Making Of A Detective:

The Making of a Detective Pat Marry, 2019-11-26 When he retired in 2018 Pat Marry had been instrumental in solving dozens of serious crimes including many murders But as a newly qualified garda in 1985 Marry had no idea how to become a detective He soon realised he would have to learn on the job put himself forward and show that he had what it took Taking initiative following up hunches even far fetched ones obsessing about details trying new investigative techniques thinking laterally these were essential In addition you had to be a bit of a psychologist The Making of a Detective follows Pat Marry's path from rookie to Detective Inspector through the stories of key cases he worked on and investigations he led It includes high profile cases like Rachel Calally's murder by her husband Joe O'Reilly But there are also stories that have faded from public memory such as the 1995 murder of Marilyn Rynn which involved the first use of DNA evidence to solve a crime in Ireland Or the 2001 murder of Mary Gough a case solved mainly by scrutinizing her husband's internet use then a new investigative tool The Making of a Detective is a unique and gripping insight into the work of a dedicated garda operating at the very top of his profession An absolutely fascinating book Really interesting stories and insights Sean O'Rourke RT Radio 1 An absolute must read as page turning as a crime novel Irish Examiner

Bradley T. Wilson,2024-04-30 In the 1980s and early 1990s cocaine poured into the United States Most of it was transported from Colombia by a kingpin in the Cali cartel whose identity remained hidden The kingpin had been elusive for years rarely stepping on US soil The DEA and the FBI had no success in identifying this top level operator The feds were offtrack not only because the kingpin was careful and clever but also because the kingpin was actually a queenpin Cali native Isabella Herrera was a young beauty from a wealthy family and her meticulous business skills enabled her to rise within the drug cartel from a mule to a high level operative While the feds were getting nowhere a small narcotic task force within the Torrance Police Department located in a Los Angeles suburb was catching up to Isabella s trail

Otherness in Hispanic Culture Teresa Fernandez Ulloa, 2014-06-26 This book addresses contemporary discourses on a wide variety of topics related to the ideological and epistemological changes of the 19th 20th and 21st centuries and the ways in which they have shaped the Spanish language and cultural manifestations in both Spain and Hispanic America The majority of the chapters are concerned with otherness in its various dimensions the alien Other foreign immigrant ethnically different disempowered female or minor as well as the Other of different sexual orientation and or ideology Following Octavio Paz otherness is expressed as the attempt to find the lost object of desire the frustrating endeavour of the androgynous Plato wishing to embrace the other half of Zeus who in his wrath tore off from him Otherness compels human beings to search for the complement from which they were severed Thus a male joins a female his other half the only half that not only fills him but which allows him to return to the unity and reconciliation which is restored in its own perfection formerly altered by divine will As a result of this transformation one can annul the distance that keeps us away from that which not being our own turns into a source of anguish The clashing diversity of all things requires the human predisposition to accept that which is different Such a predisposition is an expression of epistemological ethical and political aperture The disposition to co exist with the different is imagined in the de anthropocentricization of the bonds with all living realms And otherness is in some way the reflection of sameness mismidad The other is closely related to the self because the vision of the other implies a reflection about the self it implies consciously or not a relationship with the self These topics are addressed in this book from an interdisciplinary perspective encompassing arts humanities and social sciences
