

The operation of the Shay geared locomotive was limited to dry regions, in fact many locomotives exported for use around the world. On the left Shays of the J. I. Newman Lumber Co. shown at of hardwood at Newman's, Sumner, Mississippi station. At the lower left, the Philippine Insular Lumber Co. operated several Shay locomotives on their own line. Note the balloon stack and the large painted on the boiler smoke box for easy identification. There were many modifications applied to Shays, yet the most unusual might be the extended roof over the boiler of the Eastman, Gardner No. 62 at Laurel, Mississippi which is shown below.

**Pacific Coast Shay** Ralph Daniel Ranger, 1964 The geared locomotive was born of sudden need back in the 1870 s and the Shay was the first and most numerous of this bizarre breed Its sound was enough to send the uninitiated scurrying into the brush for it gave the impression of a charging monster flying past at a mile a minute speed In actuality though the din of steam and metal was deceptive and bore little relation to its leisurely pace The Shay locomotive attained its peak of popularity during the 1920s and no fewer than 500 of these machines were in use on the West Coast The famous Pacific Coast type was first introduced in 1927 as a last ditch effort to induce the western lumber industry to continue to log vast stands by Shay locomotives From inside of book jacket **Steam Over Scranton** Gordon S.
