Rancher Ferrets On The Range:

Rancher Ferrets on the Range Richard Bach, 2003 Remembering their love for one another movie star Cheyenne Jasmine Ferret and rancher Montgomery Ferret meet again years later and discover the importance of following a personal calling in order to achieve happiness

Hypnotizing Maria Richard Bach, 2009-09-18 This philosophical novel mines the same territory as *The Secret* but is far richer raising provocative questions Publishers Weekly Flight instructor Jamie Forbes guides a woman to landing her plane safely after her husband loses consciousness then flies on to his own destination unimpressed by his act flight instructors guide students every day Only after she tells reporters that a stranger appeared in an airplane alongside hers and hypnotized her into landing and after he meets his own guiding stranger does he solve the bigger mystery how each of us creates step by step what seems to be the solid world around us The best mysteries are the ones whose answers lie in front of us in plain sight The best solutions are those moments when all of a sudden we realize what we've known all along

The A to Z of Fantasy Literature Brian Stableford, 2009-08-13 Once upon a time all literature was fantasy set in a mythical past when magic existed animals talked and the gods took an active hand in earthly affairs As the mythical past was displaced in Western estimation by the historical past and novelists became increasingly preoccupied with the present fantasy was temporarily marginalized until the late 20th century when it enjoyed a spectacular resurgence in every stratum of the literary marketplace Stableford provides an invaluable guide to this sequence of events and to the current state of the field The chronology tracks the evolution of fantasy from the origins of literature to the 21st century The introduction explains the nature of the impulses creating and shaping fantasy literature the problems of its definition and the reasons for its changing historical fortunes The dictionary includes cross referenced entries on more than 700 authors ranging across the entire historical spectrum while more than 200 other entries describe the fantasy subgenres key images in fantasy literature technical terms used in fantasy criticism and the intimately convoluted relationship between literary fantasies scholarly fantasies and lifestyle fantasies The book concludes with an extensive bibliography that ranges from general textbooks and specialized accounts of the history and scholarship of fantasy literature through bibliographies and accounts of the fantasy literature of different nations to individual author studies and useful websites

The Last War Richard Bach, 2003-10-07 Relentless investigator ferrets Shamrock and Burrows seek out an object that has the ability to change the future and may enable modern ferrets to contact the ancient and secret home planet from which they came

Historical Dictionary of Fantasy Literature Allen Stroud, 2023-06-12 Fantasy is both old and new In the ancient past stories of magic where supernatural creatures existed the gods walked the earth and heroes saved their civilizations from the dark fate that awaited them were intermingled with history religion and fact It is only in the last few hundred years that a conscious suspension of disbelief has allowed us to return to fantasy the literature of the impossible and appreciate it for its craft and storytelling once more *Historical Dictionary of Fantasy Literature* Second Edition contains a chronology an

introduction an extensive bibliography and cross referenced entries on more than 800 authors ranging across the entire historical spectrum More than 200 other entries describe the fantasy sub genres key images in fantasy literature technical terms used in fantasy criticism and the intimately convoluted relationship between literary fantasies scholarly fantasies and lifestyle fantasies This book is an excellent resource for students researchers and anyone wanting to know more about fantasy literature

Flying Richard Bach,2003-10-29 Here for the first time in a single volume are three of Richard Bach's most compelling works about flight From his edgy days as a USAF Alert pilot above Europe in an armed F84 F Thunderstreak during the Cold War to a meander across America in a 1929 biplane Bach explores the extreme edges of the air his airplane and himself in glorious writing about how it feels to climb into a machine leave the earth and fly Only a handful of writers have translated their experiences in the cockpit into books that have mesmerized generations

Curious Lives Richard Bach,2005-01-01 A collection of five novels featuring ferret protagonists present a series of adventures that double as tales about courage sacrifice heroism creativity and finding what matters most in life Original

Sequels Janet G. Husband,Jonathan F. Husband,2009 A guide to series fiction lists popular series identifies novels by character and offers guidance on the order in which to read unnumbered series

Encyclopedia of American Popular Fiction Geoff Hamilton,Brian Jones,2015-04-22 Provides information on American authors and their works who have been ignored by most literary guides

Biology and Diseases of the Ferret James G. Fox,Robert P. Marini,2014-03-26 Biology and Diseases of the Ferret Third Edition has been thoroughly revised and updated to provide a current comprehensive reference on the ferret Encyclopedic in scope it is the only book to focus on the characteristics that make the ferret an important research animal with detailed information on conditions procedures and treatments Offering basic information on biology husbandry clinical medicine and surgery as well as unique information on the use of ferrets in biomedical research Biology and Diseases of the Ferret is an essential resource for investigators using ferrets in the laboratory and for companion animal and comparative medicine veterinarians The Third Edition adds ten completely new chapters covering regulatory considerations black footed ferret recovery diseases of the cardiovascular system viral respiratory disease research morbillivirus research genetic engineering hearing and auditory function vision and neuroplasticity research nausea and vomiting research and lung carcinogenesis research Additionally the anesthesia surgery and biotechnology chapter has been subdivided into three and thoroughly expanded The book also highlights the ferret genome project along with the emerging technology of genetically engineered ferrets which is of particular importance to the future of the ferret as an animal model in research and will allow the investigation of diseases and their genetic basis in a small easily maintained non rodent species
