Memoirs of an Obscure Professor Paul F. Boller, 2013-05-31 During the heyday of McCarthyism the Chicago Tribune offended by something he had written contemptuously dismissed Paul Boller as an obscure professor he was then teaching at Southern Methodist University in Dallas Texas. Some forty five years later reflecting on the incident Boller wrote an essay on what it was like to be an obscure professor at one of America's less publicized campuses in a conservative community during the late 1950s and early 1960s. That essay became the foundation for this collection of autobiographical selections reflecting the interests and pursuits of a man who gained national recognition both inside the academic community and beyond but still values his obscurity. Whether it is a study of the much maligned Calvin Coolidge or an account of his Navy service as a translator of Japanese during World War II Boller brings to his writing a fresh approach and a lively and wry wit.

What Presidents Are Made Of, 2012-01-24 This sophisticated and playful nonfiction picture book looks at US presidents. See America's presidents as never before made of objects. Using everything from blue jeans to boxing gloves Hanoch Piven builds the characters of eighteen of our nation's leaders. Revealing anecdotes accompany the creative collages and lend insight to the charismatic personalities of prominent presidents from George Washington to Barack Obama resulting in an irresistible resource.

Almost President Scott Farris, 2013-05-07 Veteran political journalist Scott Farris tells the stories of legendary presidential also-rans from Henry Clay to Stephen Douglas from William Jennings Bryan to Thomas Dewey and from Adlai Stevenson to Al Gore. He also includes concise profiles of every major candidate nominated for president who never reached the White House but who helped promote the success of American democracy. Farris explains how Barry Goldwater achieved the party realignment that had eluded FDR how George McGovern paved the way for Barack Obama and how Ross Perot changed the way all presidential candidates campaign. There is Al Smith the first Catholic nominee for president and Adlai Stevenson the candidate of the eggheads who remains the beau ideal of a liberal statesman. And Farris explores the potential legacies of recent runners up John Kerry and John McCain. The book also includes compact and evocative portraits of such men as John C. Fremont the first Republican Party presidential candidate and General Winfield Scott whose loss helped guarantee the Union victory in the Civil War. This new edition of *Almost President* brings the work up to date with a section that explores the results and ramifications of the 2012 presidential election.
