Political And Social Ideas Of Jules Verne

Jules Verne

Political And Social Ideas Of Jules Verne:

The Political and Social Ideas of Jules Verne Jean Chesneaux, 1972 Provides an engaging and original view of Verne an outstandingly talented story teller Also gives insight into French social and political attitudes in the second half of the nineteenth century

A Critical History of French Children's Literature Penelope E. Brown, 2011-01-07 This two volume critical history of French children's literature from 1600 to the present helps bring awareness of the range quality and importance of French children's literature to a wider audience The works of a number of French writers notably La Fontaine Charles Perrault Jules Verne and Saint Exupéry were and continue to be widely translated and adapted and have influenced the development of the genre in other countries

Modernist Circumnavigations Kevin Riordan, 2022-05-26 This book shows how Jules Verne's *Around the World in Eighty Days* changed the global imagination Through his novel the world was converted into a personal itinerary scaled to the individual traveller and by extension to the individual reader Exploring Verne's modern legacy this study shows how subsequent generations of artists and writers took on *Around the World in Eighty Days* as an adaptable guidebook to the modern world It investigates how Verne's work leads its reader beyond the book itself It considers Verne's place in world literature traces some of the many real reenactments of Verne's itinerary and recalls the theatrical adaptations of Verne's story Published to coincide with the 500th anniversary of the first circumnavigation and the 150th anniversary of Verne's novel this book offers new insights into the largely overlooked influence of Verne on twentieth century literature and culture and on the field of global modernism

Hollywood Presents Jules Verne Brian Taves, 2015-05-26 An illuminating look at how filmmakers have taken us around the world under the sea and to the center of the earth over the course of a century Milwaukee Express Even for those who have never read Jules Verne the author's very name conjures visions of the submarine in *Twenty Thousand Leagues Under the Sea* the epic race in *Around the World in Eighty Days* the spacecraft in *From the Earth to the Moon* and the daring descent in *Journey to the Center of the Earth* One of the most widely translated authors of all time Verne has inspired filmmakers since the early silent period and continues to fascinate audiences more than a century after his works were first published His riveting plots and vivid descriptions easily transform into compelling scripts and dramatic visual compositions In *Hollywood Presents Jules Verne* Brian Taves investigates the indelible mark that the author has left on English language cinema Adaptations of Verne's tales have taken many forms early movie shorts serials feature films miniseries and television shows and have been produced as both animated and live action films Taves illuminates how as these stories have been made and remade over the years each new adaptation looks back not only to Verne's words but also to previous screen incarnations He also examines how generations of actors have portrayed iconic characters such as Phileas Fogg and Captain Nemo and how these figures are treated in pastiches such as *Journey 2 The Mysterious Island* Investigating the biggest box office hits as well as lower budget productions this comprehensive study will appeal not only to fans of the writer's work but also to readers interested in the

ever changing relationship between literature theater and film A Critical History of French Children's Literature Penny Brown,2007 **Handbook of French Popular Culture** Pierre L. Horn,1991-05-21 Throughout the world there has been much scholarly and general interest in French popular culture but very little has been written on the subject in English The authors of this book address that lack in a series of highly readable and well documented essays describing French life styles attitudes and entertainments as well as the writers and performers currently favored by the French public Several chapters explore French tastes in popular literature and other reading matter including comics cartoons mystery and spy fiction newspapers and magazines and science fiction Film popular music radio and television are also discussed in detail and influences from other cultures particularly American imports are assessed The remaining essays examine French sports the use of leisure time the French style of eating and drinking and relations between men and women and their attitudes toward romantic love Each chapter provides up to date historical and bibliographic information that will enable the reader to pursue subjects of particular interest Written by an international group of specialists this handbook offers the benefits of broad coverage a variety of viewpoints and solid scholarship **A History of Military Thought** Azar Gat,2001 From the ideas of Clausewitz to contemporary doctrines of containment and cold war this is a definitive history of modern military thought A one volume collection of Azar Gat s acclaimed trilogy it traces the quest for a general theory of war from its origins in the Enlightenment Drastically re evaluating B H Liddell Hart s contribution to strategic theory the author argues that in the wake of the trauma of the First World War and in response to the Axis challenge Liddell Hart developed the doctrine of containment and cold war long before the advent of nuclear weapons He reveals Liddell Hart as a pioneer of the modern western liberal way in warfare which is still with us today **Journey to the Center of the Earth** Jules Verne,2008-05-06 Enriched Classics offer readers accessible editions of great works of literature enhanced by helpful notes and commentary Each book includes educational tools alongside the text enabling students and readers alike to gain a deeper and more developed understanding of the writer and their work Originally published in French in 1864 Journey to the Center of the Earth tells the story of Professor Lidenbrock his nephew and a hired guide who following the instructions of a medieval alchemist claiming to have found a passage to the center of the earth travel deep into an Icelandic volcano Deep in the earth the dangers are beyond imaginable They traverse subterranean oceans have encounters with dinosaurs and other prehistoric beasts and do so all in the spirit of adventure and discovery Considered a classic in the science fiction and fantasy genre Jules Verne s epic novel is an enduring tale of man s desire to uncover the great unknowns of life and nature Enriched Classics enhance your engagement by introducing and explaining the historical and cultural significance of the work the author s personal history and what impact this book had on subsequent scholarship Each book includes discussion questions that help clarify and reinforce major themes and reading recommendations for further research Read with confidence

Mapping Men and Empire Richard Phillips,2013-10-28 First published in 1996 Adventure stories produced and consumed

in vast quantities in eighteenth nineteenth and twentieth century Europe narrate encounters between Europeans and the non European world They map both European and non European people and places In the exotic uncomplicated and malleable settings of stories like Robinson Crusoe they make it possible to imagine and to naturalise and normalise identities that might seem implausible closer to home This book discusses the geography of literature and looking at where adventure stories chart colonies and empires projecting European geographical fantasies onto non European real geographies including the Americas Africa and Australasia Journey Through the Impossible Jules Verne,2010-04-06 This is the first complete edition

and the first English translation of a surprising work by a popular French novelist whose work continues to delight readers to this day **A Research Guide to Science Fiction Studies** Marshall B. Tynm,Roger C. Schlobin,Lloyd W.

Currey,2019-10-01 Academic attention to science fiction and fantasy began in 1958 when the Modern Language Association scheduled its first seminar on science fiction at its New York meeting Over the years science fiction emerged as a popular subject that achieved critical attention and acceptance as an academic discipline A Research Guide to Science Fiction Studies originally published in 1977 is designed to provide the reader whether they be scholar teacher librarian or fan with a comprehensive listing of the important research tools that have been published in the United States and England through 1976 The volume contains over 400 selected annotated entries covering both general and specialized sources including general surveys histories genre studies author studies bibliographies and indices which span the entire range of science fiction and fantasy scholarship Interpretative Archaeology Christopher Tilley,2020-05-26 This fascinating volume

integrates recent developments in anthropological and sociological theory with a series of detailed studies of prehistoric material culture The authors explore the manner in which semiotic hermeneutic Marxist and post structuralist approaches radically alter our understanding of the past and provide a series of innovative studies of key areas of interest to archaeologists and anthropologists

The Triumph of Human Empire Rosalind Williams,2022-12-22 In the early 1600s in a haunting tale titled New Atlantis Sir Francis Bacon imagined the discovery of an uncharted island This island was home to the descendants of the lost realm of Atlantis who had organized themselves to seek the knowledge of Causes and secret motions of things and the enlarging of the bounds of Human Empire to the effecting of all things possible Bacon s make believe island was not an empire in the usual sense marked by territorial control instead it was the center of a vast general expansion of human knowledge and power Rosalind Williams uses Bacon s island as a jumping off point to explore the overarching historical event of our time the rise and triumph of human empire the apotheosis of the modern ambition to increase knowledge and power in order to achieve world domination Confronting an intensely humanized world was a singular event of consciousness which Williams explores through the lives and works of three writers of the late nineteenth century Jules Verne William Morris and Robert Louis Stevenson As the century drew to a close these writers were unhappy with the direction in which their world seemed to be headed and worried that organized humanity would use knowledge and

power for unworthy ends In response Williams shows each engaged in a lifelong quest to make a home in the midst of human empire to transcend it and most of all to understand it They accomplished this first by taking to the water in life and in art the transition from land to water offered them release from the condition of human domination At the same time each writer transformed his world by exploring the literary boundary between realism and romance Williams shows how Verne Morris and Stevenson experimented with romance and fantasy and how these traditions allowed them to express their growing awareness of the need for a new relationship between humans and Earth The Triumph of Human Empire shows that for these writers and their readers romance was an exceptionally powerful way of grappling with the political technical and environmental situations of modernity As environmental consciousness rises in our time along with evidence that our seeming control over nature is pathological and unpredictable Williams s history is one that speaks very much to the present

Children's Literature in China: From Lu Xun to Mao Zedong Mary Ann Farquhar, 2015-04-22 This book introduces the major works and debates in Chinese children s literature within the framework of China s revolution and modernization It demonstrates that the guiding rationale in children s literature was the political importance of children as the nation s future

Children's Lit in China , A history of children s literature in China set in the framework of China s revolution and modernization Lu Xun and his brother Zhou Zhuren were the founding fathers of the idea of the political importance of children and how that connected with literature tailored for them in the 20s and 30s Mosby's Outdoor Emergency Medical Guide David H. Manhoff, 1996 This lifesaving guide shows and tells the untrained person what to do in an outdoor emergency until professional help arrives Its easy to understand instructions and illustrations include care for heart attacks strokes open wounds falls choking broken bones animal and snake bites insect stings and dehydration *Fuel* Karen Pinkus, 2016-11-01 Fuel is an idiosyncratic speculative dictionary of fuels real and imagined historical and futuristic hopeless and utopian Drawing on literature film and scientific treatises most produced long before climate change was in circulation Fuel argues for a distinction between energy a system of power and fuel a substance which can be thought of as potentiality as it endeavors to undo the dream that we can simply switch to renewables and all will be golden From Air to Zyklon B entries in this unusual dictionary include Algae Clathrates Dilithium Fleece Goats Theology Whale Oil and many many more The tone of the entries ranges as widely as the topics from historical anecdotes the Ford Fiesta boozemobile to eccentric readings of the classics of energy lit Germinal and Oil from literary observations a high octane Odyssey to excursions into literary theory The dictionary draws from an eccentric canon including works by Jules Verne George Eliot s Silas Marner Paolo Bacigalupi s Windup Girl and the Tom Cruise vehicle Oblivion among others A message from this ambitious project is that energy can be understood as a heterogeneous set of self mystifying systems or machines that block access to thought as they fascinate us Fuels emerge as more primal elements that the audience can grasp at various points along the way to consumption combustion This dictionary can help scramble our thinking about fuel not in order to demonize energy and not

in order to create a new hierarchy in which certain renewables take over from fossil fuels but instead to open up potential ways of interacting with real and imaginary substances by wrenching them out of narrative and placing them into an idiosyncratic dictionary to be applied by readers into new narratives

The Dawn of Political Nihilism Professor David Ohana, 2008-12-04 In the turbulent period between 1870 and 1930 the contours of modernity were taking shape especially the connections between technology politics and aesthetics The trilogy *The Nihilist Order* traces the genealogy of the nihilist totalitarian syndrome Until now nihilism and totalitarianism were considered opposites one an orderless state of affairs the other a strict regimented order On closer scrutiny however a surprising affinity can be found between these two concepts that dominated the history of the first half of the twentieth century Starting with Nietzsche's philosophy this book traces the development of an intellectual school characterised by the paradoxical dual purpose of a wish to destroy coupled with a strong desire to create imposing structures This explosive combination of nihilist leanings together with a craving for totalitarianism was an ideal of philosophers cultural critics political theorists engineers architects and aesthetes long before it materialised in flesh and blood not only in technology but also in fascism Nazism bolshevism and radical European political movements Friedrich Nietzsche Georges Sorel the Italian Futurists led by Filippo Tommaso Marinetti and Ernst Jünger were all well known intellectual and cultural figures Here they are seen and understood in a different light as creators of a modern political mythology that became a source of inspiration for belligerent ideological camps Among the ideas propagated by this school and later adopted by totalitarian regimes were historical nihilism a revolt against the rationalistic and universalistic pretensions of the Enlightenment an affirmation of the dynamism of modern life and the replacement of the traditional Judeo-Christian values of good and evil by other dualities such as authenticity and decadence Concurrently there took place affirmation of the technological era the creation of a new man and a violent order and the birth of a new political style in place of traditional world views When channelled into the political sphere these aesthetic nihilist ideas paved the way for the rise of totalitarianism

Science Fiction: A Critical Guide Patrick Parrinder, 2021-05-18 This book first published in 1979 presents a portrait of science fiction as a distinct form of serious and creative literature Contributors are drawn from Britain America and Europe and range from well known academic critics to young novelists The essays establish the common properties of science fiction writing and assess the history and significance of a field in which critical judgements have often been unreliable The material ranges from the earliest imaginative journeys to the moon to later developments of British American and European science fiction

The Pirate Myth Amedeo Policante, 2015-01-09 The image of the pirate is at once spectral and ubiquitous It haunts the imagination of international legal scholars diplomats and statesmen involved in the war on terror It returns in the headlines of international newspapers as an untimely security threat It materializes on the most provincial cinematic screen and the most acclaimed works of fiction It casts its shadow over the liquid spatiality of the Net where cyber activists file sharers and a large part of the global youth are condemned as pirates often embracing that

definition with pride rather than resentment Today the pirate remains a powerful political icon embodying at once the persistent nightmare of an anomic wilderness at the fringe of civilization and the fantasy of a possible anarchic freedom beyond the rigid norms of the state and of the market And yet what are the origins of this persistent pirate myth in the Western political imagination Can we trace the historical trajectory that has charged this ambiguous figure with the emotional political and imaginary tensions that continue to characterize it What can we learn from the history of piracy and the ways in which it intertwines with the history of imperialism and international trade Drawing on international law political theory and popular literature The Pirate Myth offers an authoritative genealogy of this immortal political and cultural icon showing that the history of piracy the different ways in which pirates have been used outlawed and suppressed by the major global powers but also fantasized imagined and romanticised by popular culture can shed unexpected light on the different forms of violence that remain at the basis of our contemporary global order

Political And Social Ideas Of Jules Verne: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels captivating the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the captivating narratives that have captivated audiences this year. Political And Social Ideas Of Jules Verne : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed. Political And Social Ideas Of Jules Verne : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Political And Social Ideas Of Jules Verne : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and suspenseful novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
