a Who's Who of major critics a timeline of key publications and a glossary of essential critical terms to give students and teachers easy access to essential information **Shakespeare and the English Renaissance Sonnet** P. Innes, 1997-08-04 This book is an analysis of the sonnet in the English Renaissance It especially traces the relations between Shakespeare's sonnets and the ways in which other writers use the form It looks at how the poetry fits into the historical situation at the time with regard to images of the family and of women Its exploration of these issues is informed by much recent work in critical theory which it tries to make as accessible as possible Shakespeare's Sonnets Kenneth Muir, 2013-09-13 This edition first published in 1979 Discussing Shakespeare's sonnets in relation to sonnets by Italian French and English poets Kenneth Muir shows how they were influenced by Shakespeare's reading of Sidney Erasmus and Ovid and discusses their art in terms of construction sound patterns and imagery He considers the relationship of the sonnets to Shakespeare's dramatic writing while stressing the dramatic element in the sonnets themselves Finally he surveys the changing attitudes to the sonnets during the last three centuries **Literary Rhetoric** Heinrich F. Plett, 2010 The subject of this book is literary rhetoric which is treated both in a historical outline and a systematic concept implemented in analyses of literary texts of all ages and languages Alternative Shakespeares John Drakakis, 2003-12-16 This book is a unique collection of essays by founding figures in this movement to remake Shakespeare studies Each essay challenges the Shakespeare myth and the assumptions underlying traditional modes of criticism **Multimodal Stylistics of the Novel** Nina Nørgaard, 2018-10-08 This book advocates for a new analytical framework that extends our understanding of multimodal meaning making in the novel Integrating theoretical traditions from stylistics and the influential social semiotic approach to multimodal communication developed by Kress and van Leeuwen Nørgaard applies this method of analysis in order to build on existing stylistic practices that look at linguistic features in the novel to encompass other semiotic resources found in the form such as typography layout images paper and book cover design The volume grounds the discussion with supporting examples from novels that feature experimentation with multiple semiotic resources as well as more traditional novels furthering the argument that all novels are inherently multimodal Offering new insights and tools for unpacking multimodal meaning making in this critical literary genre this volume is an indispensable resource for graduate students and researchers in multimodality stylistics and literary studies *Language, Poetry and Poetics* Krystyna Pomorska, Elzbieta Chodakowska, Hugh McLean, Brent Vine, 2015-04-28 No detailed description available for Language Poetry and Poetics **Poetic Will** David Willbern, 2016-11-11 The essence of Shakespeare observes David Willbern is in the details What matters most in our appreciation of Hamlet is not the staged play but the play of language we find in the words of the Bard This book explores the expressions of Shakespeare's poetic will his sexual desire conscious and unconscious volition and posthumous legacy within the linguistic matrix that enfolds his characters and readers Using a combination of psychoanalytic approaches Willbern rescues Shakespeare from the limitations and distortions of dramatic performance by showing that his

language scenes and characters are propelled by the genius of this will and need to be understood primarily as written narrative In these provocative essays Willbern examines the deep analogy between poetic creativity and sexual procreation as he explores the parallels between Shakespearean and Freudian representations of fantasy thus offering readers a heightened awareness of the sexual and bodily substrate of Shakespeare's language Engaging current debates between psychological and social approaches he develops new strategies of reading in a search for the limits of Shakespeare's language and our responses to it He then applies these strategies to all of Shakespeare's genres via detailed analysis of a comedy Twelfth Night a history Henry IV Part One a tragedy MacBeth and a poem Lucrece Additional essays provide an overview of Shakespeare both as a creative agent and as a body of work Questions of identity authenticity and representation especially as posed in Hamlet are a recurrent concern throughout the book Poetic Will frees the play of language in Shakespeare from its illusory anchors in characters and resituates the experience of reading his work within individual response and reconstruction Offering practical criticism with a bold American slant it emphasizes the rich potential of Shakespeare's poetic language while exploring the interpretive and rhetorical limits of psychoanalytic literary criticism

Shakespeare's Parted Eye Robert Barnett Schwartz, 1990 Shakespeare's plays share with his sonnets a fundamental interest in the relation between perceiving knowing and thinking and between thinking and acting By considering the relationship between perception as a theme and as a process of the thinking mind and various treatments of plot structure and characterization this book underscores the continuity of Shakespeare's sonnets as well as the relation between his sonnets and plays Recognizing Shakespeare's use of the parted eye helps to reveal what Shakespeare thought about thought how he understood understanding and how he would have us understand it *Corpus Stylistics as Contextual Prosodic Theory and Subtext* Bill Louw, Marija Milojkovic, 2016-05-25 The volume presents Louw's Contextual Prosodic Theory from its beginnings to its newest applications It journeys from delexicalisation and relexicalisation into Semantic Prosody and then to

the heart of its contextual requirements within collocation and the thinking of J R Firth Once there it moves much of Firth's and Malinowski's thinking into a computational method based upon the ability of language to govern and analyse itself using collocation to plot its scope and limits With the assistance of analytic philosophy it parts logic grammar from metaphysics vocabulary along the lines of a non computational formula of Bertrand Russell and so falsifies the major premise of the Vienna Circle using its own central tenet the Principle of Verification Having arrived at corpus derived subtext the semantic aura of grammar strings as distinguished from Semantic Prosody the second half of the book proceeds to verify the theory on Slavic languages The focus is on the poet Alexander Pushkin whose authorial intention becomes computationally recoverable Prose is handled on samples authored by David Lodge where authorial sincerity Louw 1993 is viewed on a cline of inspiration and quality of discourse Other applications in the volume include studies on translation negotiation humour and the reception of CPT
