Uncertainty and Risk Judith Curry,2023-06-06 World leaders have made a forceful statement that climate change is the greatest challenge facing humanity in the 21st century However little progress has been made in implementing policies to address climate change In Climate Uncertainty and Risk eminent climate scientist Judith Curry shows how we can break this gridlock This book helps us rethink the climate change problem the risks we are facing and how we can respond to these challenges Understanding the deep uncertainty surrounding the climate change problem helps us to better assess the risks This book shows how uncertainty and disagreement can be part of the decision making process It provides a road map for formulating pragmatic solutions Climate Uncertainty and Risk is essential reading for those concerned about the environment professionals dealing with climate change and our national leaders *Decision Making under Deep*

Uncertainty Vincent A. W. J. Marchau,Warren E. Walker,Pieter J. T. M. Bloemen,Steven W. Popper,2019-04-04 This open access book focuses on both the theory and practice associated with the tools and approaches for decisionmaking in the face of deep uncertainty It explores approaches and tools supporting the design of strategic plans under deep uncertainty and their testing in the real world including barriers and enablers for their use in practice The book broadens traditional approaches and tools to include the analysis of actors and networks related to the problem at hand It also shows how lessons learned in the application process can be used to improve the approaches and tools used in the design process The book offers guidance in identifying and applying appropriate approaches and tools to design plans as well as advice on implementing these plans in the real world For decisionmakers and practitioners the book includes realistic examples and

practical guidelines that should help them understand what decisionmaking under deep uncertainty is and how it may be of assistance to them Decision Making under Deep Uncertainty From Theory to Practice is divided into four parts Part I presents five approaches for designing strategic plans under deep uncertainty Robust Decision Making Dynamic Adaptive Planning Dynamic Adaptive Policy Pathways Info Gap Decision Theory and Engineering Options Analysis Each approach is worked out in terms of its theoretical foundations methodological steps to follow when using the approach latest methodological insights and challenges for improvement In Part II applications of each of these approaches are presented Based on recent case studies the practical implications of applying each approach are discussed in depth Part III focuses on using the approaches and tools in real world contexts based on insights from real world cases Part IV contains conclusions and a synthesis of the lessons that can be drawn for designing applying and implementing strategic plans under deep uncertainty as well as recommendations for future work The publication of this book has been funded by the Radboud University the RAND Corporation Delft University of Technology and Deltares

Foresight in Action Marjolein van Asselt, Susan van 't Klooster, Philip van Notten, Livia A. Smits, 2012-06-25 Assessing the future is vital in informing public policy decisions One of the most widespread approaches is the development of scenarios which are alternative hypothetical futures Research has indicated however that the reality of how professionals go about employing scenarios is often starkly at odds with the theory a finding that has important ramifications for how the resulting images of the future should be interpreted It also shows the need for rewriting and updating theory This book based on an intensive five year study of how experts actually go about assessing the future provides a groundbreaking examination of foresighting in action Obtained via ethnographic techniques the results lay bare for the first time the real processes by which scenarios are made It is also the first book to examine foresighting for public policy which is so often overlooked in favour of business practice From handling of discontinuity to historical determinism the analysis reveals and explains why foresight is difficult and what the major pitfalls are Each chapter ends with a toolkit of recommendations for practice The book aims to help readers to reflect on their own practices of public oriented foresight and thus to foster a deeper understanding of the key principles and challenges Ultimately this will lead to better informed decision making

Land Use Scenarios Alan W. Shearer, David A. Mouat, Scott D. Bassett, Michael W. Binford, Craig W. Johnson, Justin A. Saarinen, Alan W. Gertler, Julide Koracin, 2009-01-14 Any alteration of the natural processes occurring on a piece of land will have expected as well as unanticipated effects and those effects have little regard for arbitrary human boundaries Consequently it is not enough for land managers to consider only how they might maintain the parcels for which they are responsible they must also anticipate

The Technological Singularity Victor Callaghan,James Miller,Roman Yampolskiy,Stuart Armstrong,2017-05-22 This volume contains a selection of authoritative essays exploring the central questions raised by the conjectured technological singularity In informed yet jargon free contributions written by

active research scientists philosophers and sociologists it goes beyond philosophical discussion to provide a detailed account of the risks that the singularity poses to human society and perhaps most usefully the possible actions that society and technologists can take to manage the journey to any singularity in a way that ensures a positive rather than a negative impact on society The discussions provide perspectives that cover technological political and business issues The aim is to bring clarity and rigor to the debate in a way that will inform and stimulate both experts and interested general readers

Intelligent Information Systems and Knowledge Management for Energy: Applications for Decision Support, Usage, and Environmental Protection Metaxiotis, Kostas, 2009-08-31 This book analyzes the need for a holistic approach for the construction and engineering of cities and societies Provided by publisher *Theory and Methods for Supporting High Level Military Decisionmaking* Paul K. Davis, James P. Kahan, 2007 This report describes an approach to high level decision support for a Joint Forces Air Component Commander in combat operations or a Chief of Staff in defense planning Its central theme is the fundamental importance of dealing effectively with uncertainty whether in effects based operations building the Air Force s Commander s Predictive Environment or planning future forces with the methods of capabilities based planning Because many features of the future cannot be predicted with reasonable confidence it is better to proceed with the expectation of surprise developments and to have skill in recognizing adaptations and making them than it is to treat uncertainty merely as an annoyance This report sketches the framework of a high level decision support environment that is top down expresses concepts in simple and intuitive language deals explicitly with risk and uncertainty and provides the capability for decisionmakers to readily discover and question the bases for key assumptions and assessments It can accommodate both rational analytic and naturalistic decisionmakers allowing them to produce strategies that are flexible adaptive and robust FAR Two explicit methods and their related tools are described The first involves portfolio style thinking and analysis a good mechanism for balancing risks and other considerations in choosing a course of action The second is a novel modification of foresight exercises that addresses the need to include humans effectively in dealing with uncertainty A more extensive discussion of available methods and enabling technologies is also presented along with some recommendations about investment priorities *The Oxford Handbook of Expertise* Paul Ward, Jan Maarten Schraagen, Julie Gore, Emilie M. Roth, 2020 The Oxford Handbook of Expertise provides a comprehensive picture of the field of Expertise Studies It offers both traditional and contemporary perspectives and importantly a multidiscipline multimethod view of the science and engineering research on expertise **Geographic Information Science** Thomas J. Cova, Harvey J. Miller, Kate Beard, Andrew U. Frank, Michael Goodchild, 2008-09-22 The GIScience conference series was founded in 2000 with the goal of providing a forum for researchers interested in advancing the fundamental aspects of the production dissemination and use of geographic information The conference is held biannually and attracts people from academia industry and government across a host of disciplines including cognitive science computer science engineering geography information science mathematics

philosophy psychology social science and statistics Following a very successful conference in Münster Germany in 2006 this year's conference was held in Park City Utah USA the prior site of the 2002 Winter Olympics and home to the annual Sundance Film Festival There are two forms of submission to the conference full papers of 6000 words or less and extended abstracts of 500 1000 words for either a presentation or poster This format was originally designed to capture the cultural difference between researchers who prefer to publish a peer reviewed conference paper and those who would rather submit an abstract covering work in progress This year 77 full papers were submitted and reviewed by 3 Program Committee members of which 24 were selected for presentation and inclusion in this volume Of the 115 extended abstracts that were submitted and reviewed by 2 Program Committee members 47 were accepted for an oral presentation and 25 were accepted for presentation as a poster The abstracts were published in a second booklet and are available on the GIScience website <http://www.giscience.org>
