Preparing For Armageddon A Critique Of Western Strategy:

Preparing for Armageddon Philip K. Lawrence,1988 Preparing for Armageddon Philip K. Lawrence,1988 This book looks into the issues surrounding nuclear proliferation and strategy *Possibility of Nuclear War in Asia* Col G G Pamidi,2012-09-08 This book attempts to fuse two topical subjects and deal with them in a holistic manner It is oft said and is also widely believed that the 21st century belongs to Asia and that the two giants of Asia namely China and India are going to dominate the world in the ensuing decades It is also implicitly accepted that nuclear weapons are going to be there at least for the foreseeable future These are the two topics that have been analysed in this book nuclear weapons and the emerging epicenter of global affairs namely Asia The book deals with the fundamental nature of nuclear weapons itself It purposely steers away from the Cold War mindset of viewing nuclear weapons in a western manner and attempts to unravel the manner in which the nations of Asia view these weapons in their own unique way It is also about the nature of disputes in Asia and the security environment in Asia both presently as well as in the foreseeable future Since it is a fact that there are unresolved disputes in the region the book also deals with the aspect of analysis of potential conflict scenarios Will the countries succeed in settling their disputes diplomatically Can deterrence succeed What will happen if that fails What will be the shape of future conflicts This book makes a modest attempt to provide answers to some of these perplexing questions that plague policy makers and strategists in Asia today Since the study is from an Indian perspective the focus is naturally biased more towards South Asia vis vis the other parts of Asia Though the book attempts to answer all questions some tough questions typically deny neat solutions As the author admits the aim of the book is to get both the policy and decision makers as well as the professional military to think about these issues so that in time workable solutions can be evolved **The State, Society, and Limited Nuclear War** Eric Mlyn,1995-01-01 Drawing on theories of the state archives and interviews with top defense policymakers this book tells an important story of interest to any reader concerned with how security policy is fashioned in the United States Strategy in the Contemporary World John Baylis,James J. Wirtz,Colin S. Gray,2013 The fourth edition of this successful textbook has been revised and updated in light of recent events and includes a new chapter on the rise of cybberpower Its comprehensive coverage of issues of war and peace such as terrorism intelligence and weapons of mass destruction makes it the major strategic studies textbook in the field *Strategic Studies and World Order* Bradley S. Klein,1994-05-05 In this 1994 book Bradley Klein draws upon debates in international relations theory to raise important questions about the nature of strategic studies He argues that post modern critiques of realism and neorealism open up opportunities for new ways of thinking about nuclear deterrence In clear and uncluttered language he explores the links between modernity state building and strategic violence and argues that American foreign policy and NATO undertook a set of dynamic political practices intended to make and remake world order in the image of Western identity Klein warns against too facile a celebration of the end of the Cold War concluding that it is even more imperative today to appreciate the scope

and power of the Western strategic project The book will be of interest to students of international relations theory strategic studies peace studies and US foreign policy **NATO and Eastern Europe After 2000** Laure Paquette, 2001 NATO is acutely aware of its increased status as a force for stability in a drastically altered Atlantic community The number of its initiatives is on the increase just as a new political economic and military Europe emerges The Cold War s end has wrought as many changes as there are continuities in the security environment Eastern and Central European states especially NATO and PfP members enjoy an increasing importance to NATO both as trading partners and as new participants in the civil society While the literature on relations between NATO and the East Europeans is rather limited the study of the overall posture of those states in the international system is almost non existent so that the consequences of their posture for NATO s renewed concept are unknown The study of these countries security posture and strategic interactions with Central European states in general promotes the renewed role of NATO This book shows that each of the long term relations with Poland the Czech Republic Romania and Bulgaria is subordinated to the goal of entering the European Union and that their different values will makes relations difficult This will test NATO s new strategic concept to the limit It also shows the importance of strategic thinking *Toward Other Worlds* Michael R. Collings, 2010-05-01 This collection of 25 essays of literary criticism includes pieces on British poet John Milton British fantasy writer C S Lewis American horror writer Stephen King American SF and fantasy writer Orson Scott Card British horror writer Clive Barker and several others Complete with bibliography and index The Genocidal Mentality Robert J. Lifton, 1991-11-18 Examines the cast of mind that created and maintains the nuclear threat and suggests an alternative direction **Keyguide to Information Sources in Strategic Studies** Ken Booth, Eric Herring, 1994 A reference for researchers studying the military dimension of international relations Introduces strategic studies its history and scope organizations channels of communication literature and changes provides an annotated bibliography of material relating to the Cold War period and after and lists selected organizations in 59 countries that are continuing sources or nodes of information Annotation copyright by Book News Inc Portland OR
