Collectors, Scholars, and Forgers in the Ancient World Carolyn Higbie, 2017-01-26 Collectors Scholars and Forgers in the Ancient World focuses on the fascination which works of art texts and antiquarian objects inspired in Greeks and Romans in antiquity and draws parallels with other cultures and eras to offer contexts for understanding that fascination Statues bronze weapons books and bones might have been prized for various reasons because they had religious value were the work of highly regarded artists and writers had been possessed by famous mythological figures or were relics of a long disappeared past However attitudes towards these objects also changed over time sculpture which was originally created for a religious purpose became valuable as art and could be removed from its original setting while historians discovered value in inscriptions and other texts for supporting historical arguments and literary scholars sought early manuscripts to establish what authors really wrote As early as the Hellenistic era some Greeks and Romans began to collect objects and might even display them in palaces villas or gardens as these objects acquired value a demand was created for more of them and so copyists and forgers created additional pieces while copyists imitated existing pieces of art sometimes adapting to their new

settings forgers created new pieces to complete a collection fill a gap in historical knowledge make some money or to indulge in literary play with knowledgeable readers The study of forged relics is able to reveal not only what artefacts the Greeks and Romans placed value on but also what they believed they understood about their past and how they interpreted the evidence for it Drawing on the latest scholarship on forgery and fakes as well as a range of examples this book combines stories about frauds with an analysis of their significance and illuminates and explores the link between collectors scholars and forgers in order to offer us a way to better understand the power that objects held over the ancient Greeks and Romans
