Secret Self Psychoanalytic Experiences I:

The Secret Self Theodor Reik, 1952 *Repressed Spaces* Paul Carter, 2004-11-02 In *Repressed Spaces* Paul Carter tours the cultural history of agoraphobia the fear of open space Its symptoms were first described in *The Anatomy of Melancholy* 1621 by Robert Burton the British scholar and writer although it wasn't until 1871 that Carl Otto Westphal coined the term to describe several of his patients who experienced severe anxiety when walking through streets or squares There have been many attempts to explain and treat the condition critics of modernization have linked it to bad city planning psychoanalysts calling it street panic have blamed it on the Oedipus complex psychiatrists have tied it to existential insecurity and describe it as the fear of places or situations that have triggered panic attacks Freud believed that agoraphobia like all phobias was part of an anxiety neurosis and had a sexual origin Taking as his starting point the fact that Freud himself was agoraphobic and analyzing the way people have negotiated open spaces from Greek and Roman times to the present day Paul Carter finds that space fear ultimately results from the inhibition of movement Along the way the author asks why Freud repressed his agoraphobia and examines literature the work of architects and theorists including Le Corbusier Walter Benjamin and R D Laing artists such as Munch Lapique and Giacometti and the German street films of the 1920s He concludes by proposing a new way of regarding open space a new poetics of agoraphobia one that is sensitive to the agoraphobe's point of view and provides lessons for architects and urban planners today *Sigmund Freud and Oskar Pfister on Religion* Carlos Domínguez-Morano, 2023-07-24 *Sigmund Freud and Oskar Pfister on Religion* examines the dialogue between psychoanalysis and religion through the encounters of two men the unfaithful Jew who founded psychoanalysis and a pastor of profound religious faith and proven psychoanalytic conviction Carlos Domínguez Morano analyses the original encounters between Freud and Pfister and their respective positions noting the incidences impasses and progress of their discussions The complex interactions between psychoanalysis and religion over time are considered and Domínguez Morano assesses the fundamental parameters of each perspective with reference to Catholicism The book explores the relationship between psychoanalysis and religion as a rich ongoing and unending dialogue and sheds new light on the origins of psychoanalysis *Sigmund Freud and Oskar Pfister on Religion* will be of great interest to academics and scholars of psychoanalytic studies religion the history of psychology and the history of ideas *Intellect Encounters Faith - A Synthesis* J. Harold Ellens, John Tracy Greene, 2014-10-21 *Intellect Encounters Faith A Synthesis* is a Festschrift crafted to honor a renaissance man a literary tribute to Dr Jay Harold Ellens that has been long overdue While attending the 2014 International Meeting of the Society of Biblical Literature at the University of Vienna July 6-10 Professor Ellens celebrated his eighty second birthday He is still a most engaged and active scholar practicing clinical psychologist and military chaplain with the rank of Colonel He publishes widely in Second Temple Judaism and works that are on the cusp between religious studies history of religions and psychology as well as spirituality He is a marvel to behold and is an excellent indefatigable Vorbild for both professional

colleagues as well as an ever growing number of aspiring scholars he mentors He is the model of the modern peripatetic scholar The Festschrift acknowledges the major foci of Professor Doctor Ellens own work Psychology Religious Literature and Military History Moreover there are included in this volume several personal reflections by some of his friends and colleagues also The essays chapters contained herein are works of deep and broad scholarship Yet they are deeply personal tributes to a master pedagogue who has touched many lives in many walks of life All however reflect Professor Ellens influence on the contributors as if one is looking at them through their writings and seeing him The reader will find this a most informative volume and will return to it often as an up to date reference work on trends in religious studies psychology psychology of religion s and even the archaeology of the Second Jewish Temple period One will discover between these covers a rare and valuable reference work that honors a rare prolific and generous man TSWNTIETH CENTURY AUTHORS STANLEY J. KUNITZ,1955 *The Meaning of Irony* Frank Stringfellow,1994-01-01 Genuinely interdisciplinary in approach The Meaning of Irony brings together literary analysis and from psychoanalysis both theory and case studies Its investigation ranges from everyday examples of verbal irony conscious and unconscious to the complex irony of literature This book provides the first full account of verbal irony from a psychoanalytic point of view Stringfellow shows how the rhetorical tradition by viewing the literal level of irony as something the speaker doesn t really mean flattens out the rich ambiguities of irony and misses the unconscious meanings that are hidden behind ironic statement He argues that only psychoanalysis can recover these unconscious meanings and reveal the origins of irony **Harmless Lovers?** Mike Gane,2013-09-13 Gane is leading British expert on Baudrillard see below Baudrillard Critical and Fatal Theory was voted one of the top 20 books of the year by US academic journal Choice Trade potential in biography Mystical Moments and Unitive Thinking Dan Merkur,1999-02-11 Merkur proposes an alternative to the traditional psychoanalytic explanation of mystical experiences as regression to the solipsism of earliest infancy He does this by viewing unitive thinking as a line of cognitive development and mystical moments as creative inspirations on unitive topics Utilizing classical self reports by Christian Jewish and Muslim mystics Patanjali s Yoga Sutras and modern Western peak experiences Merkur argues that experiences of mystical union are manifestations of a broader category of psychological processes that manifest in scientific and moral thought as well as in mysticism Unconscious as well as conscious unitive thinking is sometimes realistic and sometimes fantastic in patterns that are consistent with cognitive development in general Mystical moments of unitive thinking may be considered moments of creative inspiration that happen to make use of unitive ideas Building on the psychoanalytic object relations theory that the self is always in relationship with an object Merkur argues that the solipsism of some varieties of mystical union always implies unconscious ideas of a love object who is transcendent **Secrecy and Silence in the Research Process** Roisin Ryan-Flood,Rosalind Gill,2013-05-13 Feminist research is informed by a history of breaking silences of demanding that women s voices be heard recorded and included in wider intellectual genealogies and

histories This has led to an emphasis on voice and speaking out in the research endeavour Moments of secrecy and silence are less often addressed This gives rise to a number of questions What are the silences secrets omissions and and political consequences of such moments What particular dilemmas and constraints do they represent or entail What are their implications for research praxis Are such moments always indicative of voicelessness or powerlessness Or may they also constitute a productive moment in the research encounter Contributors to this volume were invited to reflect on these questions The resulting chapters are a fascinating collection of insights into the research process making an important contribution to theoretical and empirical debates about epistemology subjectivity and identity in research Researchers often face difficult dilemmas about who to represent and how what to omit and what to include This book explores such questions in an important and timely collection of essays from international scholars

Byronism, Napoleonism, and Nineteenth-Century Realism Tristan Donal Burke, 2021-11-29 Byronism Napoleonism and Nineteenth Century Realism offers a fresh analysis of the nineteenth century European novel exploring the cultural images of Byron and Napoleon as they appear in the construction of bourgeois heroism Utilising a unique pan European perspective this volume draws together concepts of heroism with theoretically informed questions of form particularly the role of the hero protagonist and development of literary realism Observing Byron and Napoleon as parallel entities whose rise and twin fame cast long shadows in the first decades of the nineteenth century this text exemplifies the force of personality which made them heroes Even where they were reviled their commitment to challenging moribund cultural and social values make them touchstones for all those who attempted to understand the nineteenth century's modernity Integrating the study of heroism in the nineteenth century novel with key developments in critical theory Byronism Napoleonism and Nineteenth Century Realism is essential reading for students and scholars of the bourgeois hero as well as those with a wider interest in nineteenth century literature
