Irish, & Scottish Silver at the Sterling and Francine Clark Art Institute** Sterling and Francine Clark Art Institute, Beth
Carver Wees, 1997 In this stunning catalog Wees curator of decorative arts at the Clark Art Institute shares her extensive
knowledge of silver Robert Sterling Clark who established the Art Institute in 1955 preferred Huguenot silver especially that
of Paul de Lamerie so his collection which contains typical objects from the early 16th to the mid 20th centuries is especially
rich in 18th century examples Wees arranges this collection according to general function Dining Lighting etc and prefaces
each chapter with exhaustively footnoted essays She accompanies each item with crisp black and white photographs a wealth
of description and helpful commentary Analogous to Kathryn Buhler's standard catalog of American silver in Boston's
Museum of Fine Arts this is a wonderful tool for researching makers and hallmarks comparing stylistic elements or just
marveling at the beauty of an extraordinary collection While not intended to be a historical compendium this informative
visual feast belongs in all silver reference collections and will also certainly appeal to individual collectors 19 colour 1 222 b

renowned Dutch university Leiden was an attractive proposition for travelling foreign students in the seventeenth and
eighteenth centuries Alongside offering an excellent academic program and outstanding facilities Leiden was also able to
cater to the desires of noble students providing various extra curricular activities Leiden was the most popular continental
university among English students and this book investigates the 831 English students who studied there between 1575 and
1650 The preference of English students for Leiden was on the one hand related to close Anglo Dutch relations of the period
and these are investigated with respect to politics economy religion culture as well as to the large stranger communities
residing in the respective countries On the other hand Leiden's attraction resulted from its academic achievements which are
traced back to the conditions in the United Provinces the limited influence of the Calvinist Church Leiden's professors as well
as the university's facilities The core of this study is an exhaustive quantitative study of the composition of the Leiden student
population in general and that of its English segment in particular Information is provided on the duration of the studies of
English students at Leiden their age social background and fields of study We learn about the careers of English students
both prior to and after their time at Leiden and of the motivation that led the English to choose Leiden over other continental
universities More than a study of one group of students at one university this book is a valuable contribution to the history of
early modern universities and will appeal to a wide international readership interested in cultural and intellectual history as
well as in Anglo Dutch relations *History* Robert Blackey, 2011-02-01 This book includes 14 essays written by the author

Anthony Munday and the Catholics, 1560-1633 Donna B. Hamilton,2017-03-02 In this new study Donna B Hamilton offers a major revisionist reading of the works of Anthony Munday one of the most prolific authors of his time who wrote and translated in many genres including polemical religious and political tracts poetry chivalric romances history of Britain history of London drama and city entertainments Long dismissed as a hack who wrote only for money Munday is here restored to his rightful position as an historical figure at the centre of many important political and cultural events in sixteenth and seventeenth century England In Anthony Munday and the Catholics 1560 1633 Hamilton reinterprets Munday as a writer who began his career writing on behalf of the Catholic cause and subsequently negotiated for several decades the difficult terrain of an ever changing Catholic Protestant cultural religious and political landscape She argues that throughout his life and writing career Munday retained his Catholic sensibility and occasionally wrote dangerously on behalf of Catholics

Thus he serves as an excellent case study through which present day scholars can come to a fuller understanding of how a person living in this turbulent time in English history eschewing open resistance exile or martyrdom managed a long and prolific writing career at the centre of court theatre and city activities but in ways that reveal his commitment to Catholic political and religious ideology Individual chapters in this book cover Munday s early writing 1577 80 his writing about the trial and execution of Jesuit Edmund Campion his writing for the stage 1590 1602 his politically inflected translations of chivalric romance and his writings for and about the city of London 1604 33 Hamilton revisits and revalues the narratives told by earlier scholars about hack writers the anti theatrical tracts the role of the Earl of Oxford as patron the political religious interests of Munday s plays the implications of Mu A History of John Singleton of American Fork, Utah, His Ancestors and Descendants ,1973 **Xerox Contemporary High School Library Program** ,1970
