J. Rosenberg, 2024-07-31 First published in 1983 *Cybernetics of Art* uses the methodology and concepts of cybernetics to explore art and the creative process Part I surveys the domain that includes both science and the arts attempting to understand their differing viewpoints and the basis of conflicts between them Art is approached as a method of knowledge aimed at knowledge of experience per se as distinct from knowledge derived through experience Part II poses the problem of notionally constructing an authorship machine and develops the technical argument by exploring the question of the kind of machine it would need to be Part III examines the

products of such a machine with a view to finding criteria for distinguishing those that might be called art An extended non technical commentary accompanies the text throughout with the dual aim of comparing the book s technical conclusions with ideas expressed by critiques and practicing artists and assisting readers unfamiliar with the information sciences in following the argument In a world dominated by artificial intelligence this interdisciplinary book will be useful for scholars and researchers of cybernetics art and humanities and social sciences in general

Richard Wright Michel Fabre, 1990 This bibliography of Richard Wright s library and reading serves as a key to understanding the development philosophies and aesthetics of this great writer and provides accurate information for the study of intertextuality in his works Richard Wright born in Mississippi in 1908 was largely self taught His only formal schooling was high school As he recounts in *Black Boy* he used a white friend s library card at the Memphis Public Library where blacks were not allowed That books were almost living companions for Wright is easily understandable Through books and later through relationships with writers he broadened his perspectives his understanding of society and the very craft of writing In the history of Richard Wright perhaps more than with other writers a knowledge of what he actually read and of what authors he preferred is essential in explaining his intellectual development Michel Fabre Wright s biographer and foremost Wright scholar details the volumes in Wright s library and the facts of Wright s reading habits This listing of books that formed and influenced him includes second hand books he bought while living in extreme poverty in Chicago some borrowed books never returned books purchased in New York and Paris books Wright deemed required reading for a growing novelist gift books and others in a comprehensive list on such subjects as contemporary American literature classic European works criminology psychiatry and social sciences In compiling this listing Fabre goes beyond the actual contents of Wright s library for he includes also titles drawn from

references in Wright's works and from accounts of people who knew him and his reading habits. Included also is an appendix that collects for the first time reviews written by Wright, his prefaces, forewords, and blurbs. They show his appreciation of diverse genres and styles, although his ideological commitment remained the same. In them one sees Wright as an author ready to help younger writers, black and white, American and French.
