Nationalism in the contemporary world: political and sociological perspectives by T V Sathyamurthy; Frances Pinter, London (published in the USA by Allanheld, Osman, Totowa, NJ), 1983, 246 pages, £15.50 (US: \$28.95)

Unlike the recent spate of books on nationalism (for example, Anderson, 1983; Gellner, 1983; Smith, 1983), the focus of Sathyamurthy's analysis is not on the pivotal role of the intelligentsia. On the contrary, he strongly argues that nationalism should not be equated with, and is not encompassed by, 'elite' nationalism where the mass of the populace is dismissed in its 'passivity'. Further criticism, in his review of academic thinking on nationalism, is directed towards perspectives that postulate an inevitable evolution for societies along a continuum from the traditional to the modern, and where the two are considered mutually exclusive. Such an approach typified US political science in the 1960s. A far more valid interpretation, derived from the work of social anthropologists and historians, is an interdisciplinary and comparative one, which seeks to connect the past, the present, and the future of a nation in relation to colonial implantation and domination. In particular, Sathyamurthy's analysis owes much to the ideas of Balandier (1970), and more specifically to Humphrey's research (1976) on nationalism and colonialism in Algeria, a work unfortunately not available in published form.

Apart from the need to link indigenous social change with colonialism, and the dynamic interaction between social and political forces at different levels, ranging from the local to the national, nationalism must also be situated in the increasingly complex international order and the contradictions generated between imperialism and national liberation movements. Thus his studies of nation-states in Africa (Uganda), Asia (Burma, Bangladesh, and India) and the developed world (Scotland), the latter included to complete the world tour, demonstrate the diversity of nationalist forces, movements, and sentiments. Hence Sathyamurthy has avoided the danger of constructing general theories on the basis of specific regionalised types of nationalism arising from a particular colonial administration.

Even within the same region, he rightly emphasises the differences. For example, Uganda, compared with its neighbours, Kenya and Tanzania, had relatively little anticolonial opposition, which was subordinate to the effort of ensuring or containing, depending on whose point of view, the supremacy of the dominant tribe, the Buganda. The study of Burma, a country with a short period of colonial administration, illustrates the important role played by organised Buddhism in influencing nationalist priorities in the interwar period. Furthermore, the "motley crew of men with Western education" (page 157) were only one of three centres of nationalist power in this period, all unable to create a coherent nationalist ideology.

An altogether less satisfactory account of substate nationalism is given for the developed world for which "it would be reasonable to conclude that the basic difficulties are confined to the economic sphere of participation and surplus extraction" (page 81). The choice of Scotland would seem to correspond more closely to his thesis than other more politically successful nationalisms, such as the Basque with its much greater support for nationalist projects, and certainly not simply engendered by relative economic deprivation.

Despite the weakness of the analysis of the developed world, the book does offer a useful antidote to the overly narrow interpretations of nationalism, based on modernising elites, and presents a cogent review of academic theories and an interesting variety of examples.

Escaping the Self-Determination Trap Marc Weller,2009-05-31 There is new movement in the discussion about self determination and statehood The contested declaration of independence by Kosovo and Russia s recognition of the purported independence of Abkhazia and South Ossetia have caused significant controversy These developments may well put an end to the attempt by governments to keep in place the highly restricted doctrine of self determination that has previously only been made available in the colonial context This monograph argues that classical self determination narrowly conceived in the colonial context cannot contribute to the resolution of the presently ongoing self determination conflicts around the world However this study finds that over the past few years a new practice of addressing self determination conflicts has emerged This practice significantly extends our understanding of the legal right to self determination and of the means that can be brought to bear in terminating secessionist conflicts

Political Mobilisation and Democracy in India Vernon Hewitt,2007-11-05 This book addresses the paradox of political mobilization and the failings of governance in India with reference to the conflict between secularism and Hindu nationalism authoritarianism and democracy It demonstrates how the Internal Emergency of 1975 led to increased support of groups such as the BJS and the RSS accounting for the rise of political movements advocating Hindu

nationalism Hindutva as a response to rapid political mobilization triggered by the Emergency and an attempt by political elites to control this to their advantage Vernon Hewitt argues that the political disjuncture between democracy and mobilization in India is partly a function of the Indian state the nature of a caste class based society but also and significantly the contingencies of individual leaders and the styles of rule He shows how in the wake of the Emergency the BJP and the RSS gained popularity and power amid the on going decline and fragmentation of the Congress whilst at the same time Hindu nationalism appeared to be of such importance that Congress began aligning themselves with the Hindu right for electoral gains The volume suggests that in the light of these developments the rise of the BJP should not be considered as remarkable or as transformative as was at first imagined *Severed States* Robert K. Decolonization in St. Lucia Tennyson S. D. Joseph, 2011-08-16 Tennyson S D Joseph builds upon current research on the anticolonial and nationalist experience in the Caribbean He explores the impact of global transformation upon the independent experience of St Lucia and argues that the island s formal decolonization roughly coincided with the period of the rise of global neoliberalism hegemony Consequently the concept of limited sovereignty became the defining feature of St Lucia s understanding of the possibilities of independence Central to the analysis is the tension between the role of the state as a facilitator of domestic aspirations on one hand and a facilitator of global capital on the other Joseph examines six critical phases in the St Lucian experience The first is 1940 to 1970 when the early nationalist movement gradually occupied state power within a framework of limited self government The second period is 1970 to 1982 during which formal independence was attained and an attempt at socialist oriented radical nationalism was pursued by the St Lucia Labor Party The third distinctive period was the period of neoliberal hegemony 1982 1990 The fourth period 1990 1997 witnessed a heightened process of neoliberal adjustment in global trade which destroyed the banana industry and transformed the domestic political economy A later period 1997 2006 involved the SLP s return to political power resulting in tensions between an earlier radicalism and a new and contradictory accommodation to global neoliberalism The final period 2006 2010 coincides with the onset of a crisis in global neoliberalism during which a series of domestic conflicts reflected the contradictions of the dominant understanding of sovereignty in narrow materialist terms at the expense of its wider anti systematic progressive and emancipator connotations Subnational Movements In South Asia Subrata Mitra, R. Alison Lewis, Robert C Oberst, R Alison Lewis, 2019-06-21 The idea of the book initially emerged from a panel discussion at the Specialist Group on South Asia of the Political Studies Association UK in March 1993 On its tortuous path to publication it has been enriched by critical comments from Sumit Ganguly Vernon Hewitt Iftikhar Malik Gurharpal Singh and David Taylor The volume has benefited from Subrata Mitra s long association with the Centre for Indian Studies at the University of Hull and stimulating discussions with members of the Center for South Asian Studies and the Department of Political Science at the University of California
