Ram With Red Horns:

The Theology of Hathor of Dendera Barbara A. Richter, 2016-04-15 The Ptolemaic period witnessed an enormous increase in the number of hieroglyphic signs and iconographic elements composite crowns scepters and cult objects The ancient scribes exploited this complexity when composing the reliefs used in temple decoration selecting particular words hieroglyphic signs and iconographic elements in order to create interconnected multiple layers of meaning forming a tapestry of sound and sight The Theology of Hathor of Dendera examines these techniques on both micro and macro levels from their smallest details to their broadest thematic connections foregrounding individual techniques to determine the words and phrases singled out for emphasis By synthesizing their use in the three dimensional space of the most important cult chamber in the Temple of Hathor at Dendera this new method of analysis not only reveals the most essential characteristics of the local theology but also shows how the ancient scribes envisioned the universe and the place of humankind within it
