Ratification Of The Single European Act:

The Politics of Ratification of EU Treaties Carlos Closa, 2013-09-02 Since its inception the European Union EU has revised its foundational treaties several times resulting in national ratification processes involving different actors with varying success This book focuses on the politics of ratification of EU Treaties and reviews the processes of ratification of EU primary legislation Existing research and academic debate on EU constitutional politics have almost exclusively focussed on negotiation of new treaties and their institutional setting However this book explains how the result of ratification was achieved and analyses the strategy that actors pursue across Europe Ratification of the Treaty of Maastricht and the EU Constitution failed totally whilst other ratification can be considered partial failures such as the Irish Nice and Lisbon referendums As the EU Constitution has proved the ratification process may have deep effects unforeseen during the processes of negotiation In recent years ratification has produced some of the most intense debates on national membership of the EU and the EU itself The Politics of Ratification of EU Treaties will be of interest to students and researchers of European Studies European Union studies European Union Law and European Union Politics Ratification of the Single European Act Commission of the European Communities, European Communities Staff, 1993-05

The Transformation of EU Treaty Making Dermot Hodson, Imelda Maher, 2018-08-09 Investigates the struggle between governments parliaments the people and courts over who participates in EU treaty making *The Europeanization of Domestic Legislatures* Sylvain Brouard, Olivier Costa, Thomas König, 2011-12-09 In ten years 80 per cent of the legislation related to economics maybe also to taxes and social affairs will be of Community origin This declaration has been largely quoted paraphrased and deformed by different authors creating a persistent myth according to which 80% of the legislative activity of the national legislatures would soon be reduced to the simple transposition of European norms This book addresses the topic of the scope and impact of Europeanization on national legislation as a part of the Europeanization debate which raises normative concerns linked to the democratic deficit debate The state of the art shows that there are many assumptions and claims on how European integration may affect national legislation and more generally domestic governance but that there is a lack of solid and comparative data to test them The aim of the book is to give a solid and comparative insight into Europeanization focusing on effective outcomes in a systematic way This book analyzes the period 1986 2008 and includes an introduction a global overview of European legislative activities which set the background for Europeanization of national legislatures 9 country contributions 8 EU member states Switzerland including systematic comparative and standardized data tables and figures and a conclusion with a comparative analysis of the European and domestic reasons for Europeanization All national contributions conclude that Europeanization of national legislation is much more limited than assumed in the literature and public debate It is limited to 10 to 30% of laws depending on the country far less than the 80% predicted by Jacques Delors and mentioned daily by medias and public opinion leaders to demonstrate EU domination on member states Beside that

general statement the various chapters propose a deep insight on EU constraint over national legislation providing much information on the kind of laws and policies that are Europeanized the evolution of this process through time the impact of Europeanization on the balance of powers and the relations between majority and opposition at national level the strategies developed by national institutions in that context and many other issues making the book of interest to academics and policy makers concerned with Europeanization and national legislation Constitutional Law of Ireland Michael Forde, David Leonard, 2013-01-01 Since the previous edition of this book changes have taken place with Ireland's Articles of the Constitution including challenges to the Articles referenda new legislation and judicially considered cases This third edition is almost completely re-written as a result of the tumultuous changes in Irish constitutional law Author Michael Ford an accomplished constitutional law author and practitioner offers the reader everything needed to know on this complex subject

Ireland, Colonialism, and the Unfinished Revolution Robbie McVeigh, Bill Rolston, 2023-11-14 A groundbreaking examination of the colonial legacy and future of Ireland showing how Ireland's story is linked to and informs anti-imperialism around the world Colonialism is at the heart of making sense of Irish history and contemporary politics across the island of Ireland And as Robbie McVeigh and Bill Rolston argue Ireland's experience is central to understanding the history of colonization and anti-colonial politics throughout the world Part history part analysis Ireland Colonialism and the Unfinished Revolution charts the centuries of Irish colonial history from England's proto-imperial engagement with Ireland in 1155 to the Union in 1801 and the subsequent struggles for Irish independence and the legacies of partition from 1921 A century later the plate tectonics of Irishness are shifting once again The Union is in crisis and alternatives to partition are being seriously considered outside the Republican tradition for the first time in generations These significant structural changes suggest that the coming times might finally see the completion of the decolonization project the finishing of the revolution In the words of the revolutionary Pádraig Pearse Anois ar theacht an tSamhraidh now the summer is coming **EU Treaties and the Judicial Politics of National Courts** Pablo José Castillo Ortiz, 2015-08-11 Cases such as the Maastricht ruling by the German Federal Constitutional Court or the Crotty decision by the Irish Supreme Court have gone down in the history of European integration as outstanding examples of intervention by judicial actors in important political processes In this book Dr Castillo Ortiz makes for the first time a comprehensive analysis of all such rulings by national higher courts on European Union treaties issued during their processes of ratification Using an interdisciplinary Law and Politics approach and a sophisticated methodological strategy the book describes the political dynamics underlying some of the most relevant judicial episodes in the process of European Integration during the last decades litigation strategies by Europhile and Eurosceptic actors relations between the judiciary and the other branches of government and clashes of power between national courts and the European Court of Justice of the European Union By offering empirical evidence and by relying on scientific rigor the book seeks to provide both experts and the general public an accessible account of one of the most salient but least studied

aspects of current European law and politics *European Integration as an Elite Process* Max Haller, 2008-05-05 Max Haller's impressive book presents an analysis of the process of European integration which keeps the relation between elites and citizens at the forefront. A timely and original read, this book will be a useful addition to the library of any political sociologist, political scientist, or scholar of European integration.

EU Encyclopedia & Directory 2025 Europa Publications, 2024-12-04 Thoroughly updated, this extensive reference source provides in-depth information on all matters relating to the European Union. EU energy policy in the context of the Russian Federation's invasion of Ukraine is covered in depth, as is the impact of the COVID-19 crisis on EU policy. EU citizenship after Brexit is discussed together with EU migration policy and the EU's social framework. EU-Africa relations are reviewed, and current issues in overall foreign policy and security are addressed. Key Features: an up-to-date chronology of the EU from 1947 to present; an A-Z section contains definitions and explanations of organizations, acronyms, and terms; and articles on each member state. Comprising some 1,000 entries, terms listed include Brexit, the European Institute for Gender Equality, Next Generation EU, REPowerEU, and Team Europe. Articles written by experts on the EU provide an overview of its policies and activities; a directory of principal names, addresses, telephone numbers, and e-mail and internet addresses of all major European Union institutions and their official bodies. This information is supplemented by summaries of important treaties and details of EU-level trade and professional associations. Users will also find details of MEPs and the political groups and national parties contributing to the European Parliament; a statistical survey gives tables covering population, employment, agriculture, energy, and mining; industry, the environment, finance, trade, transport, and communications; tourism, health, and welfare; and education across the EU. This title will prove valuable to academic and public libraries, politicians, and government agencies and the media, as well as to all those in need of accurate and reliable information on the European Union.

Authoritarian Liberalism and the Transformation of Modern Europe Michael A. Wilkinson, 2021 Oxford Constitutional Theory has rapidly established itself as the primary point of reference for theoretical reflections on the growing interest in constitutions and constitutional law in domestic, regional, and global contexts. The majority of the works published in the series are monographs that advance new understandings of their subject. But the series aims to provide a forum for further innovation in the field by also including well-conceived edited collections that bring a variety of perspectives and disciplinary approaches to bear on specific themes in constitutional thought and by publishing English translations of leading monographs in constitutional theory that have originally been written in languages other than English.
