W. Kim,2012-11-02 This volume presents evidence of the extent and effects of intercultural contacts across Europe and the
Mediterranean rim opening up a new understanding of early medieval civilisation and its continuing influence in both
Western and Eastern cultures today From the perspectives of textual transmission cultural memory religion art and cultural
traditions this work explores the central question of how ideas travelled in the medieval world challenging the conventional
notion of insular communities in the Middle Ages Despite the schism between East and West that took hold after the
thirteenth century this volume reveals a rich and extensive cultural exchange and demonstrates that transmission of ideas
and culture across borders began much earlier than the Crusades It contributes to new perspectives on medieval cities
Christian Europe s history with the Byzantine and Islamic Mediterranean the landscape of power and the power plays of the
medieval Church and the way in which cross cultural transmission affected all of these areas **Publisher and Bookseller**
