Bevans,Richard H. Bliese,2006-01-30 Conceived and developed by two of Europe s most eminent missiologists in the country where the scientific and sustained study of mission first took shape the Dictionary of Mission represents the finest of the chorus of voices that comprise contemporary missiology The choice of topics and the authors to address them reflects what Christian mission has become a genuinely worldwide and ecumenical phenomenon That there would be entries on regional theological developments is indicative of how the world church is developing A host of other topics here explored show too how the landscape of mission is changing Taken as a whole then the Dictionary of Mission is a road map through this exciting and challenging terrain from the Foreword *McLuhan's Global Village Today* Angela Krewani,2015-10-06 Marshall McLuhan

was one of the leading media theorists of the twentieth century This collection of essays explores the many facets of McLuhan s work from a transatlantic perspective balancing applied case studies with theoretical discussions **Military Chaplains' Review** ,1983 **Space and the Global Village: Tele-services for the 21st Century** G. Haskell,Michael J Rycroft,2012-12-06 Recent developments in telecommunications have led to new developments in tele services particularly tele health and tele education for the benefit of those living in either the developed world or the less developed world The benefits accrue to individuals and also to society at large An international and interdisciplinary Symposium was organized by the International Space University to bring together technical and non technical people to consider the future applications of space techniques to tele services The Proceedings of this Symposium are essential reading for all who need to appreciate the broad range of issues involved in this developing area **From Tribal Village to Global Village** Alison Brysk,2000 This book examines the rise of human rights movements in five Latin American countries Ecuador Mexico Brazil Nicaragua and Bolivia among the hemisphere s most isolated and powerless people Latin American Indians It describes the impact of the Indian rights movement on world politics from reforming the United Nations to evicting foreign oil companies and analyzes the impact of these human rights experiences for all of Latin America s indigenous citizens and native people throughout the world With Roots and Wings Jay B. McDaniel,2009-06-26 In With Roots to be open to the insights of people of other faiths as well as to share our own and to become centered on God McDaniel shows where the new universe story of Thomas Berry and Brian Swimme and the Christian story meet and differ where they complement and where they supplement one another With Roots Wings shows how to experience both green grace that comes from opening one s self to the rhythms of the cosmos and red grace symbolized in the crucifixion of Christ both of which are vital to a Christian ecological spirituality and praxis Most impressive is McDaniel s ability to absorb and reflect important lessons Christians can learn from Native Americans from Buddhists and Hindus from Muslims and Jews The complexity of the issues he addresses and his ability to explain them simply and clearly makes With Roots and Wings must reading for the general reader as well as ecological activists clergy and laity alike Nothing else comes near it in depth power and insight **Gods in the Global Village** Lester R. Kurtz,2012 In an era plagued by religious conflict the Third Edition of Gods in the Global Village directly responds to issues of social problems prevalent in the world today Using an engaging thought provoking style author Lester R Kurtz focuses on the relationship among the major faith traditions that inform the thinking and ethical standards of most people in the emerging global social order This book focuses on a central aspect of that common crisis A major assumption of this book is that all knowledge is shaped by the social context of the knower therefore both religious traditions and our studies of them are shaped by the context in which we construct them The author argues that religious pluralism will be a necessary precondition of the global village for the foreseeable future The question that faces us as a human community is not Which religious tradition is true or even Is any religious tradition true but rather How can we enable the various religious and

secular traditions to coexist peacefully on the planet The text supports the belief that the sociology of religion itself a pluralistic discipline can provide invaluable insight into the most pressing problems of our time **Introduction to Christian Ethics** Roger H Crook,2015-10-02 This book is a college level introductory textbook in Christian ethics It introduces the field of ethics and a variety of approaches to its study The book is written for college students and is designed to help them develop a method of dealing with the thorny moral issues **Mennonites in the Global Village** Leo Driedger,2000-01-01 An exploration of the impact of professionalism and individualism on Mennonite culture families and religion Driedger contends that Mennonites are in a unique position in the global electronic age having entered modern society relatively recently *The Fourth Wave* Herman Maynard,Susan E. Mehrtens,1996-08-31 Applying the concept of historical waves originally propounded by Alvin Toffler in *The Third Wave* Herman Maynard and Susan Mehrtens look toward the next century and foresee a fourth wave an era of integration and responsibility far beyond Toffler s revolutionary description of third wave postindustrial society Whether we attain this stage of global well being however will depend on how well our business institutions adapt and change The Fourth Wave examines the ways business has changed in the second and third waves and must continue to change in the fourth The changes concern the basics how an institution is organized how it defines wealth how it relates to surrounding communities how it responds to environmental needs and how it takes part in the political process Maynard and Mehrtens foresee a radically different future in which business principles concern for the environment personal integrity and spiritual values are integrated The authors also demonstrate the need for a new kind of leadership managers and CEOs who embrace an attitude of global stewardship who define their assets as ideas information creativity and vision and who strive for seamless boundaries between work and private lives for all employees **Christians and Nonviolence in the Nuclear Age** Gerard Vanderhaar,2013-08-28 *Christians and Nonviolence in the Nuclear Age* presents a constructive personal response that individuals can make to the challenge posed by nuclear weapons It outlines a positive nonviolent alternative to war This alternative can be practiced in one s own personal life and extended into the arena of international relations The book assesses the terrible realities of the Nuclear Age and sophisticated weapons systems in light of the biblical teachings about idolatry Then it presents the life of Jesus as a model upon which women and men of good will can pattern a lifestyle of nonviolence *Christians and Nonviolence in the Nuclear Age* proposes a new vision of self country and the world that measures up to the demands of the times In light of that vision the book suggests specific actions individuals and groups can take to change the course of our world from self destruction to mutual understanding and cooperation **Religion and Violence** ,1987-01-01 Robert McAfee Brown s *Religion and Violence* is a comprehensive introduction to the ethical and moral questions that abound at the intersection of violence and religion Brown discusses such important issues as nuclear war terrorism capital punishment and revolution **Interfaith Just Peacemaking** S. Thistlethwaite,2012-01-02 *Interfaith Just Peacemaking* is a collected work by 27 Jewish Muslim and Christian scholars and

religious leaders on the ten practice norms of the peacemaking paradigm called Just Peace Just Peace theory like the paradigm it most resembles Just War theory is a list of specific practices that are applied to concrete contexts **Law in an Emerging Global Village** Richard Falk,2024-01-15 Already highly acclaimed as a seminal analysis of the New World Order Professor Falk s Law in an Emerging Global Village clearly establishes a new arena of international law where three distinct historical forces meet and contend the old Westphalian nation state model the global civil society as represented by international human rights conventions and transnational market forces that pervade nearly every area of life as well as legal practice Published under the Transnational Publishers imprint **Peacemaking: Family Activities for Justice and Peace, Vol. 2** Jacqueline Haessly,2011-10-28 Peacemaking Family Activities for Justice and Peace consists of two volumes Vol 1 Facing Challenges and Embracing Opportunities integrates theory and practical advice for families educators and community leaders on eight themes Vol 2 Examining Values Developing Skills and Acting for Peace in the Family the Community and the World includes a variety of family activities some light and lively some that foster personal discovery and some that encourage deeper reflection on each of these eight themes Each volume includes a section devoted to Interfaith Prayer Services as well as a Resource Guide and Bibliography The activities can be adapted for people of all ages
