Out on Waters James Michael Nagle, 2020-03-25 For a denomination like Roman Catholicism that is canonically difficult to leave many American Catholics are migrating beyond the institution's immediate influence The new religious patterns associated with this experience represent a somewhat cohesive movement influencing not just Catholicism but the whole of North American religion Careful examination of the lives of disaffiliating young adults reveals that their religious lives are complicated For example the assumption that leaving conventional religious communities necessarily results in a non religious identity is simplistic and even perhaps misleading Many maintain a religious worldview and practice This book explores one place where the religiously affiliated and religiously disaffiliating regularly meet Catholic secondary schools and something interesting is happening Through a series of ethnographic portraits of Catholic religious educators and their disaffiliating former students the book explores the experience of disaffiliation and makes its complexity more comprehensible in order to advance the discourse of fields interested in this significant movement in religious history and

It is also a hallmark of practical theology and a common spiritual exercise among ordinary Christians trying to discern how their beliefs might influence daily living. Yet our society is increasingly pluralistic with growing numbers of people from varying belief systems from Islam to Buddhism as well as an increasing number of atheists. In this book Edward Foley reimagines theological reflection in interfaith contexts and with those of no faith tradition. The book addresses and celebrates diverse beliefs and envisions the practice of theological reflection in such contexts. *Theological Reflection Across Religious Traditions* introduces readers to the basics of traditional forms of theological reflection then considers how it might be reconceived in different contexts from interfaith ministers working together to reduce poverty and homelessness to people of diverse or no faith traditions strategizing to secure the dignity of undocumented immigrants. Beyond suggestions for collaborative social action the book offers tools for productive interfaith conversation through a process Foley calls reflective believing. This is a groundbreaking rethinking of theological reflection for today's world proposing that people across the religious landscape can participate in reflective believing for personal and communal benefit without sacrificing their own integrity.
