Water, Klara Tammany is a professional Christian educator who goes about her calling with a joyous urgency. This book demonstrates her impassioned approach to religious instruction. She starts with the premise that ongoing Christian education must be central to a life of faith and then proceeds from the corollary that baptism must be central to all Christian education. Eight group sessions focus repeatedly on water first as a natural element necessary to life then as a symbolic element necessary to spirituality. Gradually through prayer song scripture silence poetry visual arts storytelling group discussion and personal reflection water as baptismal element gains ascendancy. No longer mere occasional refreshment *Living Water* inundates becomes life's very medium. This text makes for excellent catechumenal preparation but is intended for use by all Christians those who are years into their journeys as well as those who are beginning. Designed for small groups of adult Episcopalians the program is easily adaptable to other denominations to one on one spiritual mentoring to children young adult or intergenerational groups and even to individuals for private meditation.

Emergent U.S. Literatures Cyrus Patell, 2014-11-07 *Emergent U S Literatures* introduces readers to the foundational writers and texts produced by four literary traditions associated with late twentieth century US multiculturalism. Examining writing by Native Americans Hispanic Americans Asian Americans and gay and lesbian Americans after 1968 Cyrus R K Patell compares and historicizes what might be characterized as the minority literatures within U S minority literature. Drawing on recent theories of cosmopolitanism Patell presents methods for mapping the overlapping concerns of the texts and authors of these literatures during the late twentieth century. He discusses the ways in which literary marginalization and cultural hybridity combine to create the grounds for literature that is truly emergent in Raymond Williams's sense of the term literature that produces new meanings and values new practices new relationships and kinds of relationships in tension with the dominant mainstream culture of the United States. By enabling us to see the American literary canon through the prism of hybrid identities and cultures these texts require us to reevaluate what it means to write and read in the American grain. *Emergent U S Literatures* gives readers a sense of how these foundational texts work as aesthetic objects rather than merely as sociological documents crafted in dialogue with the canonical tradition of so called American Literature as it existed in the late twentieth century as well as in dialogue with each other.
