By J. Pond,

Published by the President and Council of the Royal Society. 1811-35 ,1837 **Trade and Aid** Burton I.

Kaufman,2019-12-01 Originally published in 1982 Trade and Aid outlines the transition of U S foreign policy during the Eisenhower administration In the years leading up to Eisenhower s election America s predominant foreign economic program was based on the concept of trade not aid which deemphasized foreign aid and relied instead on liberalized world trade and the encouragement of private foreign investment to assure world economic growth When Eisenhower took office in 1953 he embraced this doctrine However as problems in the Third World worsened it became clear to Eisenhower and other architects of American foreign policy that trade and private investment were insufficient solutions to the economic woes of developing nations In 1954 Eisenhower began to embrace economic aid as a core axis of his foreign economic policy Burton I Kaufman contextualizes Eisenhower s foreign policy leadership in the ongoing historical evaluation of Eisenhower s leadership prowess He evaluates the outcomes of the Eisenhower administration s trade and aid program arguing that developing countries were worse off by the time Eisenhower left office **Message from the President of the United States to the Two Houses of Congress, at the Commencement of the ... Session of the ... Congress, with the Reports of the Heads of Departments and Selections from Accompanying Documents** United States. President,1884
