

Different Approaches to Expressive Writing

"Standard" expressive writing:

Deepest thoughts and feelings about a stressful or traumatic event. Write about the same or different topics over writing sessions.

Cognitive processing:

Thoughts and feelings with an attempt to derive more understanding and insight (cognitive processing) regarding a traumatic or stressful event.

Exposure:

Deepest thoughts and emotions about the same event across all writing sessions to promote emotional habituation/adaptation.

Benefit finding:

Identify an event and then focus on the positive aspects of the experience; this might include a focus on how you have grown or changed as a person due to the event and how you might be better equipped to meet future challenges.

Best possible future self:

Think about your life in the future and write about this life as if you have worked hard and succeeded at accomplishing all of your life goals.
