Second Linguistic Turn Chomsky The Phi:

The Linguistic Turn Richard Rorty, 1992-03 The Linguistic Turn provides a rich and representative introduction to the entire historical and doctrinal range of the linguistic philosophy movement In two retrospective essays titled Ten Years After and Twenty Five Years After Rorty shows how his book was shaped by the time in which it was written and traces the directions philosophical study has taken since All too rarely an anthology is put together that reflects imagination command and comprehensiveness Rorty's collection is just such a book Review of Metaphysics

The Second Linguistic Turn

Amitabha Das Gupta, 1993 *Journal of Indian Council of Philosophical Research*, 2001 *Phi-features and the Modular Architecture of Language* Milan Rezac, 2010-11-12 This monograph investigates the modular architecture of language through the nature of uninterpretable phi features person number gender and Case It provides new tools and evidence for the modular architecture of the human language faculty a foundational topic of linguistic research At the same time it develops a new theory for one of the core issues posed by the Minimalist Program the relationship of syntax to its interfaces and the nature of uninterpretable features The work sets out to establish a new cross linguistic phenomenon to study the foregoing person governed last resort repairs which provides new insights into the nature of ergative accusative Case and of Case licensing itself This is the first monograph that explicitly addresses the syntactic vs morphological status of uninterpretable phi features and their relationship to interface systems in a similar way drawing on person based interactions among arguments as key data base

The Morphosyntax of Imperatives Daniela Isac, 2015 This book studies the properties of imperative clauses in the context of a theory of Universal Grammar Daniela Isac argues that the specificity of imperative clauses cannot be the result of a unique imperative Force feature instead the type of imperative clauses can be traced back to a plurality of finer grained features such as Modality and phi features hosted by the Mod Infl and Speech Event heads among others The data are drawn from a wide range of languages including various Romance Slavic and Germanic languages as well as Finnish and Inuktitut The analysis accounts for recurrent patterns in the interaction of imperative mood with phenomena like negation restrictions on grammatical subjects and the possibility of embedding imperative clauses The approach which focuses exclusively on morphosyntactic rather than semantic features is potentially transferable to the analysis of other clause types such as exclamatives interrogatives and declaratives

The Linguistic Review, 1990 **Paul Muldoon and the Language of Poetry** Ruben Moi, 2020-01-13 Paul Muldoon and the Language of Poetry is the first book in years that attends to the entire oeuvre of the Irish American poet critic lyricist dramatist and Princeton professor from his debut with *New Weather* in 1973 up to his very recent publications Ruben Moi's book explores in correspondence with language philosophy and critical debate how Muldoon's ingenious language and inventive form give shape and significance to his poetry and how his linguistic panache and technical verve keep language forever surprising new and alive

Taking the Naturalistic Turn, Or How Real Philosophy of Science Is Done William Bechtel, 1993-12

This innovative book presents candid informal debates among scholars who examine the benefits and problems of studying science in the same way that scientists study the natural world *The Practice of Language* M. Gustafsson, L.

Hertzberg, 2013-04-17 How is linguistic theory related to linguistic practice What do theoretical notions and models tell us about real life language use Are there any limits to what such notions and models can reasonably be taken to accomplish These questions are fundamental to any serious investigation into the phenomena of human communication The essays in this book show that philosophers and linguists of quite different brands have tended to give undue priority to their own favourite theoretical framework and have presupposed that the descriptive scheme invoked by that framework constitutes a pattern to which any linguistic practice somehow has to conform What unites the contributors to this volume is a critical attitude towards such essentialist aspirations By investigating several concrete examples of this tendency examples collected from such seemingly disparate areas as structuralism contemporary analytic philosophy and feminist epistemology the authors collectively manage to cast doubt on the very attempt to fit the whole of linguistic practice into a general theoretical mould

Ultimate Attainment in Second Language Acquisition Donna Lardiere, 2017-09-25 The first book length treatment of its type Ultimate Attainment in Second Language Acquisition is a case study with a solid theoretical grounding that examines the language of an immigrant learner of English and thereby presents a much needed understanding of the linguistic competence of second language speakers Based on longitudinal data collected over a period of 16 years this clear and accessible presentation is well grounded in linguistic theory and in second language acquisition research issues Author Donna Lardiere presents the narrative of Patty an adult Chinese immigrant learner of English who achieves native like proficiency in some areas of her English idiolect although reaches a plateau in her language acquisition known as the concept of fossilization By addressing this concept a central idea in second language acquisition research Lardiere fills a void in existing literature Individual chapters focus on Patty's end state knowledge of grammatical areas of finiteness past tense marking word order wh movement and relativization passivization number marking and use of determiners Important topics discussed throughout the book include learner variability in production case study methodology the roles of motivation and prior language L1 knowledge and sensitivity to input in circumscribing ultimate attainment in adult second language acquisition Ultimate Attainment in Second Language Acquisition is intended for anyone whose research is in the areas of second language acquisition language acquisition theoretical applied or developmental linguistics It is also appropriate for graduate level students of TESOL and teachers who work with more advanced learners of foreign languages
