

PSYCHEDELIC PRAYERS

after the

TAO TE CHING

by

Timothy Leary

"...But that crucial non-game terror-reverence awful moment comes...
There comes a time when the ecstatic cry is called for.
At that time, you must be ready to pray.
To go beyond yourself. To contact energy beyond your game.
At that time you must be ready to pray....
When you have lost the need to pray....
You are a dead man in a world of dead symbols.
Pray for life.
Pray for life."

Psychedelic Prayers After The Tao Te Chi:

Psychedelic Prayers After the Tao Te Ching Timothy Leary, 1970 *Psychedelic Prayers After the Tao Te Ching* Timothy Leary, 1966 **Psychedelic Prayers** Timothy Leary, 2010-09-15 Leary's only book of meditative poetry Manual to higher consciousness inspired by Lao Tse's Tao Te Ching Way of Life Includes six rediscovered poems photos and drawings from the cover of the German edition by H R Giger and photos of Leary in India along with essays by Michael Horowitz Rosemary Woodruff Leary and Ralph Metzner who was with Leary in India when he wrote the book A companion volume to High Priest My objective Leary wrote was to find the seed idea in each Sutra and rewrite it in the lingua franca of psychedelia The result was this handy take along prayer book It is intended to be read slowly during a session as a guide to transcendental experiences *Psychedelic Mysticism* Morgan Shipley, 2015-11-12 Concerned with scholarly popular and religious backdrops that understand the connection between psychedelics and mystical experiences to be devoid of moral concerns and ethical dimensions a position supported empirically by the rise of acid fascism and psychedelic cults by the late 1960s *Psychedelic Mysticism Transforming Consciousness Religious Experiences and Voluntary Peasants in Postwar America* traces the development of sixties psychedelic mysticism from the deconditioned mind and perennial philosophy of Aldous Huxley to the sacramental ethics of Timothy Leary Richard Alpert and Ralph Metzner to the altruistic religiosity practiced by Stephen Gaskin and The Farm Building directly off the pioneering psychedelic writing of Huxley these psychedelic mystics understood the height of psychedelic consciousness as an existential awareness of unitive oneness a position that offered worldly alternatives to the maladies associated with the postwar moment e g vapid consumerism and materialism lifeless conformity unremitting racism heightened militarism In opening a doorway to a common world Morgan Shipley locates how psychedelics challenged the coherency of Western modernity by fundamentally reorienting postwar society away from neoliberal ideologies and toward a sacred understanding of reality defined by mutual coexistence and responsible interdependence In 1960s America psychedelics catalyzed a religious awakening defined by compassion expressed through altruism and actualized in projects that sought to ameliorate the conditions of the least advantaged among us In the exact moments that historians and cultural critics often locate as signaling the death knell of the counterculture Gaskin and The Farm emerged not as a response to the perceived failures of the hippies nor as an alternative to sixties politics but in an effort to fulfill the religious obligation to help teach the world how to live more harmoniously Today as we continue to confront issues of socioeconomic inequality entrenched differences widespread violence and the limits of religious pluralism *Psychedelic Mysticism* serves as a timely reminder of how religion in America can operate as a tool for destabilization and as a means to actively reimagine the very basis of how people relate such a legacy can aid in our own efforts to build a more peaceful sustainable and compassionate world **Tao Te Ching** Lao Tzu, 2018-12-04 The original mindfulness book in a landmark new translation by the award winning translator of the I Ching and The Art of War The most translated book in the

world after the Bible the Tao Te Ching or Book of the Tao is a guide to cultivating a life of peace serenity and compassion Through aphorisms and parable it leads readers toward the Tao or the Way harmony with the life force of the universe Traditionally attributed to Lao tzu a Chinese philosopher thought to have been a contemporary of Confucius it is the essential text of Taoism one of the three major religions of ancient China As one of the world s great works of wisdom literature it still has much to teach us today offering a practical model based on modesty and self restraint for living a balanced existence and for opening your mind freeing your thoughts and attaining greater self awareness With its emphasis on calm simplicity purity and non action it provides a time tested refuge from the busyness of modern life This new translation seeks to understand the Tao Te Ching as a guide to everyday living and encourages a slow meditative reading experience The Tao Te Ching s eighty one brief chapters are accompanied by illuminating commentary interpretation poems and testimonials by the likes of Margaret Mead Ursula K Le Guin and Dr Wayne W Dyer Specially commissioned calligraphy for more than two hundred Chinese characters illustrates the book s essential themes **Tao Te Ching** Timothy Leary,Julio Mario Santo Domingo Collection,1972 **Encyclopedia of New Religious Movements** Peter Clarke,2004-03 An essential companion to both research and scholarship upon which undergraduates postgraduates lecturers and researchers can all be expected to draw

The Tao of Women Pamela K. Metz,Jacqueline L. Tobin,1995-06 For centuries women have remained quiet suppressed by society Yet in their silence a singing can be heard celebrating their truths In The Tao of Women female voices speak out Finally the wisdom of Taoist philosophy is linked with the deep and mysterious wisdom of women The Tao of Women captures and presents the power and wisdom generated by centuries of women s lives with the hope that this wisdom will not be lost These brief and poignant meditations amplify the voices of our grandmothers and their mothers before them they illuminate the connections over time and space and culture allowing us to understand the women who came before and the daughters who will follow In 1950 a secret language was discovered near Hunan Province China It was not until 1982 that anyone collected and translated this secret women s script Known as Nu Shu this ancient language was developed and used by women to communicate with each other when their society would not allow them to learn to read and write For the first time in America 81 original Nu Shu illustrations and their translations can be seen in The Tao of Women *Metaphors of Consciousness* Ronald S. Valle,Rolf von Eckartsberg,2012-12-06 As we move into the 1980s there is an increasing awareness that our civilization is going through a profound cultural transformation At the heart of this transformation lies what is often called a paradigm shift a dramatic change in the thoughts perceptions and values which form a particular vision of reality The paradigm that is now shifting comprises a large number of ideas and values that have dominated our society for several hundred years values that have been associated with various streams of Western culture among them the Scientific Revolution of the seventeenth century The Enlightenment and the Industrial Revolution They include the belief in the scientific method as the only valid approach to knowledge the split between mind and matter the view of nature as a

mechanical system the view of life in society as a competitive struggle for survival and the belief in unlimited material progress to be achieved through economic and technological growth All these ideas and values are now found to be severely limited and in need of radical revision

The Essence of Tao Pamela Ball,2005-03-01 Knowing ignorance is strength Ignoring knowledge is sickness Lao Tse Tao meaning The Way refers to a power that envelops surrounds and flows through all things both living and sentient It regulates natural processes and nourishes balance in the Universe But in the words of the Sage its Name is Formless This means that any exploration of it starts from a position of ignorance and any journey we undertake to reach an understanding of it is of necessity personal No two paths will be identical In this compelling introduction Pamela Ball enables us to find a Way through the myriad complexities of this ancient and yet distinctly modern belief system and offers clearly defined pathways to further study and enlightenment By unravelling its mysteries she shows us how to achieve balance and establish principles for living life effectively now and in the years to come

Behaviourist Art and Cybernetics Kate Sloan,2025-09-29 Drawing together key areas of cybernetic art practice in the UK and USA this book assesses British and American cybernetic art as relating to the intersecting field of Behaviourism This study takes as a starting point Roy Ascott s essay Behaviourist Art and the Cybernetic Vision 1966 and uses it to define a

field of Behaviourist art from the period 1945 1975 Kate Sloan establishes the role of the cybernetic concept of feedback as a defining factor in understanding works of art as behavioural expanded well beyond the perimeters of what we consider cybernetic art The book also demonstrates how light as a behavioural trigger informed several discrete areas of art making from cybernetic art to countercultural light shows and behaviourist architectures The book will be of interest to scholars working in art history technology studies music history architectural history and design history **Everybody Must Get Stoned** R. U. Sirius, 2009 A fascinating informative and hilarious compendium about two of pop culture's most enduring obsessions rock musicians and the drugs they love b w photos throughout *Sacred Mushrooms* Carl A. P. Ruck, 2016-01-18 In the ancient world men and women joined cults known as Mysteries to unite with the deities of the otherworld and achieve eternal life The most important of the Mysteries existed for two millennia at the village of Eleusis Its deities were Demeter and Persephone interchangeable in their roles as mother and daughter The initiations and other rituals of this goddess based cult were a profound secret divulging information was punishable by death For centuries scholars have probed the secrets of the Eleusinian Mysteries and kykeon its sacramental Eucharist a sacred drink containing psychoactive chemicals similar to those in LSD Their discoveries have been buried in the arcane language of alchemy the occult sciences and secret societies Here in prose accessible to all readers Carl Ruck unravels the Mysteries revealing the awesome powers of the goddesses as well as the pagan underpinnings of Western culture *Hermaphrodites, Gynomorphs and Jesus* David C. A. Hillman, 2014-02-17 The first western god was both male and female All of western religion springs from the veneration of a bi gender entity known to the ancient world as the Gynomorph The worship of hermaphroditic gods like the Gynomorph surfaces in ancient pagan cults as well as early Christianity The celebration of female gods with penises impacted the development of western culture Veneration of the Gynomorph is the basis for modern western law courts The founders of democracy worshipped similar female divinities who possessed penises Ritual sodomy as a means of celebrating hermaphroditic gods directly promoted the birth of western democracy In fact ancient priestesses responsible for guiding the worship of hermaphroditic goddesses laid the very foundations for democracy science and philosophy The oldest western pharmaceuticals were sex drugs used in religious initiations in celebration of the Gynomorph Snake venoms used in cultic sex rituals were immensely popular in both Greece and Rome In addition abortion inducing drugs promoted the first scientific investigations Classical civilization relied heavily upon the use of cannabis opiates and hallucinogens which were mixed with sexual stimulants Greco Roman witches who served a prominent hermaphroditic goddess Hecate were among the earliest western scientists and naturalists Devotees of gynomorphic divinities were the first westerners to promote the religious practice known as necromancy The first baptists were cross dressing necromancers who celebrated the Gynomorph Eunuchs who served the same goddess were chemically castrated with scorpion venom Ancient pre Christian oracles declared that the messiah must be a hermaphrodite Christianity tried to assimilate and employ the use of necromancy The earliest Christians

used designer sex drugs in their rituals in order to venerate a messiah given gynomorphic status by church bishops

Entheogens, Myth, and Human Consciousness Carl A. P. Ruck, Mark Alwin Hoffman, 2012-12-11 ENTHEOGENS MYTH AND HUMAN CONSCIOUSNESS is a much needed accessible exploration into the role of psychoactive sacraments entheogens in religion mythology and history and also includes most treatments of the subject focus on modern scientific research psychotherapy are auto bibliographic accounts or are agenda driven or otherwise naive and myopic A great mystery of altered states of consciousness and species development is expanding with new archeological and anthropological discoveries Religious story telling myth is a timeless journey Surprisingly it s not about truth It s about finding one s self in the midst of the discovery of the Other It is the story of what is separate and unknown that creates self consciousness Our entire life consists ultimately in the discovery of the Other which gives meaning to the discovery of the self The arts and language are the fossil remnants scattered on our path ENTHEOGENS MYTH AND HUMAN CONSCIOUSNESS discusses the influence of psychoactive substances on consciousness human evolution and mystical experiences It explores how religion mythology art and culture stem from entheogenic consciousness and why it s important to us today Entheogens or psychoactive sacraments have a long storied history that has played an essential role in the evolution of consciousness mythology culture religion art and even history and politics ENTHEOGENS MYTH AND HUMAN CONSCIOUSNESS outlines this suppressed yet seminal undercurrent of history giving examples of the role of entheogens from the primal shamanic religions through the historical religions esoteric mystical traditions including the Mystery Religions alchemy and Freemasonry and into contemporary expressions Authors Ruck and Hoffman draw upon decades of research and personal experience in discussing the best documented examples of historically important entheogenic evidences various ongoing threads of research and speculation to muse upon the meaning of it all Our hominid ancestors experienced a spiritual awakening at the very dawn of consciousness that set them apart from the other creatures of our planet It was a journey to another realm induced by a special food that belonged to the gods This was a plant that was animate with the spirit of deity It was an entheogen It was the visionary vehicle for the trip of the first shaman The story was told over and over again until it achieved the perfect form of a myth The realm was imagined as a topographical place the outer limit of the cosmos the fiery empyrean or its geocentric opposite our own planet Gaia Myths multiplied over time but they always preserved this primordial truth These myths provide a road map a scenario if you can read them for whoever today wants to follow However it is not an easy journey and it is also fraught with many dangers of getting lost of finding no return Access to the entheogens is now largely prohibited or strictly licensed The restrictions constitute an infringement of cognitive freedom limiting the further evolution of human potential into productive creative imagination and experiences that lie beyond the normal the traditional province of shamans who can understand the speech of plants and animals change shape at will and journey both physically and in the spirit to distant exotic realms In addition religions have staked out territorial claims to this realm of

spiritual consciousness They have colonized it identified it with their god often reserving the access for their own elite Similarly trade in drugs both medicinal and illegal has colonized theentheogens making them only chemicals rationally depriving them of their spirit

ENTHEOGENS MYTH AND HUMAN CONSCIOUSNESS

is a guide for the curious that provides a historical overview of the role thatentheogens have played in the development of our unique supremacy as a species and offers also pathways and advice for reconnecting with the primordial sources of nature s power

ENTHEOGENS MYTH AND HUMAN CONSCIOUSNESS

investigates the roleentheogens have played in the evolution of humankind s attempt to define reality in a context of metaphysical or theological dimensions Although other botanical intoxicants will be considered cannabis daphne opium Syrian rue datura mandrake none with the possible exception of mandrake seem to have lent themselves so readily to metaphoric personifications which make this the subject for a course on mythology The source of humankind s fascination and repulsion for fungi indeed leads to a fundamental consideration of the psychological nature of mankind s fascination or awareness of what in the categorization of religions is termed animism and rituals of ecstatic shamanism In addition the linking of bread and wine as sacramental foods is due to parallel concepts of controlled fungal growth as a simulacrum of the cosmos itself The goal is not so much to acquire factual knowledge of this vast subject but to open up pathways for reflection upon the basic nature of human existence and consciousness The narrative is the awesome history of discovery and the findings of ancient rituals that meld into twentieth century controversy and criticism of psychedelics The future of humanity and the direction of twenty first century brain science is challenged as well as our sense of social convention

Entheogens have been deemed be prohibited controlled substances and as such is an infringement of cognitive freedom Whatever the danger of potential abuse the substance is not the fault but the user The hammer is not guilty but the carpenter who misuses it because of deficient training In order to exonerate the executioner in Classical antiquity the axe was brought to trial and found guilty The prohibition has drastically retarded the investigation into the therapeutic potential of proscribed drugs including their efficacy in curing addiction Some of these substances also offer the potential for accessing levels of cognition and consciousness beyond the ordinary the traditional provenance of mystics and shamans like bilocation clairvoyance and zoomorphism

Zig Zag Zen

Allan Hunt Badiner,Alex Grey,2002-04 Buddhism and psychedelic experimentation share a common concern the liberation of the mind Zig Zag Zen launches the first serious inquiry into the moral ethical doctrinal and transcendental considerations created by the intersection of Buddhism and psychedelics With a foreword by renowned Buddhist scholar Stephen Batchelor and a preface by historian of religion Huston Smith along with numerous essays and interviews Zig Zag Zen is a provocative and thoughtful exploration of altered states of consciousness and the potential for transformation Accompanying each essay is a work of visionary art selected by artist Alex Grey such as a vividly graphic work by Robert Venosa a contemporary thangka painting by Robert Beer and an exercise in emptiness in the form of an enso by a 17th century Zen abbot Packed with enlightening entries and art that lie outside the

scope of mainstream anthologies Zig Zag Zen offers eye opening insights into alternate methods of inner exploration

Data Made Flesh Robert Mitchell, Phillip Thurtle, 2013-02-01 In an age of cloning cyborgs and biotechnology the line between bodies and bytes seems to be disappearing DataMade Flesh is the first collection to address the increasingly important links between information and embodiment at a moment when we are routinely tempted in the words of Donna Haraway to be raptured out of the bodies that matter in the lust for information whether in the rush to complete the Human Genome Project or in the race to clone a human being

The Politics of Self-Determination Timothy Leary, 2010-06-15 Visionary Harvard psychologist Timothy Leary became the charismatic leader of the 60s counterculture Remembered as a pioneer of research and experimentation with psychedelic substances he was also an author lecturer political dissident and media magnet whose wit and charm captured the world's attention In this collection of essays from Leary's early career he presents his concept of personal responsibility for the effects of one's behavior According to Leary self-determining people don't blame their parents their race or their society they accept responsibility for their actions which in turn determines the responses they get from the world These writings had an enormous impact on the humanistic psychology movement and libertarian redefinition of the doctor-patient relationship Ronin's new offering gives readers a fascinating glimpse into Leary's ground-breaking work in this area

Tripping Charles Hayes, 2000-11-01 Provides the much-needed coming out of the closet that the psychedelic movement has lacked These stories will captivate inspire caution and educate This courageous book exceeds expectations Rich Doblin President Multidisciplinary Association for Psychedelic Studies MAPS A collection of transformational psychedelic experiences and a guidebook for how to understand them Flash back to a generation ago when the world of psychedelics still coasted in the gritty adventurous do-it-yourself ethos of Sixties counterculture Hang on for the bumpy thrill ride of the psychedelic experience before it was traded in for the white lab coat of pharmaceutical medicine Read up on the early anecdotes and field reports that have made ketamine and MDMA the newest drugs in mental health treatment In *Tripping* journalist Charles Hayes compiles fifty narratives of psychedelic odysseys from respectable Baby Boomers and young ravers to renowned Beat poet Anne Waldman and preeminent spokesperson Terence McKenna to give readers a glimpse into this transgressive experimental world of self-discovery As he liberates psychedelics from their social stigma Hayes explores ancient Greek rites and ecstasy-fueled raves sacred indigenous plants and synthetic smart drugs alien encounters and connections with nature the terrifying and the sublime A history cultural timepiece and resource guide all in one *Tripping* is a compendium of forbidden memories whose otherworldly tales and expository advice will provide insight and inspiration to readers even and especially now twenty years after its original publication
