Corrections: A Critical Approach 3rd edition
confronts mass imprisonment in the United States, a nation boasting the highest incarceration rate in the world. This statistic is all the more troubling considering that its correctional population is overrepresented by the poor African Americans and Latinos. Not only throwing crucial light on matters involving race and social class, this book also identifies and examines the key social forces shaping penal practice in the US: politics, economics, morality, and technology. By attending closely to historical and theoretical development, the narrative takes into account both instrumental, goal-oriented and expressive cultural explanations to sharpen our understanding of punishment and the growing reliance on incarceration. Covering five main areas of inquiry: penal context, penal populations, penal violence, penal process, and penal state, this book is essential reading for both undergraduate and graduate students interested in undertaking a critical analysis of penology.
