LOST and PROFOUND Mark McKirdy, 2015-03-03 **LOST and PROFOUND** The Rejected Book Reviews by Famous People is a unique and hilarious collection of unpublished book reviews seemingly written by household names who have reached the top in film television journalism science music sport art business politics and literature Included among the reviewers are George W Bush David Letterman Madonna Gore Vidal Shirley MacLaine Arnold Palmer Elton John Gloria Steinem David Suzuki Walter Cronkite Salvatore Sammy the Bull Gravano Jimmy Swaggart and Monica Lewinsky All the books reviewed are real and the astonishing diversity of interests of the celebrities demonstrates that shallow perception can never be disguised as deep thought no matter how cleverly expressed As revealed in the book's Introduction Mark McKirdy acquired this collection when he successfully bid for a small dusty box at a Sotheby's auction in 2013 Upon his return to Oxford University where he was the anthropologist in residence he opened the box and like Howard Carter marveling at the treasures he'd just unearthed from Tutankhamun's tomb in 1922 the author was holding a golden collection of book reviews by many of the world's most significant people Each review had apparently been commissioned by the prestigious literary journal The London Review of Books and each for reasons never revealed received a soul crushing rebuff by way of a large red Rejected stamp As with all well written satire **LOST and PROFOUND** will give readers pause for thought seconds for chuckling minutes of laughing out loud and hours of fun and if the celebrities mentioned in the book didn't actually write the reviews cited they probably wish they had

Red Plenty Francis Spufford, 2012-02-14 Spufford cunningly maps out a literary genre of his own Freewheeling and fabulous The Times London Strange as it may seem the gray oppressive USSR was founded on a fairy tale It was built on the twentieth century magic called the planned economy which was going to gush forth an abundance of good things that the lands of capitalism could never match And just for a little while in the heady years of the late 1950s the magic seemed to be working Red Plenty is about that moment in history and how it came and how it went away about the brief era when under

the rash leadership of Khrushchev the Soviet Union looked forward to a future of rich communists and envious capitalists when Moscow would out glitter Manhattan and every Lada would be better engineered than a Porsche It s about the scientists who did their genuinely brilliant best to make the dream come true to give the tyranny its happy ending Red Plenty is history it s fiction it s as ambitious as Sputnik as uncompromising as an Aeroflot flight attendant and as different from what you were expecting as a glass of Soviet champagne

Cognitive-Behavioral Interventions Philip C. Kendall, Steven D. Hollon, 2013-10-02 Cognitive Behavioral Interventions Theory Research and Procedures surveys a variety of areas to which cognitive behavioral strategies have been applied The various contributors represent some of the major innovators in the field Each has developed and systematically evaluated programs which apply sound empirically based procedures to cognitive and behavioral phenomena The opening chapter traces the short developmental history and describes the current professional environment of the cognitive behavioral movement The chapters that follow represent major contributions by the leading investigators across a number of areas of intervention Each chapter describes a summary of research in the respective area a description of the actual intervention procedures with supporting empirical data and a consideration of the theoretical foundations and potential implications associated with the intervention The chapter contents vary across three dimensions First the interventions range from those that focus on the acquisition of new capacities to those that deal with the control and modification of existing processes Second several chapters focus on adult populations several on child populations and some on both Finally whereas a number of the chapters deal with problems that have been areas of traditional clinical concern several others explore new and interesting applications for cognitive behavioral interventions
