THE STANDARDS OF THE EUROPEAN COMMITTEE
FOR THE PREVENTION OF TORTURE IN CONTEXT

Protecting Prisoners

Emilie Sanchez

Protecting Prisoners:

Protecting Prisoners Rodney Morgan, Malcolm Evans, Malcolm David Evans, 1999 Prisoners are a uniquely vulnerable social group and protecting them from oppressive states has given rise to a complex web of standards generated by a variety of international mechanisms and processes *Protecting Prisoners* examines the most detailed and far reaching set of custodial standards yet devised those of the European Committee for the Prevention of Torture CPT and relates them to those of other European and United Nations bodies The book also examines the reaction of selected Council of Europe member states Belgium France Hungary the Netherlands Turkey and the United Kingdom to the application of those standards in CPT reports This dual perspective provides a critical insight into the degree to which the development of international human rights law is having a practical impact on the situation of prisoners

Prison Sex Christopher Hensley, 2002 Sex in prison remains a taboo subject This comprehensive volume explores prison sex presenting original research on consensual and nonconsensual intercourse as well as the effects of conjugal visitation policies and HIV AIDS management

Prisoners' Rights Susan Easton, 2011-03-10 This book considers prisoners rights from socio legal and philosophical perspectives assessing the advantages and problems of a rights based approach to imprisonment with a focus on citizenship the treatment of women prisoners and social exclusion

Principles of European Prison Law and Policy Dirk van Zyl Smit, Sonja Snacken, 2009-01-08 In recent years European prison law and policy have emerged as a force to be reckoned with This book explores its development and analyses the penological and human rights foundations on which it is based It examines the findings of the European Committee for the Prevention of Torture the recommendations of the Council of Europe and the judgments of the European Court of Human Rights From these sources it makes the general principles that underlie European prison law and policy explicit emphasising the principle of using imprisonment as a last resort and the recognition of prisoners rights The book then moves on to apply these principles to conditions of imprisonment regimes in prison contacts between prisoners and the outside world and the maintenance of good order in prisons The final chapter of the book considers how European prison law and policy could best be advanced in future The authors argue that the European Court of Human Rights should adopt a more proactive approach to ensuring that imprisonment is used only as a last resort and that a more radical interpretation of the existing provisions of the European Convention on Human Rights will allow it to do so It concludes that the growing cooperation on prison matters within Europe bodes well for the increased recognition of prisoners rights across Europe In spite of some countervailing voices Europe should increasingly be able to give an international lead in a human rights approach to prison law and policy in the same way it has done with the abolition of the death penalty

Overseeing Rights in Prison Sophie van der Valk, 2025-06-20 Drawing on Ireland as its primary case study this book is an in depth critical examination of how rights protection bodies and mechanisms are experienced by those in prison in Ireland Through its analysis of the Irish experience the book considers the implementation of and challenges

faced by human rights protection within the prison context and explores some of the reforms that Ireland has undertaken in this area over the past 15 years including the introduction of a new complaint system and establishment of an Office of the Inspector of Prisons Using a wealth of information gathered through interviews and surveys of participants in three male prisons the book sets out personal experiences of such mechanisms and identifies the key barriers to effective rights protection Offering a detailed presentation of the international framework for the protection of prisoners rights through oversight mechanisms and proposing methods for overcoming common barriers Overseeing Rights in Prison The Irish Experience of Human Rights Protection in Prisons will be of interest to students and scholars of criminology particularly in relation to prisons and human rights
