Samuel Palmer and the Ancients, 1984 *Victorian Landscape*

Watercolors Scott Wilcox, Christopher Newall, 1992 English landscape watercolor painting a perfect marriage of genre and medium entered a lively period of experimentation in style and content during the second half of the nineteenth century with rich and diverse results Through all the changes of style and technique and all the debates over the appropriate use of the medium it was watercolor's ability to convey the timeless truth and reality of the natural world that mattered to artists critics and audiences British watercolors of the Victorian period continued to observe an essential humility before nature they remain fresh and compellingly immediate because they derived in the first place from the artists heartfelt communion with the elements of nature *Victorian Landscape Watercolors* begins with a consideration of the continuing influence of the great generation who earlier in the century during the extraordinary parallel rise of watercolor and landscape painting had established the landscape watercolor as a major British contribution to the arts The second chapter examines the role of the landscape watercolor in the aesthetic thought of John Ruskin whose critical voice played a dominant role in shaping that art

The third chapter looks at the place of landscape within the watercolor societies and its development as it appeared in their annual exhibitions The final chapter deals with the tug of new and old foreign and native in the later Victorian period The book also features 126 watercolors from public and private collections in America and England all reproduced in full color and accompanied by individual commentaries Among the 76 artists represented are David Cox Sr and Jr Walter Crane William Holman Hunt Edward Lear Samuel Palmer James Mallord William Turner James McNeill Whistler and Ruskin himself along with dozens of lesser known masters of the medium Victorian Landscape Watercolors is published in conjunction with the first exhibition to survey this period of this particularly British contribution to the arts the exhibition organized by the Yale Center for British Art in New Haven Connecticut will also be seen at the Cleveland Museum of Art and in Birmingham England

Samuel Palmer Revisited Simon Shaw-Miller, 2017-07-05 Varied and deliberately diverse this group of essays provides a reassessment of the life and work of the popular nineteenth century artist Samuel Palmer While scholarly publications have been published recently which reassess Palmer's achievement those works primarily consider the artist in isolation This volume examines his work in relation to a wider art world and analyses areas of his life and output that have until now received little attention reinstating the study of Palmer's work within broader debates about landscape and cultural history In Samuel Palmer Revisited the contributors provide a fresh perspective on Palmer's work its context and its influence

Dark Figures in the Desired Country Gerda S. Norvig, 2023-12-22 Toward the end of his life William Blake produced a beautiful sequence of 28 watercolor drawings to illustrate Bunyan's Pilgrim's Progress These rarely seen drawings show him at the peak of his powers radically reinterpreting one of the central texts of English literature Gerda Norvig's book with its stunning color reproductions offers the first detailed study of these important works of art Norvig sets the watercolors in the context of Blake's lifelong engagement with Bunyan's myth and in relation to the Puritan writer's own artistic and critical methods She shows how deeply Blake's love hate relationship with Bunyan influenced not only these particular drawings but also Blake's revolutionary theories of art and poetics With judicious use of psychoanalytical and post structuralist critical theory she demonstrates that Blake's pictorial interpretation of The Pilgrim's

Progress tells a contemporary self reflexive tale about interpretation Blake implicates author narrator and reader in a dream protagonist s never ending search for a proper stance on the relations of self and other Toward the end of his life William Blake produced a beautiful sequence of 28 watercolor drawings to illustrate Bunyan s Pilgrim s Progress These rarely seen drawings show him at the peak of his powers radically reinterpreting one of the central texts of the English literary canon

Transforming Christian Thought in the Visual Arts Sheona Beaumont,Madeleine Emerald Thiele,2021-07-06 This volume explores how the visual arts are presenting and responding to Christian theology and demonstrates how modern and contemporary artists and artworks have actively engaged in conversation with Christianity Modern intellectual enquiry has often been reluctant to engage theology as an enriching or useful form of visual analysis but critics are increasingly revisiting religious narratives and Christian thought in pursuit of understanding our present day visual culture In this book an international group of contributors demonstrate how theology is often implicit within artworks and how regardless of a viewer s personal faith it can become implicit in a viewer s visual encounter Their observations include deliberate juxtaposition of Christian symbols imaginative play with theologies the validation of non confessional or secular public engagement and inversions of biblical

interpretation Case studies such as an interactive Easter glow sticks as sacrament and visualisation of the Bible's polyphonic voices enrich this discussion Together they call for a greater interpretative generosity and more nuance around theology's cultural contexts in the modern era By engaging with theology culture and the visual art this collection offers a fresh lens through which to see the interaction of religion and art As such it will be of great use to those working in Religion and the Arts Visual Art Material Religion Theology Aesthetics and Cultural Studies
