Breathing: Violence In, Peace Out Ivana Milojevic, 2013-10-01 An investigation into the long term impact of transgenerational trauma and the possibilities for healing this book explores the links between personal histories and world events and helps us to understand life s dualities violence and peace self and other stability and change slavery and freedom Author Ivana Milojevic asks How does violence change us Is it possible to change the inner landscape of one s thinking in the midst of pain and suffering and If this is our past how might our future be different Oscillating between two voices Milojevic journeys between the personal breathing in which describes her experience of violence while the second academic voice breathing out tries to make sense of it The rhythm created by inhaling and exhaling reflects not only what we take from the world but also what we give back to it Breathing is an inquiry into alternative futures as Milojevic explores a range of possibilities both for each of us personally and for the world

Slavoj Žižek and Radical Politics Sean Homer, 2016-05-05 In this book Sean Homer addresses Slavoj i ek s work in a specific political conjuncture his political interventions in the Balkans The charge of inconsistency and contradiction is frequently levelled at i ek s politics a charge he openly embraces in the name of pragmatism Homer argues

that his interventions in the Balkans expose the dangers of this pragmatism for the renewal of the Leftist politics that he calls for. The book assesses i ek s political interventions in so far as they advance his self proclaimed ruthlessly radical aims about changing the world. Homer argues the Balkans can be seen as i ek s symptom that element which does not fit into the system but speaks its truth and reveals what the system cannot acknowledge about itself. In Part II Homer explores i ek s radicalism through his critique of Alain Badiou arguing that Badiou s affirmationism provides a firmer grounding for the renewal of the left than i ek s negative gesture analyzed in Part I. What distinguishes i ek from the majority of the contemporary Left today is his valorization of violence. Homer tackles this issue head on in relation to political violence in Greece. Finally Homer defends the utopian impulse on the radical left against its Lacanian critics.

The History of Serbia John K. Cox, 2002-05-30 With the outbreak of war in the former Yugoslavia in 1991 interest in Balkan history has increased and become emotionally charged. This balanced and engagingly written history of Serbia will help readers to understand the complex web of Serbian history politics society and culture and how the Serbs have dealt with the many political military and socioeconomic challenges in their history. It attempts to remove the veil of stereotypes and myths obscuring the significant details and developmental processes in the history of Serbia and in its relations with its neighbors. In addition to examining the political history of Serbia in the context of Central Europe the author a specialist in Balkan history shows how societal and cultural developments affected Serbian history and reflected political and economic events. A timeline of significant events in the history of Serbia and an introductory chapter on Serbia today are followed by 12 chronologically organized narrative chapters that tell the story of this land from the splendor of medieval Serbia to a new beginning after the downfall of Slobodan Milosevic. Four historical maps brief biographies of key figures in Serbian history a glossary of terms and a bibliographic essay provide valuable resource material for readers. Every library should update its collection of materials on Serbia with this current history.

Regime Change in the Yugoslav Successor States Mieczysław P. Boduszyński, 2010-04-26 In the 1990s amid political upheaval and civil war the Socialist Federal Republic of Yugoslavia dissolved into five successor states. The subsequent independence of Montenegro and Kosovo brought the total number to seven. Balkan scholar and diplomat to the region Mieczyslaw P. Boduszynski examines four of those states: Croatia Slovenia Macedonia and the Federal Republic of Yugoslavia and traces their divergent paths toward democracy and Euro Atlantic integration over the past two decades. Boduszynski argues that regime change in the Yugoslav successor states was powerfully shaped by both internal and external forces: the economic conditions on the eve of independence and transition and the incentives offered by the European Union and other Western actors to encourage economic and political liberalization. He shows how these factors contributed to differing formulations of democracy in each state. The author engages with the vexing problems of creating and sustaining democracy when circumstances are not entirely supportive of the effort. He employs innovative concepts to measure the quality of and prospects for democracy in the Balkan region.

arguing that procedural indicators of democratization do not adequately describe the stability of liberalism in post communist states This unique perspective on developments in the region provides relevant lessons for regime change in the larger post communist world Scholars practitioners and policymakers will find the book to be a compelling contribution to the study of comparative politics democratization and European integration Democratic Revolutions Mark K. Thompson,2003-11-20 Despite enormous differences between Asia and Eastern Europe there are striking similarities between the peaceful spontaneous urban based and cross class democratic uprisings against unyielding dictatorships that have occurred in the two regions The book explores the kind of non democratic regimes that are particularly vulnerable to democratic revolutions It examines why and how democrats rebel and what the results of democratic revolutions have been Questions posed in this book include Why were communist rulers shot in China but not in Eastern Europe Why did stolen elections lead to the overthrow of Miloevic in Serbia Why have there been so many women leading democratic revolutions in Asia This book attempts to democratize theories of revolution and revolutionize democratic transitions Cases and comparisons are drawn from 15 democratic revolutions over the last two decades and the book includes in depth studies of East Germany China Serbia and the Philippines *Sociology and Post-Socialist Transformations in Eastern Europe* Borut Roncevic,Tamara Besednjak Valič,2024-11-28 The volume offers a unique and comprehensive reflection on the role of sociology and sociologists in the transformation of post socialist Eastern European societies It provides detailed insight on the status of sociology in Eastern Europe its institutional development specifics of national sociological traditions the controversial and ambiguous relationship with the political system and importantly state of the art knowledge about the role of sociology as a discipline and sociologists as academics educators public intellectuals experts politicians or civil society activists in three decades of transformation The volume follows a cultural political economy approach and provides a series of national case studies that analyse the role of sociology in re imagining Eastern European societies This topical volume is of interest to a wide interdisciplinary readership in the social sciences especially students and researchers working on Eastern Europe and on post socialist societies **The Past in Exile** Birgit Bock-Luna,2007 In this study of identity politics memory and long distance nationalism among Serbian migrants in California the author examines the complicated ways in which visions of the past are used to form Diaspora subjects and make claims to the homeland in the present Drawing on extended fieldwork in the San Francisco Bay Area community she shows how the Yugoslav wars generated a revaluation Serbian history and personal life stories resulting in the strengthening of ethnic identity Nevertheless strategies for dealing with rupture and change also included contestation of exile nationalism Serpent In The Bosom Lenard J Cohen,2001-01-04 What emerges is a clear understanding of Serbia s enigmatic leader and his influence on the Balkans BOOK JACKET

Defeating Authoritarian Leaders in Postcommunist Countries Valerie J. Bunce, Sharon L.

Wolchik, 2011-06-30 From 1998 to 2005 six elections took place in postcommunist Europe that had the surprising outcome of empowering the opposition and defeating authoritarian incumbents or their designated successors Valerie J Bunce and Sharon L Wolchik compare these unexpected electoral breakthroughs They draw three conclusions First the opposition was victorious because of the hard and creative work of a transnational network composed of local opposition and civil society groups members of the international democracy assistance community and graduates of successful electoral challenges to authoritarian rule in other countries Second the remarkable run of these upset elections reflected the ability of this network to diffuse an ensemble of innovative electoral strategies across state boundaries Finally elections can serve as a powerful mechanism for democratic change This is especially the case when civil society is strong the transfer of political power is through constitutional means and opposition leaders win with small mandates

1989: Young People and Social Change

After the Fall of the Berlin Wall Carmen Leccardi, Council of Europe, 2012-01-01 After the collapse of state socialism at the end of the 1980s young people in Eastern Europe began to play a dramatically different role in society Once cast as the vital reinvigorating protagonists of the communist ideal they emerged as promoters of democratisation and agents of a now hegemonic market system Twenty years after the fall of the Berlin Wall in November 1989 an event symbolising both the lifting of the Iron Curtain and the end of the Cold War an international seminar was held in Budapest to discuss how the opening of eastern European societies to western Europe and the world had changed the living conditions and experiences of young people growing up in the region This collection of essays based on this seminar examines the circumstances of young

people in eastern Europe before and after 1989 from a variety of angles their transition to adulthood their living conditions the scope they have for social participation the way in which they construct their identities and constitute and represent current social realities their cultures and genders and the interplay of continuities and discontinuities around this historic watershed This book which pays particularly close attention to the relationship between research policy and practice is an invaluable tool for anyone wishing to achieve a deeper understanding of young people in Eastern Europe today *Social Movements, Nonviolent Resistance, and the State* Hank Johnston, 2019-01-25 This volume probes the intersections between the fields of social movements and nonviolent resistance Bringing together a range of studies focusing on protest movements around the world it explores the overlaps and divergences between the two research concentrations considering the dimensions of nonviolent strategies in repressive states the means of studying them and conditions of success of nonviolent resistance in differing state systems In setting a new research agenda it will appeal to scholars in sociology and political science who study social movements and nonviolent protest

The Myth of Ethnic War V. P. Gagnon, 2013-07-15 The wars in Bosnia Herzegovina and in neighboring Croatia and Kosovo grabbed the attention of the western world not only because of their ferocity and their geographic location but also because of their timing This violence erupted at the exact moment when the cold war confrontation was drawing to a close when westerners were claiming their liberal values as triumphant in a country that had only a few years earlier been seen as very well placed to join the west In trying to account for this outburst most western journalists academics and policymakers have resorted to the language of the premodern tribalism ethnic hatreds cultural inadequacy irrationality in short the Balkans as the antithesis of the modern west Yet one of the most striking aspects of the wars in Yugoslavia is the extent to which the images purveyed in the western press and in much of the academic literature are so at odds with evidence from on the ground from Chapter 1 V P Gagnon Jr believes that the Yugoslav wars of the 1990s were reactionary moves designed to thwart populations that were threatening the existing structures of political and economic power He begins with facts at odds with the essentialist view of ethnic identity such as high intermarriage rates and the very high percentage of draft resisters These statistics do not comport comfortably with the notion that these wars were the result of ancient blood hatreds or of nationalist leaders using ethnicity to mobilize people into conflict Yugoslavia in the late 1980s was in Gagnon s view on the verge of large scale sociopolitical and economic change He shows that political and economic elites in Belgrade and Zagreb first created and then manipulated violent conflict along ethnic lines as a way to short circuit the dynamics of political change This strategy of violence was thus a means for these threatened elites to demobilize the population Gagnon s noteworthy and rather controversial argument provides us with a substantially new way of understanding the politics of ethnicity

Humor and Nonviolent Struggle in Serbia Janjira Sombatpoonsiri, 2015-10-29 In this highly original and engaging work Sombatpoonsiri explores the nexus between humor and nonviolent protest aiming to enhance our understanding of the growing popularity of humor in protest movements around the world Drawing on insights from the pioneering Otpor activists in Serbia she provides a detailed account of the protesters systematic use of humor to topple Slobodan Milo evic in 2000 Protest newsletters documentaries of the movement and interviews with activists combine to illustrate how humor played a pivotal role by reflecting the absurdity of the regime s propaganda and in turn by delegitimizing its authority Sombatpoonsiri highlights the Otpor activists ability to internationalize their nonviolent crusade influencing youth movements in the Ukraine Georgia Iran and Egypt Globally Otpor s successful use of humor has become an inspiration for a later generation of protest movements
