Making Of The Soviet System The:

The Making of the Soviet System Moshe Lewin, 1985 Moshe Lewin traces the transformation of Russian society and the Russian political system in the period between the two world wars a transformation that was to lead to Stalinism in the 1930s Lewin focuses on the changes stemming from war revolution civil war and industrialization and he discusses such topics as rural society and religion in the twentieth century the background of Soviet collectivization Soviet prewar policies of agricultural procurement the kolkhoz and the muzhik Leninism and Bolshevism industrial relations during the five year plans of 1928 1941 and the social background of Stalinism In his introduction Lewin examines the political ideological and cultural developments that accompanied or in some cases resulted from these changes Through this comprehensive approach to understanding the origins and problems of Stalinism Lewin makes a significant contribution to the study of Russia's social history before the revolution as well as in the Soviet period Jacket

Debates on Stalinism Mark Edele, 2020-06-11 *Debates on Stalinism* introduces major debates about Stalinism during and after the Cold War Did Stalinism form a system in its own right or was it a mere stage in the overall development of Soviet society Was it an aberration from Leninism or the logical conclusion of Marxism Was its violence the revenge of the Russian past or the result of a revolutionary mindset Was Stalinism the work of a madman or the product of social forces beyond his control The book shows the complexities of historiographical debates where evidence politics personality and biography are strongly entangled *Debates on Stalinism* allows readers to better understand not only the history of history writing but also contemporary controversies and conflicts in the successor states of the Soviet Union in particular Russia and Ukraine

The Making and Breaking of the Soviet System Christopher Read, 2001 Drawing on a wide range of post Soviet materials Christopher Read examines the reasons for the successes and failures of the Soviet system He argues that the underlying reasons for the system's collapse can be found in the contradictions of the revolution which gave birth to it The consequences are traced from Stalin to Gorbachev's doomed attempt to transform the Soviet system Particular attention is given to the divergence between the aspirations of the leadership and the social evolution of ordinary Russians

Politics and the Soviet System Thomas F. Remington, 1989-06-18 This collection of essays focuses on topics pertaining to Soviet propaganda and policy making Among the essays there is a study of the view of international relations presented by Soviet TV news a survey of development in comparative communist studies and an analysis of recent changes

Soviet System, The Fischer, George, **Sport and Society in the Soviet Union** Manfred Zeller, 2018-10-18 Following Stalin's death in 1953 association football clubs as well as the informal supporter groups and communities which developed around them were an important way for the diverse citizens of the multinational Soviet Union to express negotiate and develop their identities both on individual and collective levels Manfred Zeller draws on extensive original research in Russian and Ukrainian archives as well as interviews with spectators hardcore ultras and hooligans from the Caucasus to Central Asia to shed new light onto this phenomenon covering

the period from the height of Stalin's terror in the 1930s to the Soviet Union's collapse in 1991. Across events as diverse as the Soviet Union's footballing triumph over the German world champions in 1955 and the Luzhniki stadium disaster in 1982 Zeller explores the ways in which people against the backdrop of totalitarianism articulated feelings of alienation and fostered a sense of community through sport. In the process he provides a unique bottom up reappraisal of Soviet history, culture and politics as seen through the eyes of supporters and spectators. This is an important contribution to research on Soviet culture after Stalin, the history of sport and contemporary debates on antagonism in the post-Soviet world.

The Soviet Union and the Construction of the Global Market Oscar Sanchez-Sibony, 2023-09-14 Tells the story of how the Soviet Union helped bring about the financialized world of capital we live in today.

The Soviet Union United States. Congress. House. Committee on International Relations. Subcommittee on Europe and the Middle East, 1978 This moment was not his alone nor could it ever have come about without him. Gough Whitlam turned to Graham Freudenberg, touched him lightly on the shoulder saying, 'It's been a long road, Comrade, but we're there and walked out to meet the spotlight.' Acclaimed biographer Jenny Hocking's *GOUGH WHITLAM: A MOMENT IN HISTORY* is the first contemporary and definitive biographical study of the former Labor Prime Minister. From his childhood in the fledgling city of Canberra to his first appearance as Prime Minister playing Neville Chamberlain to his extensive war service

in the Pacific and marriage to Margaret the champion swimmer and daughter of Justice Wilfred Dovey the biography draws on previously unseen archival material extensive interviews with family and colleagues and exclusive interviews with Gough Whitlam himself Hocking's narrative skill and scrupulous research reveals an extraordinary and complex man whose life is in every way formed by the remarkable events of Planning in the Soviet Union Judith Pallot, Denis J. B. Shaw, 2021-12-24 Originally published in 1981 and based on the authors own research this book provides a comprehensive review of planning in the Soviet Union up until the early 1980s for both geographers and Soviet specialists Planning was particularly important in the Soviet Union since not only most spatial change but all economic planning was the product of a systematic socio political ideology Planning was therefore the key to understanding the Soviet economy society and spatial change When it was first published this was the first study in which the focus had been directed specifically at spatial planning in the Soviet Union in any systematic way **Socialism, Social Welfare and the Soviet Union** Vic George, Nicholas Manning, 2021-12-24 First published in 1980 Socialism Social Welfare and the Soviet Union examines the views of Marx Engels and Lenin on what constitutes a socialist form of provision of social security income education health and housing The authors discuss the implementation of these ideas in the Soviet Union since the 1917 Revolution in the context of economic and political development and describe the social services in the Soviet Union assessing the extent to which the original ideas have been matched by reality They also briefly survey the views of several East European academic writers on social policy outlining some distinctive features of social policy in the Eastern bloc The authors general conclusion is that the Soviet Union has made great progress in social policy provision from their research and from their visits in the course of writing this book they show that the social services of the Soviet Union are as good as and in some ways more comprehensive than those of Western Europe Equally important is their conclusion that a society in which the means of production and distribution are nationalised and which makes a full provision of social services is not necessarily a socialist society This book will appeal to students of sociology political science and area studies **Pluralism in the Soviet Union** Susan Gross Solomon, 1983-06-18 **Perceptions, Relations Between the United States and the Soviet Union**, 1978 **Religious Persecution in the Soviet Union** United States. Congress. House. Committee on Foreign Affairs. Subcommittee on Europe and the Middle East, 1986 Taking the Soviet Union Apart Room by Room Kateryna Malaia, 2023-08-15 Taking the Soviet Union Apart Room by Room investigates what happens to domestic spaces architecture and the lives of urbanites during a socioeconomic upheaval Kateryna Malaia analyzes how Soviet and post Soviet city dwellers navigating a crisis of inadequate housing and extreme social disruption between the late 1980s and 2000s transformed their dwellings as their countries transformed around them Soviet infrastructure remained but in their domestic spaces urbanites transitioned to post Soviet citizens The two decades after the collapse of the USSR witnessed a major urban apartment remodeling boom Malaia shows how in the context of limited residential mobility those remodeling and modifying their homes formed new lifestyles defined

by increased spatial privacy Remodeled interiors served as a material expression of a social identity above the poverty line in place of the outdated Soviet signifiers of well being Connecting home improvement self reinvention the end of state socialism and the lived experience of change Malaia puts together a comprehensive portrait of the era Malaia shows both the stubborn continuities and the dramatic changes that accompanied the collapse of the USSR Making the case for similarities throughout the former Soviet empire this study is based on interviews and fieldwork done primarily in Kyiv and Lviv Ukraine Many of the buildings described are similar to those damaged or destroyed by Russian bombings or artillery fire following the invasion of Ukraine on February 24 2022 A book about major historic events written through the lens of everyday life Taking the Soviet Union Apart Room by Room is also about the meaning of home in a dramatically changing world
