamt and politicized as passionately written by authors from Cicero to Kazin from Wordsworth Dickens Whitman and Woolf to Williams Ashbery and Bonnefoy is the place the essays play themselves out through architecture and metaphor

Formal Revolution in the Work of Baudelaire and Flaubert Kathryn Oliver Mills, 2012-03-22 In *Formal Revolution in the Work of Baudelaire and Flaubert* Kathryn Oliver Mills argues that despite the enduring celebrity of Baudelaire and Flaubert their significance to modern art has been miscast and misunderstood To date literary criticism has paid insufficient attention to these authors literary form and their socio cultural context In addition critical literature has not always adequately integrated individual works to each author s broader oeuvre on the one hand critics do not often maintain rigorous distinctions among texts when discussing Baudelaire and Flaubert and on the other hand scholars of Baudelaire and Flaubert have not consistently considered the relationship of individual texts to either writer s corpus Furthermore critical focus has been on the modernity of *Les Fleurs du mal* *Madame Bovary* and *L Education Sentimentale* Addressing these lacunae in scholarship Mills puts forth the argument that Baudelaire s collection of prose poems *Le Spleen de Paris* and Flaubert s short poetic tales *Trois contes* best embody the modern aesthetic that Baudelaire develops in *Le Peintre de la vie moderne* and that Flaubert elaborates in his correspondence *Formal Revolution* places these relatively less well known but last published works in relationship with the artistic goals of their authors

showing that Baudelaire and Flaubert were both acutely aware of the need to launch a new form of literature in order to literally come to terms with the dramatic changes transforming the nineteenth century into the Modern Age More specifically Formal Revolution demonstrates that for Baudelaire and Flaubert the formal project of fusing prose with poetry as poetic prose in the case of Flaubert as poetry in prose in the case of Baudelaire was crucial to their mission of painting modern life This work concludes that experimentation with literary form represents these two seminal writers major legacy to modernity suggests that the twentieth century might have gone too far down that road and speculates about the future direction of literature The modernity of Baudelaire and Flaubert still relevant today but often taken for granted needs to be reexamined in light of the cultural formal and contextual considerations that inform Formal Revolution in the Work of Baudelaire and Flaubert

Channel Crossings Clive Scott, 2017-12-02 Scott s subtle and adventurous analysis breaks new ground in textual understanding while his translations radically challenge established orthodoxies As he crosses back and forth between French and English poetry

he has illuminating encounters with a wide range of poets from Labe and Shakespeare to Auden and Jaccottet The embodiment of gender in the sonnet the performance of the dramatic voice the inflexions of the self in the voice of lyric verse the landscaping of nature in the line of verse the interventions of the translator in the peculiar lives of the prose poem and free verse the tasks of the translator and the comparatist in a new age these are some of the issues addressed by Clive Scott in a sequence of essays as absorbing as they are original Channel Crossings is the recipient of the R H Gapper Prize for 2004 The Prize which is judged by the Society for French Studies recognises the best publication of its year by any French studies scholar working in the United Kingdom or Ireland The citation noted In his book Clive Scott gives a subtle and adventurous account of how processes of cultural exchange have played an active and enduring role in the development of the language of poetry in French and English over a period of several centuries Clive Scott s book was one of a number of very impressive works published in 2002 The judges choice was made in the light of the book s originality and its likely impact on wider critical debate on the language of poetry and on questions of method and approach in comparative literature Poetry, the Geometry of the Living Substance Agnes Lehoczky,2011-01-18 Poetry the Geometry of the Living Substance is the first serious and sustained study in English of one of the most important Hungarian writers of the 20th century the modernist poet gnes Nemes Nagy The book captures the dual nature of poetry as a discourse of the infinite and the abyssal through close readings of her poetry and prose These four essays draw parallels between gnes Nemes Nagy and other thinkers and theorists such as Rilke Celan Heidegger Derrida Beckett and Blanchot The monograph explores the poetic paradigm changes of Nemes Nagy in her whole work including her collections of poems essays on poetics and other posthumous miscellaneous fragments Drawing indirect parallels between the fields of poetics and epistemology the central focus of the book is the parergonal relation between language and the external world the psyche and the objective environment trauma and memory within the poetic space *The Muse of Abandonment* Lee Upton,1998 The Muse of Abandonment examines personal and cultural forms of abandonment in the poetry of Charles Wright Russell Edson Jean Valentine James Tate and Louise Gluck These poets register the tremors of the post modern exhaustion of universals and a conflicted desire for authenticating presences The first book to study these poets as members of a generation The Muse of Abandonment analyses the poets recasting of confessional and surrealistic legacies and discusses their reflections on coercion of thought and behavior and an atmosphere in contemporary culture that would trivialize private sensibility The Futurist Moment Marjorie Perloff,2003-12-03 This volume examines the flourishing of Futurist aesthetics in the European art and literature of the early twentieth century Futurism was an artistic and social movement that was largely an Italian phenomenon though there were parallel movements in Russia England and elsewhere The Futurists admired speed technology youth and violence the car the airplane and the industrial city all that represented the technological triumph of humanity over nature This work looks at the prose visual art poetry and the manifestos of Futurists from Russia to Italy The author reveals the Moment s impulses and

operations tracing its echoes through the years to the work of postmodern figures like Roland Barthes This updated edition reexamines the Futurist Moment in the light of a new century in which Futurist aesthetics seem to have steadily more to say to the present

High Art David Carrier, 2010-11-01 The great poet Charles Baudelaire 1821 1867 was also an extremely influential art critic High Art relates the philosophical issues posed by Baudelaire's art writing to the theory and practice of modernist and postmodernist painting Baudelaire wrote in an age of transition David Carrier argues an era divided by the Revolution of 1848 the historical break that played for him a role now taken within modernism by the political revolts of 1968 Moving from the grand tradition of Delacroix to the images of modern life made by Constantin Guys this movement from high to low from the unified world of correspondences to the fragmented images of contemporary city life motivates Baudelaire's equivalent to the post 1968 turn away from formalist art criticism Viewed from the perspective of the 1990s Carrier argues the issues raised by Baudelaire's criticism and creative writing provide a way of understanding the situation of art writing in our own time
