

The background of the book cover is a photograph of a sunset or sunrise over a body of water. The sun is a bright, glowing orb on the horizon, casting a warm, golden light across the sky and water. The sky is filled with soft, wispy clouds in shades of blue, green, and yellow. The water in the foreground is dark and calm, reflecting the light from the sun. The overall mood is serene and mysterious.

Secrets Of Ancient And Sacred Places The Worlds Mysterious Heritage:

Secrets of Ancient and Sacred Places Paul Devereux, 1999-06-23 This unique book provides a new perspective on the past and reveals how sights we all know and which are universally recognised still retain and reveal to us the old knowledge of our world and our ancestors In our march of progress we have gained untold material wealth but certain vital aspects of being human conscious and part of nature seem to have slipped from our grasp Guidelines that might help our future way ironically lie in the past In short we need to discover the secrets of ancient and sacred places Paul Devereux takes a refreshing look at the often hidden ignored or often overlooked aspects of selected major sites world wide that significantly UNESCO the cultural agency of the United Nations has also included in its world heritage list of important natural or cultural sites
