Secrets from a Stargazer's Notebook Debbi Kempton Smith, 1982 *Secrets from a Stargazer's Notebook* Debbi K. Smith, 1982 *How Astrology Works: A Professional Stargazer Speaks Out!* James Lynn Page, 2019-02-19 Can't put the book down Written incredibly well articulate readable often witty and very funny with scrupulous attention to detail Marvellous Melanie Reinhart author of *Chiron and the Healing Journey* THE SECRET TO HOW ASTROLOGY REALLY WORKS IS REVEALED Are you curious about how astrology works Here's what world renowned American astrologer Alan Oken said about this book In his highly comprehensive text on the mechanism of astrology James Lynn Page has done a wonderful job of synthesis In this respect he has brought together the opinions and perspectives of various ancient and modern philosophers scholarly skeptics and metaphysical scholars while adding his own keen and educated insights on the subject He thus presents a work that is both enjoyable to read and enlightening to the reader If you would like to spend some very worthwhile time obtaining an accurate picture of the accuracy of astrology James Lynn Page has afforded us with just this opportunity Professional astrologer author James Lynn Page who studied with the U K's Faculty of Astrological Studies challenges skeptics to make their case that astrology can't work Page not only understands why some people are so sceptical and often very rude about astrology but he explains its role in the larger scheme of things taking the mystery out of the ancient art of stargazing Until now skeptics have had all of their own way They make smart ass comments too that imply all people who use astrology must somehow be lacking in intelligence A well thought out response from a professional astrologer is overdue and here it is A piece of solid ammunition for the stargazer However *How Astrology Works* isn't just an answer to the skeptics James Lynn Page gives you an insider's grasp of how astrology really does work Until now no one has really taken on this challenge but here you will learn Why superskeptics like Richard Dawkins and Brian Cox are so keen to rubbish astrology How Wikipedia's own band of secret propagandists make sure that subjects like astrology are derided Why modern psychology has so much in common with the Four Elements in astrology What real statistical scientific evidence exists for astrology and why skeptics hate the fact What modern physicists have to say about the Universe and why their findings are compatible with astrology This book is the one modern astrology has been waiting for a chance to set the record straight Skeptics complain that astrology is fatalistic but planets on the birth chart are mere symbols a type of coded information about an individual's true potential They don't determine your Fate You don't have to believe in astrology to read this book but the author challenges skeptics of all different hues to find hard proof that it doesn't work Such proof will never materialise because of course it actually does work **Practical Astrology**, 1976 **Secrets of Astrology** Dr. L. R. Chawdhri, 2011-01-01 The future's not ours to see what will be will be says a popular song of yesteryear Not so for the astrologer who views the celestial bodies and studies their influences on human affairs in order to control the calamities of life As R W Emerson wrote Astrology is astronomy brought to earth and applied to the affairs of men Mastered long ago in
