these religions arose not because of the substantive shared elements within the two traditions but because their promoters in the West employed similar strategies to respond to the interests of a modern Western audience The first book to make a close comparison of Sufism and Zen this study is an important contribution to understanding Western religious life and processes of easternisation It sheds new light on how Sufism and Zen came to represent a spirituality that is both countercultural and in touch with modern sensitivities

International Meditation Bibliography, 1950-1982 Howard R. Jarrell, 1985 See Reviews The New Metaphysicals Courtney Bender, 2010-07-15 American spirituality with its focus on individual meaning experience and exploration is usually thought to be a product of the postmodern era But as The New Metaphysicals makes clear contemporary American spirituality has historic roots in the nineteenth century and a great deal in common with traditional religious movements To explore this world Courtney Bender combines research into the history of the movement with fieldwork in Cambridge Massachusetts a key site of alternative religious inquiry from Emerson and William James to today Through her ethnographic analysis Bender discovers that a focus on the new on progress and on the way spiritual beliefs intersect with science obscures the historical roots of spirituality from its practitioners and those who study it alike and shape an enduring set of modern religious possibilities in the process **Folklore, Religion and the Songs of a Bengali Madman** Carola Lorea, 2016-08-01 This book explores historical and cultural aspects of modern and contemporary Bengal through the performance centred study of a particular repertoire the songs of the saint composer Bhaba Pagla 1902 1984 who is particularly revered among Baul and Fakir singers The author shows how songs if examined as sacred scriptures represent multi dimensional texts for the study of South Asian religions Revealing how previous studies about Bauls mirror the history of folkloristics in Bengal this book presents sacred songs as a precious symbolic capital for a marginalized community of dislocated and unorthodox Hindus who consider the practice of singing in itself an integral part of the path towards self realization **Catalog of Copyright Entries.
