**Sanctuary** Ann Crittenden, 1988 A noted journalist offers an in depth account of the people of Arizona and then the nation who challenged law and risked arrest to protect those fleeing the chaos and violence of Central America in order to answer what they deemed a higher law of conscience *Latino Religions and Civic Activism in the United States* Gaston Espinosa, Virgilio Elizondo, Jesse Miranda, 2005-08-11 The Latino community in the United States is commonly stereotyped as Roman Catholic and politically passive *Latino Religions and Civic Activism in the United States* challenges and revises these stereotypes by demonstrating the critical influence of Latino Catholics Evangelicals Pentecostals Mainline Protestants and others on political civic and social engagement in the United States and Puerto Rico It also revises the ostensibly secular narrative of Latino history and politics The authors analyze the critical role that institutional popular and civil religion have played in Latino activism This timely book offers readers a new framework by which to understand and to interpret the central importance of religious symbols rhetoric ideology world views and leaders to Latino religions and politics over the past 150 years Religious Ethics and Migration Ilse Ahn, 2013-11-12 What does it mean to provide justice for undocumented workers who have been living among us without proper legal documentation How can we do justice to the undocumented migrants who have been doing the low skilled low paid jobs unwanted by citizens Why should we even try to do justice for people who violate the laws of the society *Religious Ethics and Migration Doing Justice to Undocumented Workers* addresses these questions from a distinctive religious ethical perspective the Christian theology of forgiveness and radical hospitality In answering these questions the author employs in depth interdisciplinary dialogues with other relevant disciplines such as immigration history global economics political science legal philosophy and social theory He argues that the political appropriation of a Christian theology of forgiveness and the radical hospitality modeled after it are the most practical and justifiable solutions to the current immigration crisis in North America Critical and interdisciplinary in its approach this book offers a unique comprehensive and balanced perspective regarding the urgent immigration crisis

**Católicos** Mario T. García, 2010-01-01 Chicano Catholicism both as a popular religion and a foundation for community organizing has over the past century inspired Chicano resistance to external forces of oppression and discrimination including from other non Mexican Catholics and even the institutionalized church Chicano Catholics have also used their faith to assert their particular identity and establish a kind of cultural citizenship Based exclusively on original research and sources Mario T. García here offers the first major historical study to explore the various dimensions of the role of Catholicism in Chicano history in the twentieth century This is also one of the first significant studies in the still limited field of Chicano religious history Topics range from how early Chicano Catholic intellectuals and civil rights leaders were influenced by Catholic Social Doctrine to the role that popular religion has played in the lives of ordinary men and women in both rural and urban areas García also examines faith based Chicano community movements like *Católicos Por La Raza* in the 1960s and the

Sanctuary movement in Los Angeles in the 1980s While Latino a history and culture has been for the most part inextricably linked with the tenets and practices of Catholicism there has been very little written until recently about Chicano Catholic history Garc a helps to fill that void and explore the impact both positive and negative that the Catholic experience has had on the Chicano community *Hidden Lives and Human Rights in the United States* Lois Ann Lorentzen,2014-07-23 The most comprehensive collection of essays on undocumented immigration to date covering issues not generally found anywhere else on the subject Three fascinating volumes feature the latest research from the country s top immigration scholars In the United States the crisis of undocumented immigrants draws strong opinions from both sides of the debate For those who immigrate concerns over safety incorporation and fair treatment arise upon arrival For others the perceived economic political and cultural impact of newcomers can feel threatening In this informative three volume set top immigration scholars explain perspectives from every angle examining facts and seeking solutions to counter the controversies often brought on by the current state of undocumented immigrant affairs Immigration expert and set editor Lois Lorentzen leads a stellar team of contributors laying out history theories and legislation in the first book human rights sexuality and health in the second and economics politics and morality in the final volume From family separation to human trafficking to notions of citizenship this provocative study captures the human costs associated with this type of immigration in the United States questions policies intended to protect the American way of life and offers strategies for easing tensions between immigrants and natural born citizens in everyday life **The Heart of the Mission** Cary Cordova,2017-06-22 The Heart of the Mission is the first in depth examination of the Latino arts renaissance in San Francisco s Mission District in the latter twentieth century Using evocative oral histories and archival research Cordova highlights the rise of a vibrant intellectual community grounded in avant garde aesthetics and radical politics **God and the Illegal Alien** Robert W. Heimbürger,2018 A fresh response to the problem of illegal immigration in the United States through the context of Christian theology *War Echoes* Ariana E. Vigil,2014-07-10 War Echoes examines how Latina o cultural production has engaged with U S militarism in the post Viet Nam era Analyzing literature alongside film memoir and activism Ariana E Vigil highlights the productive interplay among social political and cultural movements while exploring Latina o responses to U S intervention in Central America and the Middle East These responses evolved over the course of the late twentieth and early twenty first centuries from support for anti imperial war as seen in Alejandro Murguía s Southern Front to the disavowal of all war articulated in works such as Demetria Martinez s Mother Tongue and Camilo Mejía s Road from Ar Ramadi With a focus on how issues of race class gender and sexuality intersect and are impacted by war and militarization War Echoes illustrates how this country s bellicose foreign policies have played an integral part in shaping U S Latina o culture and identity and given rise to the creation of works that recognize how militarized violence and values such as patriarchy hierarchy and obedience are both enacted in domestic spheres and propagated abroad **Seeking Community in a Global City** Nora Hamilton,Norma Stoltz

Chinchilla, 2001 Driven by the pressures of poverty and civil strife at home large numbers of Central Americans came to the Los Angeles area during the 1980s This title examines the forces in Central America that sent thousands of people streaming across international borders It discusses economic political and demographic changes in the Los Angeles region **Migrant Protection and the City in the Americas** Laurent Faret, Hilary Sanders, 2021-07-30 This book aims to establish a dialogue around the various urban sanctuary policies and other formal or informal practices of hospitality toward migrants that have emerged or been strengthened in cities in the Americas in the last decade The authors articulate local governance initiatives in migrant protection with a larger range of social and political actors and places them within a broader context of migrations in the Western Hemisphere including case studies of Toronto New York Austin Mexico City and Lima among others The book analyzes in particular the limits of local efforts to protect migrants and to identify the latitude of action at the disposal of local actors It examines the efforts of municipal governments and also considers the role taken by cities from a larger perspective including the actions of immigrant rights associations churches NGOs and other actors in protecting vulnerable migrants Sanctuary Practices in International Perspectives Randy K. Lippert, Sean Rehaag, 2013 Sanctuary Practices in International Perspectives examines the diverse complex and mutating practice of providing sanctuary to asylum seekers The ancient tradition of church sanctuary underwent a revival in the late 1970s Immigrants living without legal status and their supporters first in the United Kingdom and then in the US Canada and elsewhere in Europe have resorted to sanctuary practices to avoid and resist arrest and deportation by state authorities Sanctuary appeared amidst a dramatic rise in asylum seekers arriving in Western countries and a simultaneous escalation in national and international efforts to discourage and control their arrival and presence through myriad means including deportation This collection of papers by prominent US European Canadian and Japanese scholars is the first to place contemporary sanctuary practices in international theoretical and historical perspective Moving beyond isolated case studies of sanctuary activities and movements it reveals sanctuary as a far more complex varied theoretically rich and institutionally adaptable set of practices Break-ins, Death Threats and the FBI Ross Gelbspan, 1991 The core of this book written by a Pulitzer Prize winning investigative journalist documents the wide ranging FBI assault on CISPEs **Dividing the Isthmus** Ana Patricia Rodríguez, 2009-05-01 In 1899 the United Fruit Company UFCO was officially incorporated in Boston Massachusetts beginning an era of economic diplomatic and military interventions in Central America This event marked the inception of the struggle for economic political and cultural autonomy in Central America as well as an era of homegrown inequities injustices and impunities to which Central Americans have responded in creative and critical ways This juncture also set the conditions for the creation of the Transisthmus a material cultural and symbolic site of vast intersections of people products and narratives Taking 1899 as her point of departure Ana Patricia Rodríguez offers a comprehensive comparative and meticulously researched book covering more than one hundred years between 1899 and 2007 of modern cultural and literary production and modern empire building in

Central America She examines the grand narratives of anti imperialism revolution subalternity globalization impunity transnational migration and diaspora as well as other discursive historical and material configurations of the region beyond its geophysical and political confines Focusing in particular on how the material productions and symbolic tropes of cacao coffee indigo bananas canals waste and transmigrant labor have shaped the transisthmian cultural and literary imaginaries Rodr guez develops new methodological approaches for studying cultural production in Central America and its diasporas Monumental in scope and relentlessly impassioned this work offers new critical readings of Central American narratives and contributes to the growing field of Central American studies

**Religion and the New Immigrants** Helen Rose Fuchs Ebaugh,2000 New immigrants\_those arriving since the Immigration Reform Act of 1965\_have forever altered American culture and have been profoundly altered in turn Although the religious congregations they form are often a nexus of their negotiation between the old and new they have received little scholarly attention Religion and the New Immigrants fills this gap Growing out of the carefully designed Religion Ethnicity and the New Immigration Research project Religion and the New Immigrants combines in depth studies of thirteen congregations in the Houston area with seven thematic essays looking across their diversity The congregations range from Vietnamese Buddhist to Greek Orthodox a Zoroastrian center to a multi ethnic Assembly of God presenting an astonishing array of ethnicity and religious practice Common research questions and the common location of the congregations give the volume a unique comparative focus Religion and the New Immigrants is an essential reference for scholars of immigration ethnicity and American religion
